FEWER THAN 700 SAVED FROM THE LUSITANIA.  
An Open Break With Germany in Range of Discussion.

## WAY FORCE PRESIDENT TO TAKE A FIRM STAND.

*Perilous Point is Finally Reached in Our Relations with Warring Powers.*

*To Press the Wilson Policy of "Strict Accountability" for the Loss of American Lives on the Lusitania is Expected to Hasten the Crisis — Failure Means English Recruitment.*

BY JOHN CALLAN O'TAUGHLIN.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

WASHINGTON, Bureau of THE TIMES, May 8.—The government of the United States has been brought by the Lusitania to a perilous point in relation to the powers involved in European war.

In the one hand, it realizes that to exempt to hold Germany to "a accountability" for the loss of Americans aboard the liner will plunge a crisis with the German government.

On the other, failure to act will be a vote of resentment to sweep England which may have serious consequences.

Under the circumstances, President Woodrow Wilson, Chairman of the Senate Foreign Relations Committee and others in authority among the people to refrain "from taking the bait." They are asking the people to await the results of the conference, and to be ready to consider these

facts and to be assured that American rights will be upheld.

THE FIRST STEP.

As the first step in this direction Mr. Bryan today called to Ambassador Gerard directing him to ask the German government for its official report on the destruction of the Lusitania.

When that report is received and it shall show, as expected, that the Lusitania was sunk by a German submarine, then the President will act.

He will address a communication to the German government, calling its attention to the American note of protest and demand for compensation.

He will recite that without regard to that protest an American citizen, George S. Downs, was drowned when the British steamer Falaba was sunk; that German aeroplanes attacked the American tank steamer Cushing in the English Channel; that he, the British American consul at the time; that a German submarine torpedoed the American mail steamer Olinthos, although the American flag clearly flew from the pole on her stern, and

### *How the Lusitania Might Have Saved Herself*

The map illustrates the North Atlantic shipping lanes. A dashed line represents the route from Cork, Ireland, to New York City. Key locations marked include Ireland, England, France, Belgium, Holland, Germany, Norway, and the Atlantic Ocean. A small inset map shows the location of the Lusitania's sinking site, marked with a cross and labeled 'Lusitania Sinking Site'.

**How to dodge a submarine.**

Several methods of checkmating a submarine are shown in this diagrammatic drawing. In the foreground are the enemy's periscopes, to which a mer-

channan is turning his tail. This position, throws the wake of the vessel toward the oncoming torpedo, and may succeed in deflecting it to the right or left. In every case it is necessary for the merchant ship when in dangerous waters where a submarine may be encountered to drive his ship at full speed and at the same time steer an irregular course. In previous cases the enemy's "under-sea boat" has appeared abeam of the ship about 1000 yards, and then suddenly turned and dived. It is possible that the submarine may suddenly turn and ram, but should two or three craft be in company when attacked then there might be a chance for one of them to ram while their enemy was engaged with the others, for it must be remembered that the craft is not a very fast one. It is possible that the submarine, if it is touched either by the bows of its foe or by a shot from a light quick firer. In every case the merchant captain will have to think and act quickly immediately he sights his sinister foe. The map in the left-hand corner under the heading "The Straits of Malacca" indicates the "open" channel to the south of the Sunda Islands and extending down to Holland.

## NEW LIST OF SURVIVORS OF LUSITANIA DISASTER.

## LOS ANGELES PASSENGERS.

A cablegram was received yesterday morning at the Hollenbeck Hotel from A. C. Billcke conveying the news that he and Mrs. Billcke were among the passengers of the cablegram was addressed to William W. Burns, secretary of Mr. Billcke, was dated from Queenstown, Ireland, and contained the one word, "saved." It was signed Albert C. Billcke.

The fate of Mr. and Mrs. C. C. Campbell-Johnston is in doubt. The report that Willoughby Rodman had received a message from them announcing that

**NEW YORK, May 8.**—Alphabetical lists of the first and second-cabin survivors of the Cunard liner Lusitania are given herewith. They are followed by a third list containing the names of survivors among the steerage passengers and crew of the Lusitania, differentiated when possible.

Among the Lusitania left New York May 1 she had on board, according to the latest available information, a total of 1961 persons. Of these, 1251 were passengers and 690 crew. Of the passengers there were 231 in the first cabin, 519 in the second and 361 in the steerage.

**SURVIVORS OF FIRST CABIN.**

**NOTED SCIENTIST REPORTED LOST**

(BY A. P. NIGHT WIRE.)  
SPOKANE (Wash.) May 8.—Mrs. Ernest Cowper of Toronto, Can., who is visiting here, received a cablegram from her husband at Queenstown today announcing that he was safe and that he saved Miss Helen Smith of the Lusitania had been torpedoed. Mrs. Cowper is a newspaperwoman.

**WASHINGTON, May 8.**—Capt. J. B. Miller of the Coast and Geodetic Survey is among the missing on the liner Lusitania, which was sunk on a long trip in Philippine and Alaskan waters.

USITANIA DEATH LIST  
THIRTEEN HUNDRED.

*Most of the Casualties Among the First and Second-Class Passengers.*

*More than One German Submarine Supposed to Have Attacked the Great Cunard Liner — Heart-rending Scenes at Cork and Queenstown — British People are Thoroughly Angered by the Torpedo.*

BY ATLANTIC CABLE AND A. P.]

LONDON, May 9, 12:15 a.m.—Of those who left New York a week ago on the Lusitania fewer than 700 survived after that vessel was torpedoed and sunk by German submarines off Kinsale, Ireland, Friday afternoon.

A full list of the survivors who include very few of the first-class passengers is not yet available, but probably there are not many names to be added to the list of those who have made public. All the evidence goes to show that the first-class and many of the second-class passengers had such confidence in the ability of the Lusitania, because of her watertight compartments, to remain afloat after being hit by a torpedo, that they did not concern themselves about taking to the boats or even providing themselves with life preservers.

of her boilers followed. In fact, as the first torpedo hit the Lusitania forward, the crew were busy getting the ship to heel, and the passengers were escaping in getting to the boats and saving themselves with life preservers. It is thought that some many of those saved the impression prevailed upon them to remain on board when the mine attacked the Lusitania and that two or more torpedoes found their mark.

This view is held at the Cunard offices at Liverpool, but the officers of the Lusitania, who were in command of the inquest or an admiralty inquiry, brings out their evidence.

On Wednesday afternoon when the survivors were landed and when there are many bodies of those who were killed, the scene was a heartrending. Many women separated from their husbands have been searching for them. Others, who were alive or, falling in this, have been looking for them in hastily improvised boats. Others were at New York, while still others left yesterday.

When the passengers did realize that the *Lustania* was doomed they found that most of the boats on the ship were empty. The only exception of the great list of the vessel, that they could not be lowered, and the last seen of them by the more fortunate passengers who had secured places on the starboard boats or who had jumped overboard. The survivors were picked up, they were lifted on the sloping decks awaiting their fate, doubtless even then believing that, with land so close, they would still be rescued.

However, the torpedoes had torn such gaping holes in the liner that she did not remain afloat for more than twenty minutes, and the calls for help which the wireless sent out, although unanswered quickly, could not bring the rescue steamers to the spot in time to be of any use.

There is much difference of opinion as to how many torpedoes struck the ship and as to whether an explosion

## HUNDRED THOUSAND MEN PRISONERS OF AUSTRIANS

**[BY ATLANTIC CABLE AND A. P.]**

**V**IENNA, May 8 (via London. May 9, 3:20 a.m.)—A communication issued by the Field Press headquarters says that probably 100,000 prisoners have been taken in the first phase of the Western Galician battle. Seventy thousand prisoners already have been brought in.

"Chief activity," says the report "has now been transferred to the Carpathian district, between the Ussok and Lupkow passes. The rapidity of the Austro-Hungarian advance has necessitated, since for Gen. Von Mackensen's troops in order to assemble the various commands and to bring up supplies."

## HEAR GERMANY WELCOMES WAR WITH THE UNITED STATES.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

CHICAGO BUREAU OF THE TIMES, May 8.—That Germany deliberately prepared to destroy the Lusitania irrespective of the fact that Americans might be on board as passengers and that she would regard war with the United States "with feelings of equality," is shown by a letter from a high German government source, received in Washington almost a month ago. The name of the writer cannot be disclosed, nor can the letter be printed in full at this time. The Chicago Herald, however, guarantees the accuracy of the following summary paraphrase of the contents:

"A radical change in public sentiment toward America has taken place in recent weeks. Its character is shown by the following statements made by Field Marshal Gen. von Hindenburg:

"How can I feel kindly toward a people with whom we have no quarrel and whose ammunition is daily killing my soldiers."

"That Germany looks with equanimity upon a possible war with the United States.

"Our situation would not be seriously affected thereby. On the other hand, if war should ensue, the United States would cease selling munitions to the allies, for we would need them for our own use.

"That America is in no condition to go to war.

"There are no army and navy have complete opinion of your fleet. Moreover, it is not for us to pretend to be supposed that the German and Irish in the United States would remain tranquil in a war against Germany which would be the end of the world."

"That this submarine war was forced on Germany; and in it our government is backed by every man, woman and child in the empire. It will not be stopped; it will not be changed until our enemies recognise the right of our peaceful population to receive the food to which they are entitled."

**WILSON QUEST.**  
**KEEP YOUR HEAD PAPERS ADVISE**  
**But Declare Administration Must Act in Crisis.**  
**End Piracy of Seas, Inside New Orleans Journals.**  
**Entire Press of Northwest Greatly Inflamed.**

BY HERBERT WIRE—EXCLUSIVE DISPATCH.  
NEW ORLEANS (LA) May 8.—The local newspapers treat the sinking of the Lusitania as piracy of the seas. The entire press of the Northwest is greatly inflamed. The Times-Picayune wants to know what Washington is going to do about it. How long is it going to allow piracy of the seas to continue? The Times-Picayune wants to know what Washington is going to do about it. How long is it going to allow piracy of the seas to continue?

THE "DAILY STATES"  
The editorial war has degenerated into one of savagery, disregard of fact and having no parallel in modern times.  
It is true, however, that America keeps her head. In the knowledge that the Lusitania cannot fall to the bottom without the United States being dragged down with it, the administration has pursued a course of action that is calculated to bring about a peace which will be a peace of peace.

**NORTHWEST PRESS MUCH INFLAMED**  
BY HERBERT WIRE—EXCLUSIVE DISPATCH.  
PORTLAND (OR) May 8.—The Northwest press is much inflamed. The editorial war has degenerated into one of savagery, disregard of fact and having no parallel in modern times. It is true, however, that America keeps her head. In the knowledge that the Lusitania cannot fall to the bottom without the United States being dragged down with it, the administration has pursued a course of action that is calculated to bring about a peace which will be a peace of peace.

**THEIR OWN FAULT. GERMAN COMMENT**  
DOUBLY SORRY FOR AMERICAN DECLARATION OF WAR.  
BY ATLANTIC CABLE AND A. P.  
AMSTERDAM, May 8.—The German press is doubly sorry for the American declaration of war. The editorial war has degenerated into one of savagery, disregard of fact and having no parallel in modern times. It is true, however, that America keeps her head. In the knowledge that the Lusitania cannot fall to the bottom without the United States being dragged down with it, the administration has pursued a course of action that is calculated to bring about a peace which will be a peace of peace.

**ALFRED BOOTH SENDS SYMPATHY**  
BY ATLANTIC CABLE AND A. P.  
LIVERPOOL, May 8.—Alfred Booth, manager-director of the Cunard Steamship Company, made the following statement today:  
"I desire to send my heartfelt sympathy to the American people for the loss of the Lusitania. The sinking of this ship is a tragedy of the first magnitude. The entire press of the Northwest is greatly inflamed. The Times-Picayune wants to know what Washington is going to do about it. How long is it going to allow piracy of the seas to continue?"

**BERESFORD VIEW ILLUMINATING**  
BY ATLANTIC CABLE AND A. P.  
LONDON, May 8.—The British press is greatly inflamed. The editorial war has degenerated into one of savagery, disregard of fact and having no parallel in modern times. It is true, however, that America keeps her head. In the knowledge that the Lusitania cannot fall to the bottom without the United States being dragged down with it, the administration has pursued a course of action that is calculated to bring about a peace which will be a peace of peace.

# The Owl Drug Stores Make Monday "Beauty Day"

**"Beauty Day's" Chief Offering**  
**Pinaud's Lilac Vegetal**  
**Monday only 49c**  
PINAUD'S, the vegetal of world-wide fame. It perfumes the bath of BEAUTY, and soothes the shaven faces of multitudes of men.

**For Women** Millions use Pinaud's Lilac Vegetal as a toilet water, appreciating its true Lilac fragrance. It helps remove perspiration odors and perfumes the bath. It relieves "after-shaving" fatigue when applied to the face.

**For Men** Millions use Pinaud's LILAC VEGETAL for after-shaving. It soothes the shaven surface, toughens tender skin so that shaving becomes less of a drudgery. "Brain-fag" of business men is relieved by application of Vegetal to forehead and face.

**"He Serves Most Who Serves Best"**  
—We of THE OWL DRUG CO.—earnestly desire to serve you well. We would impress you, if we are able, with our cheerfulness and fair dealing. To serve you MOST is to serve you BEST.

**"Consider the Bristles"**  
"Look fine" bristles are very deceiving. You must rely on the dealer's word (some times he is a poor tooth brush buyer). A tooth brush gives service according to QUALITY and WORKMANSHIP. We say our tooth brushes are the best in America. 100 styles allow a wide choice, each. 25c

## Offering Toilet Articles and Toilet Accessories at Prices No One Can Afford to Overlook

We have dedicated Monday to "BEAUTY" and offer at her shrine your favorite toilet articles, many at very special prices. If you do not find YOUR favorite advertised, come to one of our stores, Monday, and examine the displays or inquire the PRICE.

**25% Off, Satin-wood Hair Brushes**  
**Fifth and Spring St. Store Only**  
An opportunity that occurs rarely—this offering of splendid hair brushes for so little money. Come and examine them Monday. But a few are given space here, many more are on display at our Fifth and Spring Street Store.

**Red Feather Perfume**  
1 oz. original bottle, cut price, **39c**  
**Fifth and Broadway Store only, Monday.**

**"Here Comes the Bride"** JUNE, month of roses and brides, is almost here. For Monday we have three offerings of French Ivory, as suggested GIFTS. Or, we can make up any given combination of toilet articles you desire.

**Photo Frame**  
Oval, stands 7 inches high. A handsome, serviceable frame, regular price \$1.49. Monday, \$1.19.

**Beautiful Mirror**  
7 1/2-inch face, from top to bottom, 14 inches. Can be engraved with initials at a very small additional cost. Our regular price on this mirror is \$1.79. Monday, \$1.49.

## Save 77c Monday

Splendid hair brush, ebony or foxwood back, regularly sold by us for \$1.50, with your choice of any 25c dressing comb we carry—this \$1.75 combination on Monday for only 98c.

## Vibrators . . . \$10.39

With \$2.50 Book Free  
The best way to describe a vibrator is to let you see it. In each store we have expert salespeople who thoroughly know vibrators. The book we give you FREE with each vibrator is worth the cost of the vibrator.

**97c for Bath Brush**  
Cut in price from \$1.25  
You will approve of this beautiful bath brush, so handsomely finished in white enamel it will just mesh with your bathroom. ALL BRISTLE, too—a most wonderful brush value at only 97c.

**Best Shampoo Brush We Have Ever Offered**  
For Fifty Cents  
A carefully considered statement that will stand your critical test. An ALL-BRISTLE brush in a hard wood, waxed-finish back. Thousands are sold and never a complaint—that's why we can speak so confidently of its value. 50c.

**Todco Rose Talcum**  
17c  
This is the big round can, holding eight ounces of pure, fragrant TALCUM. Our regular price is twenty-five cents. Monday's cut price will be 17c.

**The Owl Drug Co.**  
Exclusive Representatives for Red Feather Toilet Articles

Spring, Corner 5th St. N. W. Cor. Fifth 625 Broadway

## DENVER PAPERS CALL IT CRIME.

**RELIEVE UNITED STATES NOW CONFRONTED WITH CRISIS.**  
Insist It Is Occasion for People of this Country to Act with Great Fortitude and Do Nothing to Embarrass President in Handling International Question.

(BY HERBERT WIRE—EXCLUSIVE DISPATCH.)  
DENVER, May 8.—The Denver papers commented editorially on the Lusitania affair as follows:  
The Denver Post says: "It is infinitely better for a nation to perish from the face of the earth than to lose its honor, its manhood, or its self-respect. Peace at any price or craven cowardice are unforgivable sins of national or individual decadence. No nation that either refuses to protect its citizens or its honor can long endure. Let us hope that the great United States of America will not hesitate to demand an immediate and proper reparation for the barbarous and inconceivable destruction of innocent American men, women and children. There are worse things than wars. There are worse things than death."

Count von Bernstorff, the German Ambassador, was still away and no comment was made at the German Embassy, but among German officials and diplomats friendly to the German cause there was a widespread feeling of indignation. The presence of the Lusitania could be possible in this twentieth century. Mankind will hang its head in shame. This was a crime not only against those sent to the bottom, but against all that man has striven for since he emerged from paganism. The souls that were sent to eternity without warning were sacrificed to the vilest of motives. The German war council has decreed against all nations and neutrals that are not friendly to Germany.

**FOR RELIEF OF VICTIMS.**  
Red Cross Solicits Funds to Care for Survivors of the Lusitania.  
(BY A. P. MONT WIRE.)  
WASHINGTON, May 8.—Miss Mabel T. Boardman, chairman of the relief board, American Red Cross, announced tonight that the Red Cross would be glad to receive contributions to Europe, a fund for relief of destitute survivors of the Lusitania and families of the victims.

## PARIS EXPRESSES INDIGNATION.

(BY ATLANTIC CABLE AND A. P.)  
PARIS, May 8.—The press characterizes the torpedoing of the Lusitania as an "act of supreme cruelty surpassing anything yet perpetrated and violating the most elementary canons of humanity."

The Matin expresses the opinion that the wave of indignation which will be provoked in America perhaps may lead Washington to take measures which will be unpleasant for Germany.

## ST. LOUIS PAPERS ADVISE CAUTION.

(BY HERBERT WIRE—EXCLUSIVE DISPATCH.)  
ST. LOUIS, May 8.—The St. Louis Star says: "It is no time for hysteria. The voice of the jingo should be silent while the question of what should be done in this great crisis is being determined."

## GOV. JOHNSON FOR NEUTRALITY.

(BY A. P. MONT WIRE.)  
SACRAMENTO, May 8.—In response to a request from New York for an expression of the sentiment of the people of California concerning the sinking of the Lusitania, Gov. Johnson replied:

"The situation presents such grave and delicate international problems that I would not wish to express any views which might embarrass the national administration or might be at variance with a definite national policy. I may add that personally I believe in the absolute strict and real attitude of neutrality for our country in the present world conflict."

## FOR LUSITANIA RELIEF FUND.

(BY ATLANTIC CABLE AND A. P.)  
LIVERPOOL, May 8.—A Lusitania relief fund has been opened here. Lord Derby has been elected president.

## Gifts FREE

A Complete Outfit from Head to Foot

**With Every SUIT For \$14**  
**Tailor-Made \$14 or more**

Here are the 9 free gifts: Pair Walk-Over shoes, \$2.50; suit of "Merit" underwear, \$1.50; Made-to-order cap, same material as suit, \$1.50; "Merit" shirt, \$1.50; pair of suspenders of belt, 50c; pair Boston silk garters, 50c; pair of silk socks, 50c; one beautiful silk necktie, 75c; special collar to match shirt, 15c. All free with every suit.

## It Can't Be Done?

While many of my competitors, skeptical buyers and others are wondering how I can give such wonderful values with every tailor-made suit, I am very busy these days filling the many orders that are coming into my shop. I am making this offer as a demonstration of value not as a sale with any desire for profit. I can do this because I am an upstairs tailor away from high rents and other extravagant expenses and I have ten years of established reputation in this city as "THE SQUARE TAILOR" to guarantee satisfaction to every customer. If you are a believer in real honest value clip this announcement, bring it with you and come and investigate this offer. You will not be urged to buy. This Offer Expires May 15th, 9:30 P.M.

EXCHANGE BUILDING 314 E. 4th St.  
New York City, N. Y.

## ALLEGES BREACH OF PROMISE.

Los Angeles Woman Files Suit at Grand Rapids, Mich., Asking Ten Thousand Dollars Damages.  
(BY HERBERT WIRE—EXCLUSIVE DISPATCH.)  
GRAND RAPIDS (Mich.) May 8.—Charles McCarty of Lowell, Mich., has filed bond in the sum of \$10,000 pending trial of the \$10,000 breach-of-promise suit brought against him by Miss Olive Blake of Los Angeles, Cal. Miss Blake's deposition has been filed, alleging that McCarty made love to her while he was a visitor in Los Angeles in the summer of 1911.

He promised to marry her, she says, but he left her, the declaration asserts, and returned to Lowell. She followed him here, it is said, and according to the declaration, underwent an operation in Lowell on the advice of McCarty and his mother. She did not immediately recover and was forced to enter a hospital when she returned to Los Angeles, after McCarty had refused to marry her because of the operation of his guardian, she says. McCarty's guardian offered her money if she would not attempt to hold him to his promise of marriage. McCarty still maintains that he does not know Miss Blake.

CONDEMN C  
ADVOCATI

New York Newspaper

**Tragedy was Coward  
Government Must Take  
Action in the Future—"**

[BY DIRECT WIRE]

**N**EW YORK BUREAU OF THE TIMES, May 8.—All New York papers comment on the Lusitania tragedy. The

What President Wilson deach  
his speech at the Associate  
luncheon as the 'splendid cou  
serve moral force' has nev  
more commendably displayed  
American people than in rel  
the Lusitania atrocity.

German propaganda seems to be only one opinion in the country. That opinion is that the sinking of the Lusitania was a crime and infamous, and that the Americans who lost their lives were murdered in cold blood by the act of the German government. "There is no disposition to be hostile," to use President Wilson's favorite phrase; but there is a disposition to insist that the German government must stop the boat.

The main thing that concerned the American government today is the subordinate question of reparation for the assassination of American soldiers who were traveling on the Lusitania. The broader question of whether Germany can be brought to her senses and induced to abandon methods of warfare that are a crime against civilization and an affront to the world is a secondary matter."

FROM THE SUN.

Following an editorial on the  
outrage, the Sun solemnly  
states that now is the time to con-  
sider speaking, prints this:  
The constitutional defini-  
tion of treason is maintained in the third  
section of Article III.  
"Treason against the United  
States shall consist only in levying  
war against them, or in adhering to

The statutory definition of treason is contained in section 2381 of the United States Code and the penalty is prescribed in the next section: "Every person owing allegiance to the United States who levies war against them or adheres to their enemies, giving them aid and comfort, is guilty of treason."

"Every person guilty of treason shall suffer death; or at the discretion of the court, shall be imprisoned for labor for not less than five years and fined not less than \$10,000."

These provisions have no parallel in our Constitution. It is a salutary reminder, to remember their existence, to remember the words of the Constitution and laws.

FROM THE TRIBUNE.

Two questions present themselves to the United States, to the government and to the people. For the first time that have been committed crimes in every reparation that history can make in the face of irreparable injury.

"Every aboriginal nation has

Thousands of mouths like this are seen every day. The trouble is known as Pyorrhea or Pigeon Breeds. These soft, discolored, loosened and sensitive teeth can be made firm, strong and healthy by this simple Hygienic Method.

**FREE BOOK TELLS HOW**  
Stop Despairing! Don't Give Up Hope of Saving Your Teeth.

A simple home treatment which will bring you relief and comfort you desire. Stop spending money with dentists who do not help you. Don't waste your money on drug store remedies that are invariably, as you know, disappointing.

Write to us today and learn more about this painless, speedy, inexpensive remedy that you can use at home, so there will be no further need for you to undergo the long, painful or expensive dental treatment. This simple remedy will give you relief, and a healthy, strong and happy smile. Write to us today and learn how easy this method is. We will send you a free book. Just sit down and write us for this free book. A few minutes will convince you that Dr. Willard's common-sense, simple Home Remedy is what you are looking for. Don't wait. There's no pain connected with it. We have received scores of letters from people saying they would have given hundreds of dollars had they known of Dr. Willard's Home Remedy in time. Address: DR. P. W. WILLARD, 1199 Powers Bldg., Chicago.

### RANSACK HOUSE: HOLD UP OWNERS.

THIEVES GET LOOT VALUED AT SIX HUNDRED DOLLARS IN ONE JOB.

After entering the residence of C. B. Marsden on No. 977 Gramercy place, three thieves lurked behind the garage in the rear of the house and robbed Mr. Marsden and his wife when they arrived in their automobile. The bandits got about \$400 worth of loot.

According to the story told the police by Mr. Marsden and his wife, they encountered the bandits after closing a drug store owned by Mr. Marsden, and located at Thine and Hill streets. The bandits, both armed and masked, stepped from the shadow of the garage and ordered Mr. Marsden and his wife to throw up their hands.

One of the men took from Mr. Marsden a diamond ring, valued at \$200 and a diamond stud worth \$150. The second bandit choked Mrs. Marsden and attempted to rob her. A pair of earrings, but was unable to tear the jewels from her ears. Both thieves then fled.

When Mr. Marsden entered his home he found it had been ransacked and a silver tea set had been taken, and jewelry valued at several hundreds of dollars. The thieves apparently carried the loot away in a pillow slip.

Mr. Marsden gave the police a description of the bandits. One of them lost his mask in the struggle with Mrs. Marsden and she had a good view of his face.

### Sore Teeth Foul Breath

Discolor, Sore Teeth, Gum Disease and Foul Breath Quickly to Health and Happiness.

You can save the teeth that give you pleasure, prevent the pain and suffering of the dental chair by following this simple, easy and pleasant method. It is simple, easy and pleasant. It does not hurt, it does not harm you in any way.

Thousands of mouths like this are seen every day. The trouble is known as Pyorrhea or Pigeon Breeds. These soft, discolored, loosened and sensitive teeth can be made firm, strong and healthy by this simple Hygienic Method.

### POLITICAL TIPS.

A discussion of who shall be the Vice-Presidential candidate of the Republican party in the next national election has been started in Massachusetts by ex-Gov. Foss, adding Charles Sumner Bird, a prominent Progressive, to stand for Governor on a Republican-Democratic ticket, and a meeting of Republican and Progressive ward officials naming Bird for the Vice-Presidency. Mr. Foss has been a Republican, a Democrat, a Progressive, and a Socialist, most anything politically, but he dislikes to yield his dictatorship to the old parties with which he has been associated. If Mr. Bird could be elected Governor then his supporters would demand that he receive the recognition of the Republican convention. Mr. Bird's position on the subject of the national prohibition movement, but he does believe in the suppression of the manufacture and sale and importation of all distilled and spirituous liquors. At the same time he admits that people have rights, and he is not certain but that they have as much right to use wine and other beverages as other persons have to use tobacco.

Ex-Representative Palmer, national committee member of Pennsylvania, says President Wilson will receive an unexpected recognition by the Democratic convention. Mr. Palmer recently received a letter from the President in which the latter stated his position regarding the one-term plank in the platform, but he will not make the letter public at the present time. He intimates that the subject of the convention plank indicates that he does not feel bound by any of them when they come to a shield or his action, as he has made the absence of a plank regarding woman suffrage a shield for himself. The convention plank indicates that he does not feel bound by any of them when they come to a shield or his action, as he has made the absence of a plank regarding woman suffrage a shield for himself.

The suffragists of New Jersey are excited over the fact that the results of the special election on October 19 to decide the question of suffrage in the Constitution will be announced till November 3, three days after the general election. They do not look upon this fact as evidence of the male voters' friendship for suffrage.

Until recently there has been no voice raised among the Democrats against the renomination of President Marshall, but a boom has now been started in Washington in favor of Senator James Hamilton Lewis of Illinois, who has attached national fame because of his whiskers, his manner of speaking, and his courage in opposing the administration. In these respects he will have the lead on almost any other candidate that can be named by the Democrats.

William Hale Thompson, the new Republican Mayor of Chicago, has already started a movement for the creation of a \$10,000,000 fund for the establishment of a public playground. He expects that the most of this amount will be contributed by subscription.

At a Republican banquet in Pittsburgh the other day, Gov. McClain criticized Gov. Brumbaugh with a considerably mixed result on his audience. He accused the Governor of dictatorship, and declared that he himself refused to subscribe to a resolution which was a personal program in legislation shall not have a "I" dotted or a "T" in it. The resolution was a branch of government to which the Constitution allows legislation. The Governor has given evidence on several occasions that he knows what he wants and that he proposes to get it.

The Washington correspondent of the Boston Transcript says President Wilson has given evidence of his desire to get out from under the domination of the Southern States. Labor as he has come to the conclusion that instead of working for other bills in which Los Angeles city is interested.

To one on the ground here the reason for this sudden change of heart toward the Southern States is apparent; the Southern Progressives have insisted on grooming two candidates for Congress and all candidates for Congress of other parties will be stamped out.

In the Assembly. SIX NEW JUDGESHIP. (BY A. P. NIGHT WIRE.)

SACRAMENTO (Cal.) May 8.—Six new Superior Court judgeships were created tonight by the passage in the Assembly of Senate bills, over which there was little opposition. Los Angeles and Alameda counties will have two judgeships each. The bills go to the Governor.

The Senate and Assembly close at hand, the Assembly devoted its entire attention to passing Senate bills, practically all of which were approved by the Senate with little debate. Almost all were code amendments.

Senate bill, authorizing county Boards of Supervisors to employ visiting nurses to assist in the care of persons who are unable to avail themselves of proper medical attention, was one.

IN THE SENATE. WOMEN JURORS' BILL. (BY A. P. NIGHT WIRE.)

SACRAMENTO (Cal.) May 8.—A special attempt to pass legislation for women jurors was defeated in the Senate today, 22 yeas and 17 nays. A bill by Assemblyman Downing, Socialist, the woman jurors' bill, was defeated some weeks ago, after days of contest. On the face of Downing's bill there was no indication of its intent. A roll call had almost started when Campbell jumped up and said:

"It's very clever trying to slip this over on us, but I'd like to say that this is nothing more than a woman jurors' bill."

"I voted for the first bill," said Benson, "but I don't think it is right in the last hours to try to slip this through."

Anderson, Butler, Carr, Finn, Flaherty, Kehoe and Wolfe voted aye.

### SEVERAL JOLTS TO SOUTHLAND

Bills Much Wanted Here are Killed in Legislature.

Northern California Projects Get by Far Best Deal.

Los Angeles Consolidation Goes by the Board.

(BY DEBENT WIRE—EXCLUSIVE DISPATCH.) SACRAMENTO, May 8.—Southern California is finishing away in the rear in the southern counties were much interested have been refused passage.

In addition to this, less than \$500,000 to \$1,000,000 of apportionment bills will be expended in Southern California. By a bit of clever manipulation at the last hour, the California is to lose the \$200,000 appropriation which passed the Legislature as a bill for State highways.

Leading from Riverside and from San Diego into the Imperial Valley. When the question of a State highway bond issue was broached the northern legislative manipulators succeeded in having the bond issue postponed to \$15,000,000 bond issue, ratification of which cannot be submitted to the people until the next general election.

This means that no State work will be done on these highways during the next two years, that the \$200,000 will go to Northern California reclamation projects and that the Southern California counties will have to support a \$15,000,000 bond issue in order to get \$2,000,000 of this sum expended south of Tehachas.

COUNTY CONSOLIDATION. City and county consolidation for Los Angeles went by the board three weeks ago. This was one of the measures in which Los Angeles city was deeply interested, but it did not appeal to the northern "Progressives," hence its defeat.

As a ruling finale the Association of Street and Highway Contractors of California succeeded in winning and passing a bill which would have the Los Angeles bill for the amendment of the Vrooman act relating to street cleaning, which was passed by the Assembly. This was the most important measure relating to street cleaning, but it did not appeal to the northern "Progressives," hence its defeat.

Naturally, this was opposed by the street contractors as it places a city in position to break any combination for boosting the price of street work.

TREATMENT OF ROBINSON'S. If some of the high-brow associations of Los Angeles desire to know how legislation that is progressive in the proper sense of that term was knocked and blocked by administration machine at Sacramento they should call upon Howard Robinson, deputy City Attorney of Los Angeles, to furnish a written report on just what happened.

This bill in the Senate, where three-fourths of the members have voted for every administration measure. Robinson has been here for three weeks working for that and three other bills in which Los Angeles city is interested.

To one on the ground here the reason for this sudden change of heart toward the Southern States is apparent; the Southern Progressives have insisted on grooming two candidates for Congress and all candidates for Congress of other parties will be stamped out.

In place of the present method of selecting delegates to the State party conventions, committees will be elected by Congressional districts. The party nominees for Congress will compose the State conventions.

The non-partisan bills were the chief recommendation made by Gov. Johnson in his biennial message. They were passed by the Assembly a few days after passage through both houses. Movements have been made here for the party political system in State government, for a referendum on the measures.

TAXATION LEGISLATION. Taxation legislation figured prominently. A law was enacted raising, approximately 10 per cent, the tax rates on gross revenues of the corporations, which, under the present system, contribute the State's revenue. This act, it is estimated, will add \$2,400,000 in revenue biennially. A thorough investigation of the tax situation looking toward a complete revision of the tax system was provided for, with an appropriation of \$75,000. A new corporation license tax, expected to add \$400,000 a year, and an inheritance tax increase, expected to add \$250,000 a year, were passed.

CONTRACT EMPLOYMENT. A bill was passed, and signed by the Governor, permitting the employment of convicts from the State prisons on State highways. It has the double purpose of building roads into inaccessible districts and of aiding the reclamation of criminals by giving them wholesome, out-door work. For faithful service on the highways the prisoners will be rewarded with reduced terms.

VEHICLE ACT. Automobile owners were largely affected by the passage of an amendment to the vehicle act. Principally, it changes the State license fee to 40 cents a horse power. It accomplishes an annual saving of \$40,000 by allowing owners to keep the same number plates and re-register them each year. The section requires all horse-drawn vehicles to carry lights at night.

CIVIL PROCEDURE. Among scores of amendments to civil procedure laws, perhaps the most important were reforms urged by bar associations. The State, through which delays in cases on appeal will be reduced, it was declared, from an average year and a half to a maximum of four months.

THE INITIATIVE. Half a dozen alterations in the Initiative, May 9, 2:45 a.m.—The Chinese government has acceded to the Japanese demands as finally modified, foregoing the right to be heard, and the Japanese Legation in Sacramento has accepted the government's position. The Japanese Legation yesterday kept secretaries moving to and from the Japanese Legation in Sacramento, and the Japanese Legation in Sacramento has accepted the government's position.

At the beginning of the conference last January the Japanese Legation especially specified who should act as the Chinese plenipotentiaries. The Chinese acceptance of the demands is now being prepared under Japanese supervision.

With the exception of an unorganized boycott there has been no movement against the Japanese resident in China and there is no report of any attack on the Japanese.

From Dally comes word that 20,000 Japanese refugees, with their belongings, are arriving at Hongkong, reports an exodus from Canton and other places. Shanghai reports that the Japanese are crowding the settlement and that trade is at a standstill.

Germany Taps Its Gold Hoards. [London Chronicle:] Germany is now reeling the horde of gold which she received in indemnity from France. Part of it has no doubt already been spent for armaments, and the rest which has remained in strong rooms in the fortress of Spandau is now being drawn upon to pay for imports. Some of the gold was in English sovereigns and these coins are now finding their way back to this country.

Some of these sovereigns have a peculiarity which does not lessen their value, although it might be regarded as a defect. The heads of Queen Victoria and of St. George are placed in opposite ways. The date on these sovereigns is 1873 and apparently the box containing a consignment had not been opened from 1873 until now. These particular sovereigns reached this country through Sweden.

English Gardeners Were Slow. [London Chronicle:] Evidence of the backwardness of Englishmen in the cultivation of fruit and vegetables is borne by Fuller, who, writing in 1869, says: "Gardening was first brought into England for profit about seventy years ago; before which we fetched most of our cherries from Holland; apples from France, and had hardly a taste of ripe peaches but from Holland, which were dainties for ladies they came so far, and cost so dear. Since gardening had crept out of Holland, and thence to Surrey, where they have given it an acre and upwards, they have made their rent, lived comfortably, and set many people to work."

## BOARD SUSTAINS CHARITY RATES

Refuses to Lower Schedule to Southern Beaches.

Pacific Electric Company Winner at Hearing.

State Railroad Commission Takes Broad View.

San Francisco, May 8.—The board of directors of the Pacific Electric Company today refused to lower the rates for the Southern Beaches. The board, which met in session at the company's headquarters in Los Angeles, considered the request of the Southern Beaches Association, which had asked that the rates be lowered to the same level as those for the other beaches. The board, however, decided to maintain the current rates, stating that the company's expenses for the Southern Beaches were higher than those for the other beaches. The board also considered the request of the Southern Beaches Association to have the rates for the Southern Beaches lowered to the same level as those for the other beaches. The board, however, decided to maintain the current rates, stating that the company's expenses for the Southern Beaches were higher than those for the other beaches.

A Canny Widow. (Manchester Guardian.) The widow of a man who had been a successful business man, and who had died a few years ago, was a very canny woman. She had a large estate, and she was very careful of her money. She had a large estate, and she was very careful of her money. She had a large estate, and she was very careful of her money.

## OF BUSINESS LAST LEGISLATURE

[BY A. F. NIGHT WIRE.]

Ludwig Vollhard.

Read his letter: Western Securities Co., 711 Hollingsworth Bldg., Los Angeles, Cal.

Gentlemen:—

I am proud of my 40 acres in Pahvant Valley. I was formerly engaged in the brewing business and came here absolutely without any farming experience, and have succeeded. I value my land today at \$200 an acre. I have raised as high as 64 bushels to the acre of Turkey Red wheat. I am proud of my fine herd of hogs. We raise our own feed and we also pasture our hogs for six months of the year. I shall heavily increase my herd of hogs, as I am satisfied that this is the best hog raising country in the West. We are not hampered by diseases and the climate is just right for hogs.

As an alfalfa and dairy country this section is without a superior. On my land I have produced the finest varieties of vegetables—celery, parsnips, tomatoes, cucumbers, beans, peas, carrots, strawberries, raspberries, currants and muskmelons. I am convinced that this is a good apple and pear land. I have never seen better sugar beets than those raised here. Our climate is the best, and our drinking water is simply fine. I can't say too many good things about this country. It is a land of opportunity. More favorable conditions for successful farming could not be desired.

(Signed) LUDWIG VOLLHARD.

State of Utah, County of Millard, ss. Subscribed and sworn to before me this 19th day of December, 1914.

A. M. McPHERSON, Notary Public. My commission expires Nov. 9, 1918.

Pahvant Valley is on the main line of the Salt Lake Railroad in Southwestern Utah—under \$1,000,000 irrigation system. Estimated annual cost of maintenance from 40 to 50 cents per acre.

\$70 Per Acre for Land and Perpetual (Gravity) Water Right. \$25 An Acre Down. Balance in 10 Years.

Mr. Vollhard's statement is one of many testimonials by Pahvant Valley farmers published in "Sworn Statements," a straight-from-the-shoulder booklet giving local facts about Pahvant Valley land by men you will meet and talk to when you visit the Valley. If you want rock-bottom facts about the most unusual land offering in all the West, a copy of "Sworn Statements" will be sent on request.

M. M. Steele, Jr., of Delta, Utah, started out one year ago in Pahvant Valley with just a few hogs. Read in this booklet what he has accomplished in a short time. Read what Arthur L. Griffith says he has done on 40 acres, with no previous farming experience. Read how S. W. Western netted \$2350 on 25 acres from alfalfa seed in one season—what O. B. Landon thinks of \$70 land that will net 70 per cent. net profit on grain alone—why Hy Sherer's net worth increased from \$1100 to close to \$10,000 in two and one-half years. These are local facts as told by local men. Special excursions at low home-seekers' rates.

## WOMAN, ASSAULTED IN HER ROOMS, MAY DIE.

WITH her face beaten to a pulp and her upper jaw, nose and skull fractured, Miss Clara Ford, a manicurist of No. 202 West Eighth street, was discovered late yesterday afternoon lying in a pool of blood in her room, which adjoins her living-room. At the Receiving Hospital Dr. Moore declared she may die from her injuries.

Between gasps for breath Miss Ford informed Police Detective Ingraham that she did not know the names of her assailants, but had seen the two men who had assaulted her several times. The injured woman gave the police their description.

To the detectives Miss Ford declared she is the victim of two men who several days ago attempted to force her into a "frame-up" against some police officers. Miss Ford said

she ordered the men from her room and notified members of the police of their talk. "Early yesterday afternoon Miss Ford told the police two men, who have visited her place several times before, called. They asked her to change a \$20 gold piece and she declared she can remember no more. When she recovered consciousness the men were gone.

The men, Miss Ford declared, are not those who attempted the "frame-up" on the police. They were in her room, however, at the same time.

Upon investigation it was discovered nothing had been taken from Miss Ford's room except \$7 which she had in a small purse. The thugs, according to the police, made no search of the room.

From the time she gave the information to the police, Miss Ford asserted, she was troubled with men hanging about her room doors at all hours of the day and night.

## BELGIAN HARE EXPERT TO GIVE

Southern California, will take as subject, "Does Belgian hare raise pay?"

Mr. Caldwell will tell what he has been able to accomplish through application of practical business methods. His detailed account

**FREE LECTURE**

Mr. F. P. Caldwell will deliver a free illustrated lecture Tuesday evening, May 11th, in the ground floor lecture hall of the Angeles Mesa Land Co. at 433 South Hill Street. The lecturer, who is owner of the well-known Royal Red Rabbit Ranch and one of the most familiar faces connected with this industry in these methods of operation also prove of immediate value to those who are engaged in this industry even in a small way. The lecture will be illustrated by views taken on Caldwell's ranch and starts promptly at 7:45 p.m. Admission is absolutely free as it is given under the auspices of the Angeles Mesa Land Co. officers of San Fernando Mission Act at the mouth of the \$30,000,000 Owens River aqueduct. The completion of this great aqueduct of San Fernando Valley means an increase of from \$200 to \$400 an acre in the valleys these lands.

**DARKENING DAYS  
FOR NEGRO CHEF.**

**Wayward Youths Tripped up  
by the Police.**

**Chinese Trade Commission to  
Visit Pasadena.**

[LOCAL CORRESPONDENCE.]

PARADEA, No. 9.—Mrs. Jennie  
Paradea, of No. 435 North Orange  
avenue, whose first husband,  
John A. Clark, was drowned when  
the Titanic went down, received in-  
formation that her negro clerk had  
been arrested in Chicago on a charge  
of forging Mrs. Tanner's name to a  
check for \$150.  
Although the prosecution of the  
case, Henderson J. Whiffan, is to  
be made on the forged check for  
\$150, it is alleged he obtained \$1600  
on the same method. Accord-  
ing to the police the check specifi-  
cally mentioned was cashed by the

Tanner had not the slightest idea of the true state of affairs three hours or more after the man had left for Chicago, when he called up and wanted to know how he had given a check for \$150. In the investigation it was found

The boys are at different Pasadena hotels. Chief of Police McIntyre will take them Tuesday for Chicago to bring them back to Pasadena for trial. When arrested he had very little money left. It is supposed that he had been gambling.

**YOUTHFUL FORGER.**

The rapid-quick activities of two boys, aged 14 and 15, respectively, involved a staggering blow Tuesday, when they were arrested on a charge of forgery at the very beginning of their career of crime.

The boys are E. Pollock, aged 14, and J. Nelson, 15 years old. They already had formed a habit of passing money. Nelson, however, blames

jumped a boy for his first trip over the top of wickedness.

Monday, with a check for \$25, Nelson went to the First National bank. It was cashed. Finding the cash was so easy to obtain, five boys evidently thought they would go into the banking business for themselves. But when Nelson appeared at the same bank at the cash window with a check for \$50, he was refused so well. Instead of going on his way with the money, a policeman was called in and he was arrested and taken to jail.

In regretting that misery loves company, he "squealed" on his would-be partners.

men, ade. too, was arrested and  
will be jailed. They will have their  
opening trial tomorrow morning  
at the Juvenile Court.

**CHINESE VISITORS.**

Thirty members of the Chinese  
Commission who are touring  
the United States, will arrive in Pan-  
ama tomorrow morning and will be  
hosts of the Board of Trade.

They will motor over from Los An-  
geles and after being shown over the  
city and the surrounding country will  
be entertained at luncheon by the  
board if they have time before going  
to Riverside.

The noted Chinese are members of  
a commission which is touring this  
continent.

OFF FOR THE POTTER.

Tracy Morgan and her Misses Elizabeth Marjerle, Curtis and Marian left Pasadena yesterday morning for Los Angeles by automobile. In the afternoon they left Morgan's private car for San Bernardino, where they will be detained at Hotel Potter.

## DRINK HABIT CONQUERED IN THREE DAYS

This Appeals to the Busy Man Because It Saves Time.

The Neal Drink Habit Treatment is superior to all other methods of treatment because it is a purely vegetable,

harmless, internal treatment — hypodermic injections are never used — that removes the craving for drink in three days. Hundreds of men and women have been redeemed from drink and drug slavery by the Neal Treatment during the past four years. The Neal Home Treatment can be arranged for if desired. For full information call the Los Angeles Neal Institute, 945 South Olive Street, or write or phone G. N. Neal, Manager. Phones: Broadway 4602, A4672. All drug habits treated.

## The Advancing City

AND TRIBUTARY TERRITORY.

XXXIV YEAR.

## MEXICAN EXILES LOOK TO HUERTA TO TAKE LEAD IN WAR OF PACIFICATION.

Believe Him in this Country on Indirect Invitation of Wilson, Ready to Lead a Vast Army—Men of Wealth and Brains See Peace Looming Near—Prominent Refugees Here.

OUR HUNDRED aristocratic Mexican refugees in Los Angeles believe that Gen. Victoriano Huerta came to the United States on the indirect invitation of President Wilson to foment a revolution of pacification in Mexico.

In Huerta's presence in the United States they see peace in the northern republic within seven months, without foreign intervention, through the new revolt which, they believe, is to be given the full moral support of the United States government and the financial aid of American interests.

Casualties, the European chancelleries at Washington are agog with such the same kind of talk.

And it may be pointed out that there is now assembled at San Antonio, Tex., the greatest revolutionary junta of its kind ever to be organized on "neutral" American territory.

Also, from all along the border come reports of mysterious shipments of arms that are apparently not intended for consignment in Mexico to either the Carranzista or Villista forces.

Simultaneously, Gen. Pascual Orozco was commander-in-chief of the army which operated against the president, Francisco I. Madero, in the north, and he crossed the American border to head a new uprising in Los Angeles, in the office of a Mexican attorney who was in the old Mexican Federal government, there is on file under proper names a list of the names of 400 men—capitalists, mining men, military chiefs, etc.—who are seriously awaiting the hour when the call that will take them to the banner of a new republic.

In Los Angeles—like New Orleans, San Antonio and San Diego—there is a secret and for secret operations a rendezvous for men, women and children who have been of fortune and forced to flee. There has become a hotbed of revolution.

Money and columns of the old army, multi-millionaires and miners, captains of industry and commerce, holders of vast land, bankers and attorneys—Mexican brains and wealth—are here. They are names that mean world-wide fame and money in Mexico. They are names that mean world-wide fame and money in Mexico. They are names that mean world-wide fame and money in Mexico.

## Prostrated Over the Lusitania Horror.

Miss Maibelle Heikes Justice.

A clever New York authoress, now in Los Angeles, and whose sister, Mrs. D. R. Shymmer, New York, was on the torpedoed ship and has not been heard of. The name of Mr. Shymmer appears among those who perished. As he did not sail the victim is believed to be Mrs. Shymmer. Miss Justice is the guest of Mrs. Frank P. Jones and her daughter, Mrs. Hortense B. Jones-Dorr, on West Thirtieth street.

## TIDINGS OF LUSITANIA MESSAGE FROM GRAVE?

Authoress Receives Letter Telling of the Departure of Her Sister on Ill-starred Craft Only Short Time Before News of Vessel's Fate—Little Hope for Safety of American Civilian.

A LETTER telling of the departure of her sister on board the Lusitania, and of the joyous party at the pier, was received by Miss Maibelle Heikes Justice, authoress and authoress of note, now visiting in this city, a few hours before the news of the terrible disaster to the giant steamship and the probable death of her sister, Mrs. D. R. Shymmer of New York.

Miss Justice was almost prostrated by the sudden blow. Mr. and Mrs. F. P. Jones, her cousin, with whom she is staying in this city, became so worried they considered it necessary to call a physician.

That last letter, written by her mother, Mrs. J. J. Hankins, speaks of her sister's departure, and of the joyous party at the pier, was received by Miss Maibelle Heikes Justice, authoress and authoress of note, now visiting in this city, a few hours before the news of the terrible disaster to the giant steamship and the probable death of her sister, Mrs. D. R. Shymmer of New York.

Miss Justice was almost prostrated by the sudden blow. Mr. and Mrs. F. P. Jones, her cousin, with whom she is staying in this city, became so worried they considered it necessary to call a physician.

## PUBLIC TO FIX VALUES OF LAND.

City and County Join to Make Common Assessment.

Final Values will be Based Upon Public Opinion.

Creation of Zones Starts Work of Revision.

What is the value of your house? That is your downtown property worth and what is the value of the property upon it?

These questions will be asked of property owners in seven distinct zones next week by the Joint Board of Appraisal, which is maintained by the city and county to make an annual valuation of between \$60,000 and \$100,000 of property in Los Angeles city and county, exclusive of the city and county of Los Angeles.

For instance, a group of property owners are based upon the value of their property as determined by the most valuable lot of real estate in Los Angeles at the southwest corner of Broadway and Broadway.

This decision is the consensus of the Board of Appraisal.

When the boundaries of these zones are established, in a few days, property owners within each zone will be called together. Committees will be named and these committees will estimate the value of their property and value of a certain front foot of land.

Having established the unit value, the committee will then appraise the value of their property as a whole. This will be done in each zone. A map will be made indicating the most valuable lot of each zone in Los Angeles. This zone, having district, will receive the value of a common judgment. In this manner the assessors can get the opinion of the community as to the value of their property.

When the Board of Appraisal, which was created by act of the City and County of Los Angeles, is called to the Board of Supervisors, it will be charged with the duty of making a final valuation of the property in the city and county. The tax assessment for the year will be made on the basis of this valuation.

The Bureau of Appraisal, which is composed of City Assessor, County Assessor, and a Board of Supervisors, will be in charge of this work.

Mr. J. C. McMillan, City Assessor, and Mr. J. C. McMillan, County Assessor, will be in charge of this work.

Mr. J. C. McMillan, City Assessor, and Mr. J. C. McMillan, County Assessor, will be in charge of this work.

Mr. J. C. McMillan, City Assessor, and Mr. J. C. McMillan, County Assessor, will be in charge of this work.

# THE TIMES-MIRROR COMPANY

**OFFICERS:**  
H. G. O'NEILL, President and General Manager.  
HARRY CHANDLER, Asst. Gen. Mgr. and Treas.  
HARRY E. ANDREWS, Managing Editor.  
F. F. PATTERSON, Assistant Treasurer.  
MARIAN OTIS-CHANDLER, Vice-Pres. and Sec'y.

## Los Angeles Times

EVERY MORNING IN THE YEAR.  
Daily, Sunday, Illustrated Weekly and Semi-Weekly Magazine. Daily Founded Dec. 1880.  
Member, Class A, of the Associated Press. Local and foreign news covered. Day, 15¢; Night, 10¢; Sunday, 5¢. Subscriptions, 10¢ per week.

**OFFICE:**  
New Times Building, Third and Broadway.  
LOS ANGELES (Loco Ahno-haul-ah)  
Entered at the Postoffice as second-class matter May 11, 1880.

**ENTIRELY AT PEACE.**  
The Bank of Italy had a gorgeous opening Saturday at Seventh and Broadway. There is no war cloud on the map of this institution.

**MAKING THE PERFECT CITY.**  
Work will begin this week at Van Nuys to complete every unpaved street in that city. The new contract is costing over \$1,000,000. This is almost the last necessity to make Van Nuys an absolutely modern city.

**JUST A GUESS.**  
Fifty Indians attended a banquet at Omaha and drove from their reservation in their own automobiles. We refuse to provide free advertising for one company by naming the make of the machines they drove. We are not in competition with the artists on the Orpheum circuit.

**REMEMBER MOTHER'S DAY.**  
This is Mother's Day. Its observation is a beautiful custom. The white carnation is an appropriate flower for the occasion both for its beauty and fragrance. It is fitting that a special time should be set aside to the memory and appreciation of motherhood as the glory of life.

**FOR A GOOD CAUSE.**  
In the past thirty days Los Angeles banks have loaned \$100,000 on Southern California farms. This money, at from 6 to 7 per cent, is serving both lender and borrower and the State and nation as well. It is an excellent sign when abundant funds are available for the man who is feeding the land.

**BRANDIES GETS A JOB.**  
Brandies has butted into another job. Son-in-law McAdoo did not feel like entrusting to the force in the Attorney-General's office the defense of the suit brought against him by the Riggs National Bank, so he employed the Boston butcher as a special counsel. This will add, of course, to the treasury deficit, but it will swell the bank balance of the butcher.

**IMPORTANCE OF HUMOR.**  
Our dramatic critic reckons humor as one of the first essentials of an actable play. Precisely, and for this reason "Moss Yarn," the most actable play written by Maurice Maeterlinck, is lacking in delight, whereas "Pudd'n Head Wilson," a play of less dramatic and literary value, will always be a favorite with American audiences, because it bubbles over with laughter.

**SPLendid MANAGEMENT.**  
Last Monday the Methodists of Los Angeles laid the cornerstone of the hospital at number 2326 South Hope street, which was to cost \$250,000. They founded the institution in 1903, purchased their present site in 1909 and began work on the foundation in 1914. The Methodists of both branches of the church have built up powerful financial institutions in Los Angeles, and are to be heartily congratulated on the excellent business judgment exercised in managing their affairs.

**WISE RAILROAD MAN.**  
When Commodore Vanderbilt voiced his alleged edict, "The public be damned," he dictated a rule of procedure for several succeeding generations of railroad men. In fact, it has been only within late years that traffic men have come to see that the interests of the railroads and the public are interdependent. One railroad man, however, who has consistently shown a disposition to meet the public half way is E. E. Calvin, who was last week elected first vice-president of the Salt Lake. Consequently, that carrier has been congratulated on securing the service of a man who has done much to bring about a better understanding between the railroads and the people.

**MAIL-ORDER WIFE.**  
Nido Okabe, the Japanese poolroom keeper at Santa Anita, demonstrated that it was possible to send from Seattle a mail order to Yokohama for a bride, and have the order filled. He found, on her arrival, that the lady was not up to photograph sample so far as personal beauty was concerned. He waived that, and then he learned that the temper of his wife left very much to be desired. She framed her verbal disputes on her husband's character and career according to Barbary Coast slumgullion vocabulary rather than according to decorous Japanese speech. In Yokohama a lady—if she is a real lady—does not call her liege lord a low-legged, cock-eyed, thrice accused son of a bachelor.

Nido Okabe, finding that he could not have an obedient, loyal, loving wife, concluded to utilize her as keeper of a cigar stand in the corner of his poolroom at Santa Anita. Unfortunately, he had rented the opposite corner to Kanagishi, a Japanese barber with both an amiable and a lawless disposition, and as a result, the barber left without paying his rent, and with him fled Nido's wife, carrying with her all the cigar money and most of the cigars.

Nido had the consolation which American civilization affords. He obtained an interdictory decree from Judge Judge Thomas, and has sent another mail order to Japan for a wife, to be delivered by parcel post not before May 1, 1916—age, disposition and regularity of features to be guaranteed.

**AMERICA'S WEAKNESS.**  
"The Goths are not at the gates," they are within the gates. In a striking summary of social conditions Mr. George H. Maxwell thus compares modern America with ancient Rome. The "patriotism of peace," the only patriotism that will safeguard us from enemies on the outside and revolutionists on the inside, must be better practiced by all our citizens if this American republic is to escape the evils that finally sapped the vitality and brought about the downfall of the greatest people of the pre-Christian era.

This may sound a strong statement to those whose faith in our future is based on our past achievements alone, who believe our flag is invincible simply because it is our flag. We must make it invincible; we can make it invincible, but not by the system of national defense we have so far worked out in a half-hearted way at a tremendous expense, and left incomplete at that.

America's weakness comes from the Goths within the gates more directly than from the Goths without. It comes from the surplus of congested cities which we have allowed to fester in tenements and slums till the produce bred of poverty, crime, insanity, disease and human misery is now a far greater menace to our national existence than any army or navy that could be brought against us by the martial might of a foreign power.

Never must we confound the concept of ignorance and vain boasting with the honest pride and patriotism that produces results. As we stand at present we are not invincible; we are threatened by a danger within that we cannot only remove, but turn to a safeguard against any menace from without. The best way to prepare for war is to have an army developed and hardened by such peaceful operations as bring to the front all the rugged virtues which enabled our citizen soldiery under George Washington to defeat the trained veterans of Great Britain. But that army was never raised from overcrowded cities where part of the people had been softened by too much luxury and another part rendered unfit by poverty, crime and disease.

We have heard much lately of the Japanese danger. In the commonwealth of California we have an area greater in extent and richer in natural resources than the islands of Japan. Yet Japan is supporting a rural population of 30,000,000. When California supports through its agricultural wealth even half this population we shall have our Pacific Coast adequately defended against any foreign invasion by a citizen army trained by an outdoor life to immediately take up the duty of the professional soldier as our forefathers did against the exactions of a tyrannical Parliament.

We have enough uncultivated land in California to accommodate the surplus that congests our large eastern cities and is producing there material for red revolution and so weakening the whole commonwealth. Thus, instead of the discontent on which in districts that have passed the saturation of humanity mark anarchy and crime are feeding, we have scattered over the rich earth under the good sunshine, army of robust agricultural soldiers devoted to the pursuit of peace, animated by a love of home and country and capable of repelling any foreign invasion.

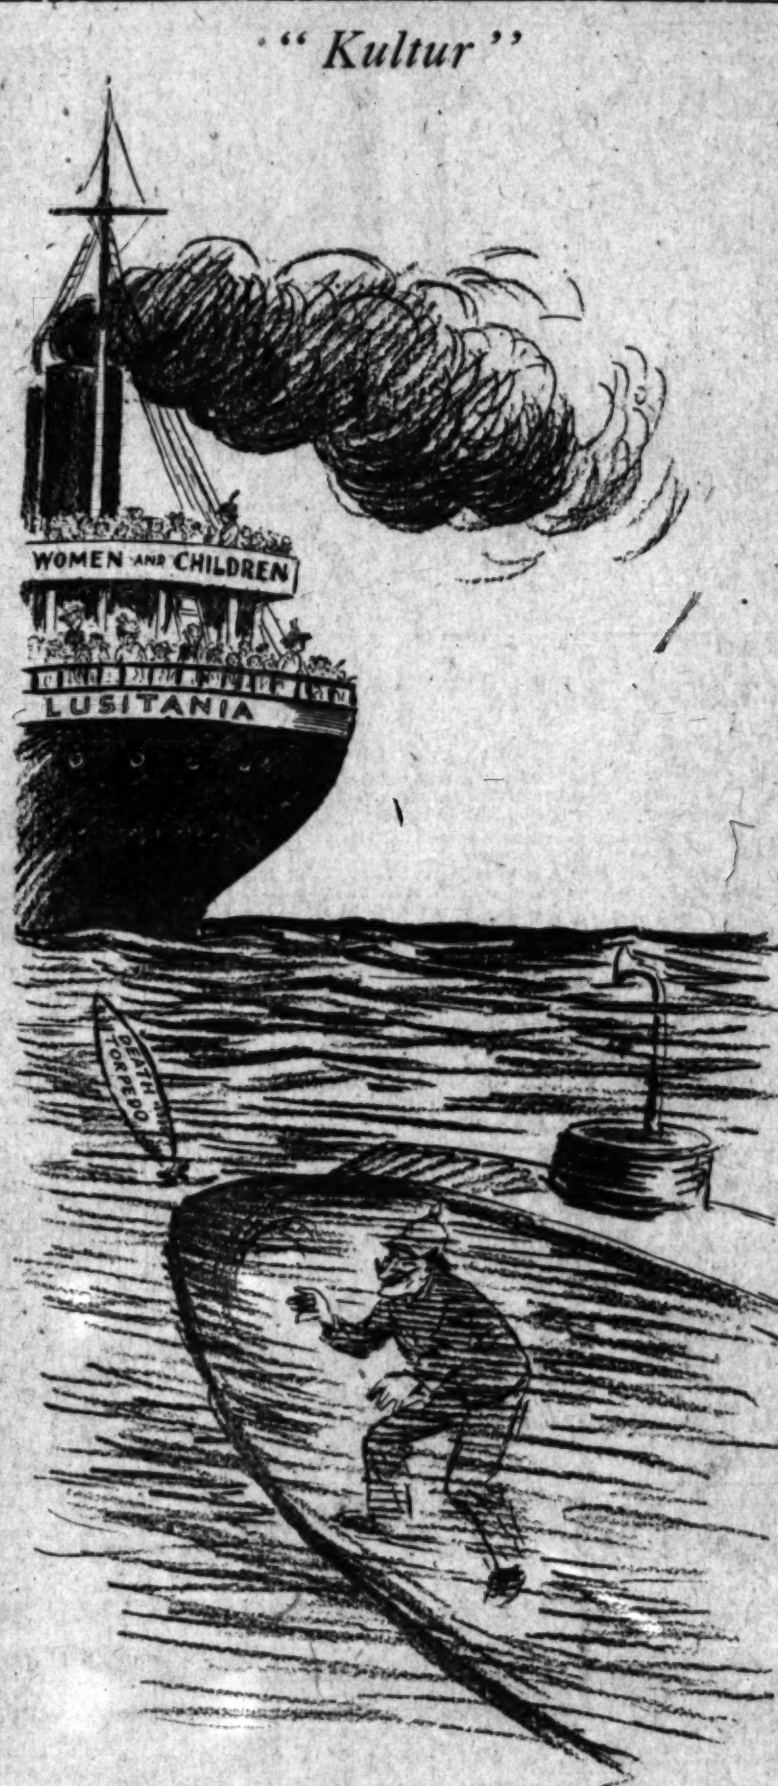

What Japan has done we can do, else we confess ourselves inferior to an Asiatic race, whom, on account of their supposed inferiority, we would exclude from our superior civilization. If our government spent half as much in developing our natural resources as it spends on a totally inadequate standing army we should be free from the so-called yellow peril. We need no exclusion act against Asiatics if we settled all our uncultivated lands with American citizens. So long as we seize the opportunities that we neglect to give us no cause for offense. Surely it is better to spend millions of dollars to put American cultivators on every acre of California than to waste more millions in fighting Japan to prevent her citizens from occupying these lands.

We have a practical system of national defense. By using it we can free ourselves from the peril of Goths within the gates and Goths without. It is this: to settle all our lands with our own people, to place more of our citizens on the soil, to breed a hardy race of agriculturists—such as the Swiss have bred—for national defense. The Swiss are the best answer to the wild alarms of the ultra-militarists and the smug overconfidence of the ultra-pacifists.

**GOOD TIMBER.**  
What manner of man will finally obtain the next Republican nomination for President of the United States? It is a doubtful as his election is certain. Undoubtedly we need at the present momentous crisis in world affairs a man of international caliber, for during the next four years on the firmness of our foreign policies more than on the trend of domestic legislation our increased power as a nation will depend. Let a proper protective tariff be agreed upon, and the matter after that be taken permanently out of party politics, and peace for business at home will be assured. But to carry on our foreign policies so as to insure peace with honor abroad will require a man in the Presidential chair of broad international views and ripe fair-national experience.

As a statesman capable of dealing wisely with the problems that arise from intensified war conditions, Mr. Elihu Root will no doubt commend himself to many thoughtful Republicans.

The provincialism that under a Democratic administration is always too evident in our home law-flouting hat hurt business and damaged trade. But in our foreign policies, when world interests are being readjusted, as they no doubt will be during the term of our next President, any display of provincialism abroad might be fatal to our continued "peace of the sun." With a Republican Congress to handle the affairs of a man of the wide experience possessed by Mr. Root will be valuable to us, if not as President, certainly as Secretary of State. As successor to William Jennings Bryan the comparison between the values of the two men becomes almost ludicrous. During this may campaign, of course, during the next few months to eliminate Mr. Root as a possibility or to establish him as a probability for the Republican nomination. He is better versed in diplomacy and understands better the larger politics

of the world, perhaps, than any living American statesman. His distinguished public service, his honesty and ability and his largeness of view are recognized by all his countrymen. Unquestionably Mr. Root is to be considered as available timber for some high office when the Grand Old Party once more directs the ship of state.

**THE ALISO-STREET CROSSING.**  
Everybody is in favor of abolishing grade crossings; the railroads and the people and the city officers and the editors are all for it. The only question is how to do it. The problem is stupendous; it is a question of time and money. The work must be done gradually, one crossing at a time. It must be done co-operatively. The steam railroads and the electric lines and the municipalities must take a hand in it. The evil has gone so far that it is most difficult now to eradicate it. But it must be done. And the first of all the grade crossings to be ripped out should be the doubly dangerous and trebly deadly Aliso-street crossing. It is one of the worst death traps in America. But the experience of the United States with human frailty to rely upon the human intelligence for protection against such disasters as that of Friday on Aliso street.

**PAR-SIGHTED JAPAN.**  
In the thorough, careful fashion characteristic of that capable people, the Japanese quietly, persistently, without question, have been making a survey of our California borders will be composed not only of expert agriculturists, but also of expert soldiers. Japan will make no threats, she will desire peace always with the United States; but she is determined to have her way in China.

We can't afford to underestimate the power of Japan. Their people are intelligent, aggressive, persistent, thorough as any other people in the world. To look upon them as a small brown heathen race and so inferior to a big blond Christian race is arrogant folly. They are too wise to fight if they can attain their ends by diplomacy. But they can fight at a pinch, as their defeat of the Russians proved conclusively. Moreover, they are not a people diplomatically to be ever caught napping.

Gen. Homer Lea, in his "Valor of Ignorance," long before these latest developments in Japanese diplomacy pointed out the defenseless condition of our Pacific seaboard. Japan knows this; the knowledge is sufficient for her present purposes. She has no desire for a fight. The perpetuation of these conditions helps her diplomatically in her discussions of policy with the United States. But surely, we, knowing this, too, should do something more than watchfully wait while Japan in China and Mexico is substantially strengthening her position.

Undecided.  
[Buffalo Courier:] "Gracie is engaged to four different men. I wonder which one she'll marry."  
"She doesn't know herself. She hasn't had the rings appraised yet."

### National Editorial Service.

#### OUR MILITARY NEEDS.

(CONTINUED TO THE TIMES)  
BY ALBERT BUSHNELL HART,  
Professor of Government, Harvard University.

ARE we wise in the United States in putting the immediate control of our armies and navies into the hands of civilians? In our four external wars since 1793 and in our Civil War the commander-in-chief of the armies and navies was in every case a civilian. We have had several Presidents who were chosen because of their military reputation, but not one of them took the conduct of a war upon his hands. Perhaps the American suspicion of military men as more likely to make themselves despots has no foundation; but civilian Presidents ought to have military and naval experts upon whom they can throw direct responsibility.

Military experts have their failings, but it is the business of their lives to study the military needs of their country and to keep abreast of the advance in military science and machinery. The United States might well follow the example of military countries like France and England in frequently putting at the head of the departments of war and navy men who are trained in that specialty. In the long list of Secretaries of the Navy since 1794 the only name of a well-known naval commander is John Rodgers, who was ad interim for a few days in 1823. The first Secretary of War, Gen. Knox, was appointed because he was a trained military administrator; and Peter B. Porter, who was Secretary of War during the troubled period of reconstruction when Grant, Sheridan and Sherman served for a few weeks.

If the country cannot trust its army to a soldier and its navy to a sailor, it absolutely must put military men in places of recognized responsibility. With great difficulty the army has secured a general staff, the chief of which, however, is supposed not to be in the confidence of the administration. Congress has absolutely refused the similar naval staff which is essential. We may as well do in advance what Great Britain has been compelled to do by the danger of national ruin—select a man of brains and entrust him with the much-needed task of reorganizing the army. The United States is protected by 3000 miles of water and then by the naval first line of defense, and after that by the sinking of mines which have protected the coasts of England, France and Germany from the landing of enemies. Still those three countries have more than 20,000 men available to resist an attack if the first and second lines are broken. France and Great Britain have far exceeded the United States in preparation, and yet both were caught without a sufficient amount of defense and a clear knowledge of where the human units were to come from. It was not creditable to the kingdom of Great Britain and the empire of India that 324,000,000 human beings should have had at their disposal in a moment of supreme danger—leaving out of account the garrisons in Africa and Asia—less than 100,000 troops available for immediate service. It is still less creditable to the United States that 100,000,000 human beings should rely upon a net effective cable of being thrown at any point on our eastern coast of less than 25,000. We have the keenest desire to maintain democracy in the western world, but there can be no democracy of the United States unless there is a United States capable of keeping out hostile armies.

Above all, American democracy must recognize that armies are made up of soldiers. The English territorial and colonial levies have been molded in from four to six months into good troops; but if the Germans had been able, as seemed not impossible, to land an army in England the United Kingdom would have collapsed. Thereupon Paris would probably have been captured. It is a crime which ought to be punishable by confinement in a State's prison for the American people to rely upon untrained volunteers for future wars. Their quality is high and once properly drilled and offered they could march, fight and trench against any soldiers in the world. But the experience of the United States in every war from the revolution to the Spanish war has been that the refusal to give military training till the war is actually breaking out means a fearful waste of treasure and of lives. The wars of the future are going to be fought by great masses of trained men. What American democracy does is simply to apply to its own defense the principles of organization, expert service and efficiency which have made its railroads and mines and factories so productive. This favored country cannot go on indefinitely enjoying the privileges of modern life without taking account of the present changes in warfare and international relations.

### RIPLING RHYMES.

THE MOURNFUL MUSE.

The lost Lenore, who's gone before, and all her dismal breed, have lived in loads of weary odes, which made our bosoms bleed. Of lands a crowd have sung the shroud, the grave, the bier, the hearse; They've chanted death with every breath, and made their art a curse. Oh, Lord of hosts! We need no ghosts, or skulls, or dead men's bones; why fill this vale with hopeless wail? It has enough of groans. A Byron's woe, a dirge of Poe's, ne'er cheered an aching heart, ne'er helped a soul from out the hole, or made a fear depart. They call it Art to rend your heart with agony bottled down, but I declare I'd rather wear the water's noisier gown than end my game in Hall of Fame among the high-brow guys, who'd rather creak than spring a joke or brighten weary eyes. I hate that Art so far apart from human toll and pain, it sings Greek gods and other frauds, or fools with Charles's Wain. I hate that Art that hard who labor hard to make the morgue seem near, who would impart (and call it Art) the graveyard atmosphere. The mighty lay that's grim and gray is but an empty din; the song of gold, it'll always hold, that which brings a grin.

WALT MARION.

**Language Lesson.**  
[Chicago Journal:] "Now, boys," said the schoolmaster, "I want you to hear in mind that the word 'stan' at the end of a word means 'the place of.' Thus we have Afghanistan—the place of the Afghans; also Hindustan—the place of the Hindus. Can anyone get another example?"

Nobody appeared very anxious to do so until little Johnny Snuggs, the joy of his mother and the terror of the cats, said proudly: "Yes, sir, I can. Umbrellastan—the place for umbrellas."

### Pen Points: By

China to Japan: "Don't you know?"

What is the matter with Beer Day in California?

The local political reformer the old, ring in the new.

Refrain of the eastern nation, thou persuadest me to be an American.

Japan wants China to give her more of a place in the sun.

The old-fashioned mechanic, apt on his hands is now being maneuvered.

President Wilson, it must be a great friend of the people when he was a candidate.

Speaking of the things that the pictures of the candidates are cluttering up the windows.

If the members of the Wilson family each to have a flag of their own, Bryan will get the white one.

Boston will be sold for the President, if the ex-president love Lima beans while in Paris.

Decisive events are impending, telegram from the front. Let us see, just so they don't happen.

So far nobody has suggested that Washington as President of the world might make a model of the world.

Gov. Whitman of New York is in Los Angeles. To speak his mind, it will stand a lot of beating.

The only reason some women are kissing another when they are in fact that, according to the man, they are expected to do so.

A Missourian claims that he is saving gasoline for 3 cents a gallon, and now figuring on a statue erected in honor of the owners of the company.

When there is nothing doing in the city it is always possible to get a Jane Adams or Ella Figg going hard to keep the good old woman.

We have always thought that aid-to-the-injured staff should be every store that advertises necessities.

With Senator Poincaré in the election in Washington to be President is not now a single Bull Moose in the Senate. They saw the hand of the game.

They are employing women as porters in England, on account of scarcity of men. That was the country to ship an expensive female headgear to; it was the place to be smashed.

The liberty bell will be sent to the "Zone" at the Panama-Pacific Exposition. Soon the voice of the liberty bell will be in the land with "Three shots and a bell for a nickel; let the place be you get a box of cigars."

What has become of the old man who used to know his horse by heart from cover to cover? A sister who made a specialty of all the funerals in the town, many cases she did not know the name of the deceased.

If the Republicans win in 1916 with a candidate who will put the Republican party and who will put upon a platform that will ring the public traditions and traditions will be no compromise and no material points.

The women candidates for the City Council are announcing on the civic questions of the day will not fully qualify until they have they roll peanuts around the election, but and perform other duties that have so far been menial.

The German "driver" along the hundreds of miles of road in France, Belgium and Germany, the most terrific fighting of the war means the greatest loss of life.

The engagement of the war, before being quoted by artists as to their extent and influence and to the formidable list that will be by this crime of the century.

**AGELESS.**  
Aye, I am old! But Sun, thou art not so old as I am. How old art thou?

Thy long, long age have been told in centuries by thousands of men.

Old art thou? Whence? How old art thou? My gray hairs and beard are lines.

Should seem the what? This is the reckoning, my friend. And loss of youth's day, my friend.

But gracious Universe, whose power seems death, and what hast thou done? Know.

Still thou art here! And in thy enfolding arms I lie. What thou hast for me, come it.

And thou hast all! What hast thou? Dwell the eternities of my life.

Say I am old? An infant soul am I—and my life is a gleaming drop in life's ocean.

Aye, I am young, so young! I am young, so young! I am young, so young!

Blend itself with God, whose vision is endlessly fair. Nor shall there be in my life an end!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

[Corra Lina Lina is a young girl who is very fond of the roses.]

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

Young as the rose am I, young as the rose! Young as the rose am I, young as the rose!

## We Won't Stand Dictation

We run our own business. READ THE LETTER BELOW. Our answer is "NO!" We will not return these machines. We will pay wholesale prices and sell them to YOU, and let YOU profit. We are going to sell brand-new Singer Sewing Machines, regularly sold by Singer agents from \$55 to \$65, for as little as..... **\$36**

SINGER SEWING MACHINE COMPANY  
INCORPORATED

May 1, 1915.

MR. B. PLATT,  
Los Angeles, Cal.

DEAR SIR—I have been instructed by our Central Agency to cancel your contract. Kindly surrender all property belonging to the Singer Sewing Machine Company.

Yours Truly,  
SINGER SEWING MACHINE CO.

*C. H. Fowler*

How can we sell these machines at such low prices and still make a living profit? Because we don't employ agents—we don't pay \$15 to \$25 commission—we don't pay 15% for collection; you make this profit. We offer in this sale our entire stock of Singer, Wheeler & Wilson, New Home, Domestic, White, Standard, Free, Davis—in fact, practically every machine manufactured. We are jobbers, and you will not be compelled to limit your choice to one machine. We will sell you and guarantee you any machine you want. Our guarantee reads: "MONEY REFUNDED IF NOT SATISFACTORY." And as to our standing—ask any bank or commercial agency in this city.

**B. PLATT & CO.**  
312 WEST SEVENTH STREET  
Near Broadway Phone: Main 1130; Home 7015.

## Dead and Injured. BROTHER FINDS THIS VICTIM.

BODY IN MORGUE IDENTIFIED EARLY YESTERDAY.

Was Stanley Jordan and Leaves a Widow in Serious Condition and Three Children—Several of the Injured Still in Danger but Will Probably Recover.

Stanley E. Jordan, 30 years old, of No. 441 North Avenue, sixty-six, was one of the victims of the Aliso street tragedy. He was killed outright and his body was removed to the Pierce morgue and was not identified until early yesterday morning by his brother, Archie Jordan. The latter went to the morgue to view the remains because of the failure of the brother to return home Friday night and he feared he was one of the victims.

Mr. Jordan leaves a widow and three children, Mrs. Jordan being in a serious condition. When she received the news she was prostrated.

While several of the persons injured are not yet out of danger, reports from the various hospitals last night were that all probably will recover. James B. Cutler, a photographer of No. 4028 Homer street, was cut about the head and body, in the only one of the victims whose condition is in any danger. He was taken to a hospital where he is in a semi-conscious state and owing to his advanced age, may die.

Clyde M. Church, cashier of the Highland Park Bank, who is at the California Hospital, suffering from a broken arm and possible internal injuries, is said to be resting as well as could be expected. He is believed to be on the road to recovery. Mr. Church's daughter, Elizabeth Church, whose injuries consisted of cuts about the face and head, is rapidly recovering.

The physician attending J. H. Landing, 40 years old, No. 1023 San Pedro street, said his patient is getting along nicely. He is at the California Hospital, having received injuries about the head. Friday night it was believed he was fatally hurt.

Mrs. H. C. Colton, 56 years old, of No. 635 Grand avenue, South Pasadena, who was cut about the face and bruised on the head at the Crocker street Hospital. She is reported recovering and her condition not dangerous. The same report was made of L. C. Le Compté, 42 years old, who is at the same hospital. His left leg was so crushed amputation was necessary.

Miss Mabel Bent, 26 years old, a nurse, had recovered sufficiently to be removed to her home yesterday from the County Hospital. Mrs. M. A. Buchanan, 33 years old, of No. 2431 Morant street, whose left leg was broken, is still at the County Hospital, but is reported recovering.

Robert A. O'Connor, 31 years old, of No. 2658 Pasadena avenue, was cut about the head and shoulders, but was removed to his home late yesterday from the Good Samaritan Hospital.

Others who were believed to be so seriously injured that they were removed to hospitals were taken to their homes yesterday morning. An official statement from the Pacific Electric Company last night was that none of the injured persons is believed to be in a critical condition. The inquest will be conducted tomorrow morning in room 902, Hall of Records.

**FRECKLES**  
Don't Hide Them With a Veil; Remove Them With the Ozone Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is used by druggists under guarantee to refund the money if it fails.

Don't hide your freckles under a veil or get them covered by make-up. Even the first few applications should show a wonderful improvement. Some of the freckles disappear entirely.

Be sure to ask the druggist for the double strength ointment; it is this that is sold on the money-back guarantee.

## Safe Car Crossing.

(Continued from First Page.)

made especially pertinent by the resolutions passed during the morning by the City Council, on motion of Councilman Roberts.

"This wreck," said Mr. Roberts, "has demonstrated to time as come for prompt and decisive action, that the lives of our neighbors and friends may be protected. We can have a separation of the deadly grade crossing if we go after it in the right way, and now is the time to get busy."

Motorman Robert E. Baker of the wrecked car, with a record of seven years' service with the Pacific Electric and a perfect showing in thirty-five surprise tests the past two years, was perhaps the most important witness.

"When I saw the train when I first went onto the bridge," he said, "I saw the engine and I thought it was standing still."

This last belief, according to Mr. Baker, led him to believe that the Santa Fe engine again until he got the come-ahead signal from the switchman by ringing out the Santa Fe. "After I received the signal I looked for the train. It was too late," he said.

**DETAILS OF CRASH.**  
Mr. Baker asserted he was going about eight miles an hour when he called for the signal for the switchman by ringing out the Santa Fe, foot gone and that he was then about 185 feet from the crossing.

"When I saw the danger I threw it around into the multiple, hoping to avoid the accident," he said, "but it was too late."

One thing that proved the Pacific Electric car was traveling at a speed relatively higher than was the Santa Fe locomotive was that an express car going east over the electric line down the crossing, about the middle of the Aliso street bridge, about 150 feet from the crossing, when the locomotive was not over 200 feet from the crossing.

Incidentally, the fact that the speed of the electric car was greater than that of the locomotive, together with the fact that the right-of-way of the electric car was on the right side of the crossing and the legal requirements for safeguarding, were brought out in the Times.

Engineer Logan Wells, Fireman Lavever and Conductor McClelland of the Santa Fe all testified that the locomotive bell was ringing, as did also Crossing Watchman Thomas J. House.

"I judge the Pacific Electric car was going twenty miles an hour," said Engineer Wells, who, before taking service with the Santa Fe, was for two years a Pacific Electric motorman.

Mr. Wells testified he was running about ten miles an hour between Main and Aliso street and slowed down his train about eight miles an hour at the crossing and that no whistle signal was sounded, in accordance with the city ordinance.

**EXPECTED OTHER TO STOP.**  
"There is no crossing in the city ordinance," said Mr. Wells in explaining the reason why he expected the crossing to stop.

"On this track we have a prepat right of way," he said, "and I had applied the brake for that, thinking there was danger of hitting it. I had no idea the passenger car would not stop. They could see us, and many times they have seen us come right up to the crossing and stop."

"I did not see a flagman on the crossing," he said, in response to a direct question.

The Pacific Electric car was but three feet away, according to Mr. Wells's assertion, when the emergency brake, which held in good shape, he stated. His testimony on this score was corroborated by Fireman Lavever and Conductor McClelland.

"I depend on the Pacific Electric flagman to stop cars," said Thomas J. House, the Santa Fe flagman.

"They wouldn't stop for me," Cross-examined, Mr. House admitted he had never proved whether they would or not.

Regarding flagging Santa Fe trains, he stated he never did so unless there was an obstruction on the track, asserting he was there primarily to flag pedestrians.

Motorman Simon Walters of the express car that passed the passenger car on the bridge stated the Santa Fe train was at Main street when the crash occurred and it was the member of the latter and the Pacific Electric officials and the police department, the first word of the accident.

**MAD DOG BITES THREE.**  
Children III and Pastor Scrum is Rushed from North to Fight or Rabies.

Blitten by a mad dog last Thursday, three children became alarmingly ill yesterday and as a result Pastor Scrum is being rushed from Sacramento to be administered to them.

The victims are Earl Bradley, 7 years old, son of G. F. Bradley of No. 810 East Third street, and Fern and Belma Eddy, daughters of M. E. Eddy, No. 810 East Third street.

The property of Mr. Eddy, who killed it immediately upon learning of what it had done to his children, was bitten while trying to save the other children from attack.

The dog was turned over to the city health department for examination and yesterday an official report was made that it was infected with rabies.

**KILLED BY AUTO.**  
Elderly Man Struck While Crossing Street; Driver of Car Exonerated by Witnesses.

Ran over by an automobile as he was crossing at Second and Los Angeles streets late yesterday afternoon, Louis H. Pfiekmann, 60 years old, was instantly killed. The machine, owned by Sam Selig of No. 1207 South Figueroa street, was driven by R. E. Anderson of No. 148 West Ninth street and the latter and the witnesses, the accident was unavoidable and Mr. Anderson was not arrested.

Mr. Pfiekmann was a motion-picture scenario writer and a landscape gardener, having been employed by the New York Moving Picture Company of Santa Monica. An inquest will be held by the Coroner tomorrow.

## Sell Fruit for More.

(Continued from Seventh Page.)

and consumer, dictating prices at both ends.

The jobbers throughout this country are associated in such a way as to make it easy for them to regulate demand, knowing to the car how much fruit is on track and rolling daily. The fruit is perishable and if the jobbers refuse to buy at the exchange figure, we must reduce our price rather than lose the fruit. But does the consumer buy the fruit at a corresponding reduction or does the jobber make a nice clean-up at our expense?

"It is a reasonable assurance that if we can place our products in the hands of the consumers through the retailers at a price in reach of the average hundred million inhabitants of these United States there would be no complaint in the future, at almost certain regular prices, more oranges than California and Florida, and every other fruit-growing section of the country could possibly begin to supply, for it is a fact that there is no other fruit more palatable, more tempting or more healthy than the golden orange."

"Now how are we to bring about this improvement?"

"The exchange is now powerful enough to control the situation. First it could advise the jobber that, beginning at a specified time, the exchange would set the price that the jobber must sell the fruit or the price the retailer must pay for it. No doubt the jobber would say that he is running his own business and will not be dictated to by the grocer or any one else. If the jobbers take that stand and claim they will not sell oranges we can say, 'Hurry to it, or we will take care of you.'"

"The exchange can segregate the territory of the United States into districts, the size of the population of each district being taken into consideration. We would establish a house to supply the district that would cover, say, an area of two or three hundred miles in diameter, greater or smaller to suit the conditions, and where the population was less in another district the diameter of same in miles would be greater. In each district we would have a good wholesale district on which to build our house; not an expensive five-story building, but a large concrete cellar supplied with a cold storage plant, and the building over the cellar or ground floor, must be equipped with track in order that we can unload the fruit from our haul, direct into the building."

"For each district house a superintendent of the district would be needed to handle the fruit and office work. It is quite probable that with the proper arrangements and elimination of cars 'ending on tracks,' as they now do, reaching the eastern points, and having to be diverted with varying degrees of temperature, our fruit going direct to a district house or to a cold storage plant, we would have less decayed fruit at the other end with careful packing we could almost guarantee the condition of every orange sold."

"You will say, 'But how sell the fruit?' The expense of hiring as many salesmen as are today covering the country for fruit jobbers would run into millions of dollars. True, it would, but we would do away with the expense and cost to the consumer and grower. Let us imagine that we would inaugurate this system of selling the fruit direct to the district, that the country was divided into districts, the houses complete, ready for business by July 1. Our exchange would have hired the necessary superintendents and we would have the houses supplied with fruit for opening day."

"Say sixty or thirty days before July 1, the exchange office would have each district manager notify by mail every retailer and seller of oranges in the district that beginning July 1, 1915, he may order his fruit from that distributing house which covers the district, and that he must give prompt attention, the goods being guaranteed sound, but, cash must be paid for the fruit, and the price of draft, postage money order or express money order, in case goods are ordered by mail; if telephoned or telegraphed, the order will be shipped C.O.D."

"We could thus eliminate present discriminations, resulting from our present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to the retailer (who in turn could have his schedule to sell controlled by the exchange) than the present system of handling the supply of oranges, etc. (which items would total beyond our comprehension) and put a price on the fruit which would be much less to **And Inspiring Rhymes are the Result.**

**Aid Prosperity and Trade Contestants.**

**Praise, Scolding and Warn-**

**ing All at Once.**

**"It is better to lean toward tomorrow**

**than to weep over suns that have set;**

**The future holds hope we may borrow,**

**The past offers only regret."**

**"Ain't it the truth," said one little**

**girl contestant as the contest began**

**showed her the above rhyme, and the**

**entire department echoed her senti-**

**ments, mentally at least. If all the**

**Prosperity and Trade contestants**

**would only keep that thought fixed**

**firmly in their minds they would not**

**have time to feel discouraged, but**

**would be so busy hustling for the fu-**

**ture that the past would not concern**

**them at all. Please, please don't**

**grieve about what you failed to ac-**

**complish yesterday, but spend your**

**waking hours planning what you will**

**do tomorrow.**

**"From the past we can gain no con-**

**solation. It is useless and clothed like**

**the night.**

**But the far-distant hills of progression**

**are crowned with a glory of light."**

**And so it is with our Prosperity and**

**Trade contestants. It does not matter**

**where one stands on the list, just so**

**one advances a little each day. In-**

**deed it is not those who show the**

**highest standing on the list who have**

**made the greatest progress. Many of**

**the gladders whose crowns are to be**

**mounting up slowly are doing work**

**that will net them tremendous returns**

**before the end of the contest.**

**"Tomorrow's white, beautiful pages**

**are yours to write on as you may.**

**But with the sealed ledger of ages**

**are yesterday's leaves locked away."**

### FURNISH YOUR HOME ON LIBERAL CREDIT

### GREATEST BARGAIN FURNITURE STORE IN THE WEST

#### \$1.50 Roxbury Tapestry Carpet 95c!

The celebrated Roxbury Tapestry carpet in Oriental and floral designs will be laid and lined on your floor at the extremely low price of 95c per yard. Extra fine 10 wire.

#### \$3.50 Oregon City Wool Finished Blanket \$2.69!

Great clean up on fine, heavy Oregon City wool finish blankets. All colors and plaids; will be reduced to a remarkable low price. Take your choice.

### Better Furniture for Less Money on Main Street

## Chorrell's

THE MECCA FOR STRENGTH BUYERS

SEVENTH & MAIN STS.

#### REMOVAL ORDER TO DENVER MADE.

RECLAMATION OFFICE WILL CENTER ACTIVITIES THERE.

The general headquarters, outside of Washington for the Reclamation Service connected with the Interior Department, that since November, 1904, has been located in Los Angeles, will soon be removed to Denver.

An order to that effect was received yesterday from the Secretary of the Interior by Chief Electrical Engineer H. H. Ensign. Mr. Ensign was chief engineer of the Edison Company, in this city, previous to accepting service with the government, and has been in the Reclamation Service for eleven years, with the exception of about one year, when he held the post of professor in the Wisconsin State University at Madison, and conducted his work from that city. The order affects the Chief Engineer of the Reclamation Service, and the local plant has been the only one in the country, outside of the Interior Department at Washington, and it is proposed to have all of the work, including the Washington end, now done from Denver, where A. B. Williamson, who was in charge of a large portion of the electrical construction of the Panama Canal, will be the directing head. A. P. Davis has acted as chief engineer at Washington, and he, too, will be removed to the Denver office.

One of the projects in process of completion under Mr. Ensign, is what is known as the Salt River project, in Arizona, that is now prepared to supply water to 157,000 acres of land. It is located in Maricopa and Gila counties. The watershed area is 3750 square miles, with an additional 6000 square miles on the Verde River. The average annual rainfall on the watershed area is ten to twenty inches, and the average annual run-off of the watershed is 800,000 acre feet at Roosevelt dam and 100,000 feet from the Verde River.

**CAT FOR A SOURREL.**

Woman Loses Her Tabby, Accuses a Shooter: He Admits Blame, but Explains.

While Mrs. Minnie S. Crow, No. 2662 La Mirada street, was downtown enjoying the big flower parade last Monday someone killed her cat. It was a black cat, and she was very fond of her friend of every child in the neighborhood, so when she learned that the animal was found in a field shortly after the parade, she was very angry. She immediately wrote a letter to the police, and the police went to the field and found the cat. She then wrote a letter to the police, and the police went to the field and found the cat. She then wrote a letter to the police, and the police went to the field and found the cat.

#### A Foe to Tuberculosis

The Journal of the American Medical Association, in its issue of August 9, 1912, reviewing an article on "The Influence of Calcium Salts on Constitution and Health," said:

"They (the authors) report numerous concrete instances in which patients gained in vitality and energy after taking calcium."

Doctors seem to agree that in tuberculosis and chronic throat and breathing affections, lowered vitality and lost energy are conditions that must be overcome.

One of the constituents of Eckman's Alternative is calcium (lime), which acts as a tonic to the system, and is easily assimilated by the average patient. We do not make wholesale claims for it, but our knowledge of what it has done warrants the statement that IT CAN HELP.

It contains no opiates, narcotics or habit-forming drugs, hence a trial is safe. Send for a free trial bottle, or order through your dealer or direct from the makers.

Eckman Laboratories, Philadelphia, Pa. Sold by The Owl Drug Co., Los Angeles, Cal.

#### BARRON & CO. LADIES' TAILORS

Broadway Central Bldg. Suite 303 424 So. Broadway.

## Money in it.

**Man soon acquires several**

**in a suit, and even a wife!**

**1200 chicks a day, according to**

**held at 10, 12 1/2 and 15 cents**

**each before the 15th day of**

**the month, this same**

**amount of \$150,000 worth of**

**chicks is being sold in the**

high, than the present  
road, which is from  
foot high. But if the  
River takes a turn  
this year the river  
valley and the  
river bank levee.  
BE EXTENDED.  
Rockwood was busy  
for the extension  
Lake levee, now  
ward an additional  
of the Inter-Cal-  
It is proposed that  
one on higher ground  
near Yuma Lake,  
a height of between  
et, with a crown of  
order that a spur  
may be thrown  
Gen. Marshall's plan  
is the roadbed as a  
constitute a barricade  
the mountains on the  
valley in Mexico to  
Yuma, with a rail-  
important factor of  
twenty-four miles be-  
tween line and en-  
to the south. It was  
J. A. Ockers  
ing 400,000 yards of  
to it. It is a barri-  
cade of three  
up is ten feet wide  
a "road" travel  
is on a ratio of  
to one. At the Bow-  
west and the levee  
larly reinforced be-  
cherous formation of  
upon. There the bar-  
A. Another levee, the  
been reinforced. A  
of horses and mules  
work. A patrol and  
of 100 men and a  
rums at the levee  
water period.  
er on the Mexican  
a force under Gen.  
A. Anderson, under  
the irrigation district,  
er levee with 80,000  
prevent erosion. In  
this spring \$215,000

will have been spent when  
is completed.  
With the assurance of  
Imperial Valley ranchers  
facing the pleasant prospect  
of a permanent water supply,  
the settlement of the dispute  
between the Colorado River  
development Company and  
the Colorado River Water  
conservation Commission  
since more removing the  
supply canal will have been  
of suit sufficiently to  
\$100 to \$200 second foot  
supply the demand of all the  
ers served by it.  
With the new and larger  
dune and approach, the  
strued at a cost of \$10,000,  
completion, together with the  
in the West Side Basin, the  
of the valley faces a bright  
fact than it has for many  
ers served by it.

AD MEN TO FLOCK  
TO CONVENT

MANY ANXIETIES WILL  
SPRING UP FOR THE  
CHICAGO EXHIBIT.

Los Angeles is planning to  
large delegation of ad men to the  
convention of the American Ad-  
vertising Clubs of the World, to be  
Chicago June 18 to 24. An  
announcement made yesterday by  
Ivan McK. Harbour, chairman of  
"On to Chicago" Committee of  
Los Angeles Ad Club.

In charge of Douglas Wilson  
delegation will leave here June  
a special car of the Los Angeles  
The number who will  
trip has not been determined  
many have already signified  
intention of going.

President Wilson will  
be present.

—This page and the three succeeding pages contain, without question, the most remarkable sale news  
that the Broadway Department Store has ever printed. The Beginning of a 30-Day Sale.

—We have used comparative values freely, believing that in this case it is the best and most reliable guide  
to the truly wonderful opportunities that have been prepared for you.

—However, there is so much doubt in the minds of the public as to the true worth of advertisements gen-  
erally that we have called upon

—The Committee selected to pass upon this wonderful collection of mer-  
chandise is shown in the picture, and their signatures have been attached  
to the statement of the authenticity of valuation claims we are making.

Read every item in this 4-page announcement.  
It's the greatest sale news we have ever printed.

### OREGON MAN HEAVY BUYER.

Portland Investor Acquires  
Balboa Holdings.

Deal Involves Business and  
Residence Property.

New Owner to Make Home  
in Island Villa.

(SPECIAL CORRESPONDENCE.)

NEWPORT BEACH, May 8.—One of the largest real estate deals in the history of the city has just been placed in escrow. The deal, which is said to run near the million dollar mark, involves the transfer of two business blocks containing a garage, machine shop, several stores, offices, and two rowing-houses, the handsome residence of Mr. Collins, and a small island upon which stands a large house on Balboa Island. The Collins Commercial Company, which is the owner of the business property in the city, has agreed to sell the property to J. O. Elliot of Portland, Or., who is the owner of the island. ### FOR TEMPORARY USE.

Redlands Y.M.C.A. Starts Building  
for Immediate Housing of Work-  
men. Will Erect Permanent Structure.

REDLANDS, May 8.—Workmen are making excavations for the temporary administration building of the new Redlands Y.M.C.A. The building will cost in the neighborhood of \$4000, and is to house the work of the association until such a time as money can be raised for a permanent structure.

The Redlands Ice and Cold Storage Company, which is enlarging its plant here at a cost of several thousand dollars, has just received a second carload of machinery from Milwaukee. In this lot was one of the largest pieces of machinery ever received here, a compressor weighing 15,000 pounds. The Methodist Episcopal Church, South, has just been completely remodelled. Workmen are now rushing to complete the new building. The concrete and board seats are being placed.

Just in Time.

### WILL CONTROL OWN BUILDING.

CITY, NOT STATE, TO HAVE SAY  
ABOUT HOUSES.

Well-matured Plan to Have All  
Dwellings Classified as "Tenement"  
and "Regulated" from Sacramento  
Squeezed at Very Moment of Passing.

A legislative measure which threatened to interfere seriously with the construction of all types of private homes, double houses and flats in this city has, after recommendation by the Senate Committee, and a second reading in preparation for its final passage, been withdrawn, through the efforts of the officials of the Los Angeles city building department. The proposed law was introduced as the "Dwelling House Bill," and incorporated many features that would have been detrimental to builders here and elsewhere in California. That it missed passing even by a narrow margin is a source of great satisfaction to the local building officials.

The alarm occasioned by the measure, which proposed to classify all buildings used for residential purposes as "tenements," and to regulate their construction from Sacramento, was first felt several weeks ago, when the news of the legislation reached Los Angeles. The fact that this is primarily a city of private homes and that both residents and flat construction is conducted here on lines that have met with the approval of building and sanitary experts caused the local building officials to condemn the bill vigorously. The situation was finally placed before the City Council, which at once requested J. J. Backus, chief inspector of buildings, to go to Sacramento to attend a conference, his chief deputy, Mark C. Cohn, attending the meeting in his place. Mr. Cohn presented the case of the home builders of Los Angeles for the six-room frame tenement-house and hotel and lodging-house laws, and before various legislative committees at Sacramento that it was withdrawn and the bill removed. Mr. Cohn was also instrumental in having the present State tenement-house and hotel and lodging-house laws amended, and in having the bill removed from the legislative calendar.

WILL BE FIREPROOF.

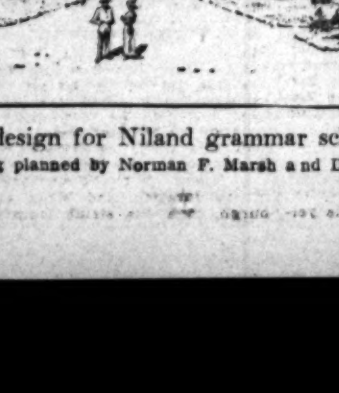

New Grade School at Niland, in Imperial Valley, in Hay Ranch. Concrete Walls and Tile Roof.

NEW ORLEANS WOMAN.  
The McCarthy Company reports sales of nine plots in its Garden Acres subdivision. One purchaser, Mrs. E. Storch, from New Orleans, bought two plots on Garden avenue, 160x160 feet in size. The following sales are reported to Los Angeles buyers: To Mrs. J. Leonard, three-fourths of an acre, corner Lockhaven and Palm streets; L. B. Smith, three-fourths of an acre, on Pine street; B. Leonard, corner on Prairie avenue; J. Gineing, plot on Garden avenue, 60x113 feet; L. Humphries, plot on Palm street, 60x180 feet; Blanch Burke, 60x180 feet; and A. S. Vales, lot on Patton street.

NEW SALES MANAGER.

Leslie Cranbourne has been appointed sales manager of the Harry H. Culver Company sales forces. Mr. Cranbourne has for two years been one of the most active and successful members of the Culver organization.

Accepted design for Niland grammar school.

### SENATOR CUMMINS OF IOWA.

Strong Presidential Possibility—Picturesque and Romantic Career.  
Son of a Carpenter, Civil Engineer, Lawyer, Legislator, National  
Republican Committeeman, Governor Three Times, United States  
Senator—Veered Toward Progressivism, but Kept in Republican  
Line.

BY WILLIAM H. KNIGHT.

A UNIQUE character with a picturesque career is that of Senator Albert Baird Cummins, who visited Los Angeles a few weeks ago, where he met a host of Iowa friends. After a brief sojourn in the Hawaiian Islands he will return to this city for a few days.

What are the qualities, either of character or achievement, which have focused attention upon the Senator from Iowa, and brought him from a humble origin to his present commanding position in the councils of the nation? It is said that there are 100 men in the State who could be brought to the bar by the Senator, and the adjoining States that could be brought to the bar by the Senator. What has brought Senator Cummins to the forefront among these astute and made him a conspicuous Presidential possibility?

He was born sixty-five years ago in a small Pennsylvania hamlet, received an academic education only, and was himself for the career of a civil engineer. At the age of 19 he went to India as an engineer's assistant, and, his principal being called away, he was left to complete the construction. His work was so creditable that on his return to America he was empowered in the capacity of a preceptor to the young men took a precarious step. "Going out West to work on the Denver and Rio Grande Railroad," was the reply. "Shuck, why don't you stay here, study law, and get into politics?"

The young man thought it over, went to the law firm of McCallan & Hodges, recommended by his friend, and began a law practice in Chicago, where he remained till 1878. Again he was called away to the bar by the young man took a precarious step. "Going out West to work on the Denver and Rio Grande Railroad," was the reply. "Shuck, why don't you stay here, study law, and get into politics?"

One day while sitting in his new office waiting for clients a stranger entered and said: "I am a lawyer, and we are looking for an honest lawyer, and have been told that there is one here. I believe you have come to the right place, being the only lawyer here. I feel a delicacy about saying 'my name is Wilson—James Wilson.'"

Whereupon, in that little Des Moines office an acquaintance began breaking all records for service in Presidential Cabinets, and there also served as secretary of the State and national politics. Wilson was spokesman for a committee of young, talented and ambitious, of course, he was sent to the Legislature very early. There he discovered that the State was permeated with influences. The corporations dominated every branch of the State government. He set himself the task of bringing about reforms. They thought him a veritable young man who would get over his hallucinations. But he believed in himself and in his cause, and sought the nomination for Governor. He was elected.

He was backed by no corporate funds, but the people contributed liberally to his campaign. His earnestness, his eloquence, and the vital interests he espoused, drew overflowing crowds to his meetings, and he was triumphantly elected by an emphatic majority. From that time on he was recognized as a power, both in the party and in the State. He instituted needed reforms and the opposition fairly melted away, so that he succeeded to a second term, and finally was the first Governor of Iowa to be elected for three successive terms. When Senator Allison died in 1908, Gov. Cummins became his logical successor. Probably no person who had achieved that distinction and entered the Senate chamber for the first time felt more at home than the subject of this sketch. He was conscious that he was among his equals and was so regarded and greeted by his new fellow-members. This is the way he was portrayed by the correspondent of the Kansas City Journal: "Blue of eye, straight of limb, gray of moulted hair, with nerves like steel, a voice soft yet far-reaching, and an

appetite for battle that no one so far has subdued." "He can talk very fast without a moment's hesitation or even indulging in a gesture, but when he gets warmed up he will walk over to his opponent as he once approached the desk of Senator Aldrich and menacingly shook his finger at him as if he were going to claw him up. Then the newspaper correspondents rushed from their seats and he furnished them with plenty of copy. It was said that if Senator Lodge were to make a frank confession he would tell you that 'as between chucking stones at a nest of yellow-jackets and producing a newspaper confession he would take chances with the former.'"

In November, 1909, Senator Cummins began to show insurgent tendencies, but in a speech in Congress said: "There need be no concern about the attitude of the insurgents and their friends. They will do the best to nominate candidates who believe in a progressive Republican party. If they fail they will be Republican still, for if there ever was a fitted him then there was absolutely no reason for transferring any branch of the government to Democratic hands, this is the time."

In January, 1912, when the Republican party was threatened with a Progressive split, Senator Cummins was the most prominent candidate of that wing, but positively refused to accept a nomination except from the united party. It is now believed that if the two wings had united on him at the Republican convention in June, the Republican party would have been triumphant in the campaign of 1912, which proved as disastrous to Taft.

When the Republican National Committee met in Washington in December, 1912, Senator Cummins stated his attitude as follows: "While the Republican party is now suffering the consequences of its overwhelming defeat, to me there has never been a day in its career so bright with hope as the day just closed. When it returns to power, as I confidently believe it will in the near future, it will be otherwise than true to the mission it was born to fulfill."

Though Senator Cummins respects the courage and ability of the present head of the national government, he did not hesitate to remark on one occasion, "When we elect a President who is not inclined scrupulously to the definition between legislative and executive authority, and he is inherently strong and aversive of compromise, he is a danger to the legislative domain which makes those who care more for the perpetuity of the Republic than for the power of party supremacy shudder for the future."

In a stirring criticism of the Democratic party which was made in the Senate, he declared Congress had "bowed before one man" and named President Taft. He said, "There will be no real debate here. I hesitate to participate in it, for I do not want to give it, before the people, the color of actual deflection."

Senator Owen replied that the Democrats had adopted the most direct, effective method of securing their legislation after Congress had for months delayed action. And Senator Lewis, who was a close associate of the Governor of Iowa, said: "There is no more to be said. It is an income tax this is what he said, and it comes mighty close to the Democratic doctrine on that subject."

As to an income tax this is what he said, and it comes mighty close to the Democratic doctrine on that subject. "If I could change the situation I would so rearrange and readjust the schedules as to decrease the revenue derived from the customs houses, and place it where it should belong—upon those fortunate people who enjoy large incomes."

What of the Senator's views on railway regulation? Just a year ago, in April, 1914, he made a notable speech in the Senate which was widely commented on at the time. He said: "In connection with the proceeding before the Interstate Commerce Commission, there is in progress the most comprehensive, energetic, and persistent campaign I have ever witnessed to make the people of this country believe that the effort of the government to regulate railways, railway rates, and railway practices, has resulted in disastrous failure; that the government in its endeavor to protect the people has impoverished the transportation companies; that it has destroyed their credit and rendered them incapable of performing the service which commerce demands. This extraordinary campaign has filled the newspapers with headlines, with dispatches, and with editorials. It gives dinner and holds banquets where the eloquence of postprandial orators paints lurid pictures of worsted tracks and dilapidated equipment. I could cite, I think, a thousand of these instances, all directed toward a single end, namely, to prove the charge that the government is starving the railroads, and that they will shortly become a great scrap heap."

Now this speech was not delivered for the purpose of injuring the railroad companies, but to condemn their methods of appeal to the country while the Interstate Commerce Commission was laboring to adjust rates and practices by railway companies. For in the same speech he admits that there are instances in which railways are entitled to increase their rates in consequence of the higher cost of labor and the increased cost of living. His desire was to have the question discussed in a spirit of fairness.

The Senator is in favor of such a modification of the Monroe doctrine as will permit of a joint intervention of the South American countries and the United States in ending the revolution in Mexico. He has broached the subject in private Senate conferences, but the President was not ready to proceed to that extent in modifying the unwritten law of non-interference with our neighbors in this continent by any outside power. He still hopes that Mexico will work out her own salvation.

Not long ago a newspaper interviewer asked the Senator, "What are the essential human qualities for a successful career in politics?" His reply was, "I don't know. My friends and enemies agree in saying that I am not a politician. It seems to me, however, that permanent success in any relation of life is altogether a matter of integrity toward the world and fidelity towards one's friends."

Brig.-Gen. Hugh L. Scott, chief of staff of the army, has been advanced by Secretary Garrison to the grade of major-general, to succeed Gen. Murray. Col. Frederick S. Strong of the Coast Artillery Corps, now stationed at Charleston, S. C., has been selected for the brigadier-generalship.

### Bought by Illinois Man.

Residence at No. 1482 Crenshaw boulevard.

West-side place sold during week through John G. Stanb, with C. C. Tatum, duly after a day or two.

President John A. Widtore of the Utah Agricultural College, the foremost authority on land in the West, says of Juab Valley Ranch:

"My work has called me over the State with a view to studying the agricultural possibilities during the last 14 years. I do not hesitate to say that as a result of my experience thus gathered I have to look upon the property of the Juab Development Company as the best remaining property of its kind in the whole State. Some day a city will be reared on the east hillside and thousands of happy men, women and children will draw their sustenance from the rich soil and abundant waters of the little valley."

(Signed) F. M. HUDDLESTON, Pres., West Coast Art Co., Los Angeles.

### SOME OF OUR LANDS ARE IN GROWING ALFALFA, WITH PERPETUAL WATER RIGHTS AT SPECIAL PRICES.

Alfalfa Seed Brings \$50 Per Acre at Juab Valley Ranch

## \$20 PER ACRE

Our town of Mills is located on the railroad and will insure such advantages as stores, churches, schools, etc., and a postoffice has already been established. We have horses and all kinds of farm implements which we will sell cheap, on reasonable terms, while they last.

# Mines and Mining in the Great Southwest.

## INTEREST IN COPPER GROWS.

### Red Metal Again Claims Due Share of Attention.

### Argonaut Ore is High Grade in Deep Workings.

### Springfield Intersects a Famous Channel.

(SPECIAL CORRESPONDENCE.)

SACRAMENTO, May 8.—Copper is once more claiming keen interest in California mining fields, and the present year promises to record the heaviest red-metal output in a decade. In the Shasta field the greatest copper district in the West, the Mammoth Copper Company is operating three furnaces and preparing to blow in a fourth; the Mountain Copper Company is operating a large flotation plant on its low-grade ore; the Balaklava is busy arranging to try out the Hessewood process on a large working scale, and the Bully Hill people are considering the resumption of smelting at Copper Lake. The Mammoth alone has over 600 men on its payroll, and the Mountain Copper has about 500 workers employed.

Numerous small mines which have been idle for years are receiving attention. Only the smaller-scale problem prevents the Shasta field from recording a record-breaking output. In the Plumas field like conditions prevail. The Engle Copper Company has placed two huge motor trucks in commission, transporting concentrates from the flotation plant at Taylorville to the smelter at Kettle. The several months, and has proven highly satisfactory. It is understood the capacity of the plant will be augmented in the early summer.

As soon as the roads harden sufficiently the huge caterpillar engine recently purchased will be utilized in hauling concentrates to Kettle. From this point the product is sent by rail to custom smelters. Work has been resumed at the Walker, Genesee and other small mines.

Shipments of high grade ore and concentrates have been started by the Calaveras Copper Company, operating at Copperopolis. The company is sending out ore averaging over 1 per cent. copper, and leasers are shipping material assaying in excess of 15 per cent. Rich concentrates are also being sent out, the product of the new flotation plant. The management is very optimistic over the outlook, and before the end of summer monthly earnings are expected to approximate \$40,000. The Golden Center Mining Company, operating at Grass Valley, is shipping sulphurets to the Pioneer reduction plant, Nevada City. A recent shipment was valued at \$10,000, and more consignments will be sent out soon. The company is crushing its free-milled ore in its ten-stamp mill, but the sulphurets produced must be smelted. Developments in the region are highly satisfactory. Good ore is coming from the Dromedary, Garage, Whiskey and other veins, and the incline

and vertical shafts are being rapidly finished. New machinery will soon be in place, following which improvements are contemplated at the milling plant, it being probable that the capacity will be increased to twenty stamps. The company is largely controlled by residents of Los Angeles and Pasadena.

### REGULAR BONUS.

The Argonaut Mining Company declared its regular quarterly dividend April 25, the payment to aggregate \$60,000. The company is producing at the rate of approximately \$80,000 per month, of which about 50 per cent. represents net profit.

On the 2800-foot level an electric hoist capable of operating to a depth of 2000 feet is being installed. Dredging and staking will be resumed soon. The shaft has been sent to an incline depth of 1200 feet, and some of the best ore ever found in the property is coming from the lower workings.

The Argonaut is in the Jackson district, the scene of the deepest gold mining operations in the North American continent.

The Springfield Tunnel and Development Company has intersected the Buchanan mine at the 2400-foot adit. At point of intersection some gold shows and the Buchanan mine is being proceeded vigorously. The Buchanan channel produced fabulous values in place. The long drainage and transportation tunnel now being completed by the Springfield company is clearing the channel of water and will facilitate mining at low cost. Driving for the main shaft continues, and it should be reached before the end of summer. Southern California people are heavily interested. The Buchanan Consolidated Company, operating the White Lily and other mines in the Seneca district, is preparing to sink a shaft in the White Lily below the tunnel, to pick up the Buchanan ore. The company is also planning to sink a shaft in the White Lily below the tunnel, to pick up the Buchanan ore. The company is also planning to sink a shaft in the White Lily below the tunnel, to pick up the Buchanan ore.

The Delta Consolidated Mines Company has secured patents to its group of gold-bearing claims in the Dog Creek district, above Redding, and is arranging to finance the building of a mill. A large amount of ore averaging 15 per cent has been developed, and in the lower level a vein of high-grade gold-copper ore was opened several months ago. This find is expected to develop into a ledge of high-grade ore, which will be sent to the Mammoth smelter. The company is composed largely of eastern, local and Southern California people.

**OUTPUT INCREASING.**  
The output of the Empire-Pennsylvania group, Grass Valley, has passed \$100,000 per month, according to late advices from the property. This places the company at the head of the gold-quartz enterprises of California, displacing the North Star group, which has held premier honors for many years. Sixty stamps are operating in the Empire mine, and twenty at the Pennsylvania.

The Mountain King Mining Company, operating in Mariposa county, has placed its new electric power plant in commission, and the new mill will be operating in a short time. Sixty stamps are operating in the Mountain King mine, and small bodies of slightly better-grade rock have been recently opened. With the new equipment the management expects a highly prosperous year.

## READY TO BLOW IN BIG FURNACE.

### International's First Unit to be Started Up.

### "Safety First" Finds Home at Old Dominion.

### Negotiations Under Way for Gibson Mine.

(SPECIAL CORRESPONDENCE.)

GLOBE (Ariz.) May 7.—Within a week one of the reverberatory furnaces of the International Copper Company at Globe, Arizona, will be in operation. The mine is being filled with concentrates from the Miami mill, which are already being mixed with silica, limestone and iron to secure the proper furnace charge.

The casting of copper ingots will be hastened the day when its 1,000-ton-a-day concentrator mill will be in operation. From seventeen days' operation in April, practically speaking, the Old Dominion smelter produced 1,200,000 pounds of copper. Conditions in the mine are such that ore is now being furnished for a third furnace.

It is worthy of note that in the larger converter of the works, a lining put in place in July, 1913, is still taking care of the matte produced. About 800 tons of ore are now being hoisted daily of which 600 go to the concentrator. The lower level of the mine are being unwatered, though very slowly.

"Safety first" plans are worked out in the Old Dominion possibly in greater detail than anywhere else in the Southwest. Since January 1, three employees, changed every two days, constantly accompany the safety inspector for purposes of instruction. Shift bosses are given bonus payments for good accident records and problems of first aid constantly are being studied by the miners. The movement is one that has been made general by the International Copper Company, of which L. C. Bates, manager of the Ray Consolidated Company, is chairman, and Wallace McKeehan of Bisbee, is secretary.

Negotiations are now under way for the sale of the Gibson mine. If not concluded, the local operating company will be sold to a foreign concern before the end of the year. The mine has a record of producing 100,000 tons of ore in tonnage was about evenly divided between the Tom Reed and Gold Road mines. The increase in bullion was for the most part from the Tom Reed.

Bullion shipments from the Tom Reed district for the first four months of the current year had a total value of \$440,000. On this basis the production of the district for the year will approach \$1,200,000. A total of 16,000 tons of ore have been mined since January 1. This tonnage represents the output from the Tom Reed mine, which is scattered throughout the district is not included. Neither is the tonnage of high-grade mine, which is scattered above the 400-foot level in the United Eastern mine.

Fluorine of the mine and supplies from Los Angeles, are being hauled into the district from Topock, Kingman, and other points. A few days ago the main working shaft of the Gold Road Mining and Milling Company, and it is now being used at the main working shaft, and will be followed by the 8th compressor. The shaft will be sunk to a depth of 100 feet as rapidly as possible.

A twenty-five-horse-power hoist has been ordered for the Oatman Mining and Milling Company property. The hoist will be used for the purpose of hauling ore from the 100-foot level to the surface. The hoist will be used for the purpose of hauling ore from the 100-foot level to the surface.

New machinery was purchased in Los Angeles for the United Western Mines Company this week. The machinery will be used for the purpose of hauling ore from the 100-foot level to the surface. The machinery will be used for the purpose of hauling ore from the 100-foot level to the surface.

## RARE MINERALS, METALLURGY AND CHEMISTRY.

### Platinum About.

### LOS ANGELES, April 28.—Q: Will the Times kindly give in your mineral department the value of the ore samples which the white No. 1 or the red No. 2 contain platinum? Samples are from near Jean, Nev., but from different levels.

A: Sample No. 1 carries traces cerussite (lead carbonate), trace of lead oxide and trace of vanadium. No. 2 is altered dolomite, silica, zinc and soda present.

### MICROSCOPICAL SULPHIDES.

LOS ANGELES, April 28.—Q: I am sending you under separate cover a sample of ore. Please let me know what it contains, and has it any mineral value? The sample is a quartzite and carry microscopic sulphides of iron, arsenic, lead and zinc; antimony sulphide (stibnite) a trace.

There are many processes by which sulphides can be commercially obtained. Your most practical method is to wash out (concentrate) the sulphides. Then assay the tailings (matter) to which the sulphides are taken, and as a control, for example, assay both the native ore and concentrates. Such a procedure will very soon inform you whether it would pay to mill the ore.

### POTASH SPRING PRESENT.

KINGMAN (Ariz.) April 21.—Q: I am submitting a sample of clay gotten in Yuma county, Arizona. Will you please tell me if it is of any value? (I would like for same.)

A: The sample carries silicate of alumina in low percentage. Limes and magnesia with traces of soda lime sulphates.

### CERUSSITE.

LOS ANGELES, April 21.—Q: A friend of mine working a mine near Yuma county, Arizona, has sent me a sample of mineral and requests me to send it to the Times and ascertain what it is. It is a white, crystalline mineral, with traces of soda lime sulphates.

Lead present, over 10 per cent. The sample is very high-grade lead carbonate and it is mineralogically named at the submicroscopic. It is partly in tabular crystal form, "in situ" and is very pure. Color pale white. Lead present, over 10 per cent.

### ALLIANTIE VARIETY.

LOS ANGELES, April 21.—Q: I have recently returned from a visit to a Utah locality fourteen miles east of Black Rock, a station on the R. P. A. & S. Railroad. I am enclosing two samples of mineral that I obtained from a ledge and from a vein in a prospect at Twin Butte. This prospect, which has been worked for some time, has produced a tonnage of mixed iron ore, hematite and magnetite. The ore is very pure and is in a highly crystalline form.

The sample I send you are, I believe, a rare combination of minerals, and while I was inclined at first to pass the mineral as a form of pyroxene, I find upon analysis that cerium is probably present. It will esteem it as a very great favor if you will test the samples for me.

A: Glad to get a line from you. Samples Nos. 1 and 2 are practically the same, and the name, and they are varieties of Allantie; specifically the rare mineral pyroxene. Long, thin, acicular crystals show in the samples, with massive matter of gray-black color; this matter is opaque, but in thin splinters the mineral is translucent. Brittle, of uneven fracture, hardness 5.5, and sp. weight 5.30.

Before the blowpipe the mineral beads and fuses into a blistered glass, and the borax bead is colored with iron present. Carefully analyzed the sample yields approximately 20 per cent. Cerium pyroxene, with trace of Yttria. The mineral is decomposed with hydrochloric acid, forming a gelatinous mass. Your find is important mineralogically.

## REAR MINERALS, METALLURGY AND CHEMISTRY.

## APEX CASE IS STILL IN AIR.

### West End-Butler Suit Taken to Higher Court.

### Settlement of Litigation Between Main Far Off.

### Extension Compromise in Good Off.

(SPECIAL CORRESPONDENCE.)

TONOPAH (Nev.) May 7.—The litigation in favor of the West End Consolidated Mining Company, which has been pending in the Nevada Supreme Court, has been taken to the Federal Circuit Court in Tonopah. The litigation is a continuation of the litigation between the West End Consolidated Mining Company and the Butler Mining Company, which was taken to the Federal Circuit Court in Tonopah.

The Butler Mining Company, which is a subsidiary of the West End Consolidated Mining Company, has been operating in the Tonopah district for some time. The litigation is a continuation of the litigation between the West End Consolidated Mining Company and the Butler Mining Company, which was taken to the Federal Circuit Court in Tonopah.

The Butler Mining Company, which is a subsidiary of the West End Consolidated Mining Company, has been operating in the Tonopah district for some time. The litigation is a continuation of the litigation between the West End Consolidated Mining Company and the Butler Mining Company, which was taken to the Federal Circuit Court in Tonopah.

## APEX CASE IS STILL IN AIR.

West End-Butler Suit Taken to Higher Court.

Settlement of Litigation Remains Far Off.

Extension Compromise is a Good Offset.

TODONAH (New).—The decision in favor of the West End Consolidated Mining Company in the \$2,000,000 suit instituted by the Butlers has been appealed to the Supreme Court. Settlement of the litigation consequently is further away than it was some time ago. The appeal is to the Federal Court, where all appeals eventually land.

The Tondoh Mining Company and the Tondoh Extension Mining Company, two of the richest corporations operating in the district, have compromised their differences, and settled the matter had been submitted to three experts, who reported in favor of the Tondoh Mining Company, which readily agreed to withdraw its suit.

The western end of the district, therefore, is freed from litigation and the peaceful outcome has prompted other companies in the same section, which feared conflicts with the Tondohs, to entertain the belief that it is difficult to negotiate a settlement.

This is one of the best incentives to development and largely on the merit encouragement the Tondohs have increased its working force from two to three shifts.

In the same quarter the Tondohs, Pittsburgh is adding to the number of employees, convinced that it will be a matter of time when the big ledge will disclose ore in commercial quantities.

The Tondohs level of the North Star presents the remarkable spectacle in this district of carrying a ledge over two feet thick where the ledge is altogether in gold instead of silver, as is the case with all other Tondoh properties.

The find was made in a mine since abandoned by the former management, and is not expected to increase their enrichment for any great length of time.

The fact that more work has been done in the Tondoh district than in any other section of the district, is a high commendation of the Tondohs.

The location is fourteen miles from Tondoh in an easterly direction, and is a small ledge of gold, and is as high as \$20,000 a ton.

It is impossible to say for certain, as the deepest development has only gone to five feet below the ledge, and the ledge is not expected to increase their enrichment for any great length of time.

The fact that more work has been done in the Tondoh district than in any other section of the district, is a high commendation of the Tondohs.

## San Diego Fair.

(Continued from First Page.)

COMPANIONS PICTURED DESCRIBE IT.

The sunlight has gone out of her face but they are all determined to bring it back if possible.

Along with several hundreds of other people I suppose, without any imagination, I followed the little troupe about the other day for hours. First the statue, then they stopped beside a fountain, again into a building or along the Prado, but no matter where they were always a part of the picture of Spain.

The crowd following were Juan and Juana, the Hopi Indians of the Painted Desert, who seemed to be belonging to the picturesque scene as they passed down from a balcony or stood in a corner of a colonnade apart from the others.

Another member of the crowd was an Episcopalian priest, who thinks of nothing but his church, and I feared he would be shocked by the capers of Seville, the dancer, but he thought it was beautiful, he said, and a part of the exposition.

MISS MORGAN DELIGHTED.

Anne Morgan, the daughter of the late J. Pierpont Morgan, was there that day and I feared that one who had traveled so extensively might find some fault with the dancers, for I had followed them so long I began to have a feeling of proprietorship in them. But Miss Morgan clapped her hands and cried out with enthusiasm as they danced the invitation dance for her, and for nearly an hour she watched and watched them.

As the concert of Creators' Band closed, the members of the band joined the crowd following the dancers. Doubtless the music and dancing reminded them of their own beloved Italy in one dance two of the girls stood in a balcony, while the men serenaded them until the girls descended the stairs and joined the dance. As they descended one of the seniors knelt and kissed the hand of one of the seniors, and that was a part of the dance. An old man with white hair and a beard but a young heart forestalled the second Serenade and grasped the hand of his son, and kissed him before the Spaniards could reach her.

So the crowd increased—high browed, low browed, Indians, musicians and all—until they blocked the street as they stopped to watch the dance. After a little while a guard suddenly remembered his duty and requested the dancers to move on, as the street was completely blocked for pedestrians.

Next they wandered into the Chapel of St. Francis, the beautiful mission which is in the California quadrangle. The three girls, impressed with the solemnity of the place, dropped to their knees before the altar and the men bowed their heads. For a few minutes they were silent and then they sang an old Spanish hymn, "Ora Pro Nobis."

It is planned to have them sing a hymn in the morning and a sunset hymn in the California quadrangle each day. Aside from this there will be a singing of the hymn, and no set place for the dances.

The performers are temperamental, which is sometimes awkward, though it adds to the charm of their entertainment. When singing or dancing they feel they are sort of hosts of the exposition, and seem to be hurt and insulted when money is offered them. One of the men became hurt the other day when he was offered a misanthropic and was not seen the remainder of the day. So much for temperamental.

The Los Angeles Canton is planning to hold in the exposition grounds later on.

PLAN FOR ODD FELLOWS' DAY.

SOUTHERN CALIFORNIA CANTONS TO RALLY AT FAIR FOR PARADE.

(SPECIAL CORRESPONDENCE.)

SAN DIEGO, May 8.—Activities in preparation for Odd Fellows' Day at the San Diego exposition July 3, are continuing with a vim and vigor. In the San Jacinto district many points in Southern California are sending big delegations have been given. Foremost the greatest gathering of Odd Fellows ever held in the South.

The report of the committee which recently attended the anniversary ceremonies held by Southern California lodges.

On this trip Odd Fellows' Day at the exposition was officially announced at gatherings held in Los Angeles, Covina, San Jacinto, Riverside, Huntington Beach and Escondido. Col. H. B. Brown of Los Angeles has been appointed general chairman for the Los Angeles district and already he has taken up preliminary work on excursions. The Los Angeles Canton will enter the competitive drills that will be a big feature of Odd Fellows' Day at the exposition. Col. W. H. Woodbridge of Los Angeles, a prominent worker in the L.O.F., has assured the San Diego Odd Fellows that the celebration will be a big success.

## First Big General Sale Event in Which The Broadway Basement Participates

—Only once in 19 years has the Broadway Department Store had the opportunity to celebrate such an event and only once since the Broadway Basement began have these departments participated in such a startling way.

—This page of opportunities that will be obtainable in the Broadway Basement is a gauge by which you may measure the wonderful importance of the sale.  
—And these extraordinary savings are but the beginning of 30 days of truly remarkable merchandising.

Page 4

Page 4

### 35c Ribbons 10c

For Millinery Use

—A splendid quality of picot edge faille ribbons, 3 1/4 inches wide, a variety of popular millinery shades. Note the brilliant luster and these are regular 35c ribbons to go at 10c yard. The Broadway Basement.

### Women's Suits \$7.95

Including Black and White Checks

—Just look at these wonderful Spring Suits that have been purchased to offer in this great event at \$7.95.  
—Newest spring models, lined with splendid quality peau de cygne. These are the smart shepherd checks.  
—Serges are in navy, Belgian and tan. This is an opportunity you cannot afford to overlook. The Broadway Basement.

### Beautiful Silk Coats \$6.95

—Silk Poplin coats, all lined with peau de cygne. Also a few cloth coats.  
—The quantity is limited, so we advise you to be early. These will go quickly at the price. The Broadway Basement.

### Did You Ever See Such Waists at 35c?

—You'll hardly believe your eyes. Now ruffled effects, solistes, shirt effects, cotton repps and piques.  
—Stripes materials, figured madras.  
—Sheer waists for dress-up occasions or the more practical styles for every-day wear.  
—These should create a sensation at 35c. The Broadway Basement.

### What! Are These House Dresses Only 39c?

—Why just look at the patterns—they're made of gingham, dainty stripes, neat checks, plain chambrays, many pique collars and many trimmed with Hamburg edging. Quite a number of collars of contrasting color.  
—Ever so many of these dresses could not be procured under \$1. All are startling at the price. The Broadway Basement.

### Just Imagine, Laces 5c

That Are Worth 10c to 50c

—You'll hardly believe your eyes. We've never had such laces for so little. Orientals, footings, shadow edges and bands, galons, Normandy laces.  
—Widths range from 1 to 6 inches.  
—2500 yards that will go like a flash at 5c yard. The Broadway Basement.

### Brassieres 15c

25c Quality

—Good quality muslin brassieres, some with waist edging of embroidery, others with insertion of embroidery, exceptionally low priced at 15c in this sale. The Broadway Basement.

### Women's Muslin Skirts 25c

—Regular full size and length, some are made with flounce, cluster of fine tucks. These are 50c values, especially marked at the sale price, 25c. The Broadway Basement.

### Girls' Sateen

—Size 2 to 14 years. Good black sateen bloomers, well made, garments that are in big demand and priced in the regular way at 25c. Expansion Sale, 15c.—The Broadway Basement.

### Bloomers 19c

Children's Dresses 29c

—Of chambray, gingham and percale. Slip-over effect, buttons at shoulder and have wide belt, others made long waisted styles. Trimmed with contrasting colors. Big feature at 29c.—The Broadway Basement.

### Silk Petticoats 95c

\$1.95 to \$3.95 Values

—A special purchase of silk petticoats, both plain and changeable. A good assortment of colors. Made with good full flounce of different widths. Sale price 95c. The Broadway Basement.

### Colored Petticoats 19c

—Special purchase of Petticoats, made of spun glass, Roman stripe patterns in a varied assortment of colors. Sale price 19c. The Broadway Basement.

### \$1.00 Cotton Blankets 59c Pair

350 only at the Price

—These are perfect, first quality, regular \$1 cotton blankets in white, gray or tan.  
—Considering the quality and the lowness of the price, the 350 of them should be sold before the day is half gone. 59c pair.—The Broadway Basement.

## THE BROADWAY BASEMENT

### 6000 Yards Wash Goods 12 1/2c

20c, 25c and 35c Values

—These are in 10 to 30-yard lengths. Nearly all 36 to 39-inch widths. 6000 yards consisting of:  
—Lace stripe Voiles,  
—Marquisettes,  
—Grapes,  
—Woven Tissues,  
—Fancy Voiles,  
—25c, 25c and 35c qualities at 12 1/2c. The Broadway Basement.

### Bath Towels 5c

Bleached—2400 at the Price

—When you consider that a wash cloth usually sells at 5c—think then what it means to buy a bath towel at 5c.  
—The size is small, the quality is splendid. Neat red and blue borders. The Broadway Basement.

### 30 In. Percales 7 1/2c

—Very best of styles in light and dark percales, 2500 yards in this event at 7 1/2c yard. The Broadway Basement.

### 38 In. Seed Voile 15c

—White, in the popular seed voiles, 20 bolts perfect. One of the most demanded fabrics at 15c. The Broadway Basement.

### 38 In. White Voile 10c

—Just imagine white voile, double width, 38 inches wide, at this startling price. 64 bolts offered in this sale at 10c yard. The Broadway Basement.

### 1886 Yds. Percales and Suits 5c Yard

7 1/2c to 15c Values

—Just look at this startling feature—  
—36-inch Percales,  
—36-inch Stripe Galates,  
—27-inch Percales,  
—27-inch Suiting,  
—36-inch Stripe Duck.  
—Full bolts and Mill Remnants, 7 1/2c to 15c quality 5c yard. The Broadway Basement.

### 30 In. Printed Voile 15c

—150 bolts of the prettiest patterns imaginable, a 25c quality.  
—That was killed to us imperfects. In most cases cannot find the occasional tiny spot of misprint. The Broadway Basement.

### 35c Dotted Swiss 15c

—42-inch width, white, 450 yards of it, so it will go quickly at 15c yard. The Broadway Basement.

### Boys' Clothing

#### Boys' Suits \$2.98

—About 150 Norfolk suits with stitched belts, gray, brown and tan. 6 to 15-year sizes. The Broadway Basement.

#### 95c Corduroy Pants 69c

—Double seated, 6 to 17-year sizes. Rich brown, two hip pockets. 50 dozen. The Broadway Basement.

#### Boys' 25c Tapeless Blouse 12 1/2c

—Just 50 dozen, 7 to 15 years. Limit 4. While they last. The Broadway Basement.

### Think of 35c to \$1.50 Sample Neckwear at 25c

—Women will be enthusiastic for this is indeed a startling opportunity. 100 dozen embracing nearly all the styles of popular neck pieces that retail in the regular way at 35c to \$1.50 each. A few have been slightly damaged in the making. Buy these at 25c each. The Broadway Basement.

#### A Jobber's Stock

#### Hair Ornaments 10c

2120 Pieces

20 Different Styles

—A great grouping of braid pins, fancy combs and novelty hair ornaments.  
—None worth less than 25c regularly.  
—Many worth 50c. Some have stone sets.  
—Grouped in the Expansion for a feature at 10c each. The Broadway Basement.

### Notions

KING'S THREAD 10c doz. spools—Black and white. 30 to 70 numbers. 200 yards on spool.

PEARL BUTTONS, 5c doz.—A special purchase of an extra large quantity—one size only, which accounts for the low price.

ELASTIC 5c yd.—1/4, 1/2 and 1 1/4 inch in white and two widths in black. Worth 10c to 25c.

HOSE SUPPORTERS 2 prs. 15c.—Rubber buttons, three sizes. Black and white, of an extra good grade elastic. The Broadway Basement.

## ARTHUR LETTS The Broadway Department Store BROADWAY, FOURTH AND HILL

### Untrimmed Millinery at 25c

A Startling Sale Feature

—There is sure to be a great rush for this item. A lot of hat shapes including a few ready-to-wear. Small and medium turbans, sailor effects, etc. Plain and fancy straw braids, and a few silk turbans. Besides combinations of straw and silk hats. These are in black and colors. Choice 25c. The Broadway Basement.

### Flowers and Ornaments 10c

—Think of what it means to buy flowers and ornaments at this price. Roses, buds, foliage, etc., besides straw ornaments, beads. An endless variety of styles, suitable for the summer hat. 10c each. The Broadway Basement.

### A Mill Surplus 3600

### Vests, Pants, Union Suits 19c

### Factory Mended Line for Women

—Just look at these undergarments at 19c. The slight imperfections will hardly be noticed.  
—Vests in high neck, long or short sleeves, low neck, short or sleeveless.  
—Pants knee or ankle length or lace trimmed knee.  
—Union Suits low neck, no sleeves, lace and light knee.  
—All firm, one and one bleached rib. Great as the quantity appears, they will not last throughout the day at such a price.—The Broadway Basement.

### 1200 Pair Factory-Mended Fiber Silk Stockings 25c

—These are in black, white, tan, light and dark gray, pink, navy blue and green.  
—Made with double line garter, welt, seamless, high styled heel and toe, double sole.  
—Lustrous fiber silk, look like silk and wear better. Sale price 25c. The Broadway Basement.

### Children's Nazareth Knit Waists 12 1/2c

—Factory mended, 500 pair. These are the nationally advertised line that when perfect sells at 25c. These go while they last at 12 1/2c.—The Broadway Basement.

### Men's Work Shirts 25c

1200 of Them—50c Kind

—In light blue, khaki and black and white twill—all perfect. Size 14 1/2 to 18, but in all colors. These sell in the regular way at 50c. Expansion Sale price 25c.—The Broadway Basement.

### Men's Balbriggan Underwear 29c

60c Garments—Factory Mended

—1400 of these new color shirts and drawers. Shirts are short or long sleeve. Drawers are single length. The imperfections are so slight you can hardly notice them. For the Expansion Sale price at a little above half. The Broadway Basement.

### 1600 Pairs Men's Socks 7 1/2c Pair

—Factory mended 15c line. 1600 pairs in black only. Reinforced heel and toe, elastic top. These did not pass first factory inspection. We procured them to sell at 7 1/2c.—The Broadway Basement.

### 2000 New Curtain Samples At 15c, 25c, 35c, 50c, 69c

—Five big jalousie headed with these curtain samples that have even the Expansion's label. Trim point, real Brussels lace, Cord, corded, velvet, active and long lace curtains. Being inventive, you can see them. It's impossible to tell you of the extraordinary value you must see them. One of the most remarkable lots we have ever had. The Broadway Basement.

### New, 11c Silkoline 7 1/2c For Draperies or Comfort Coverings

—The same quality that sells in our regular stock at this price as higher.  
—15 good choice pieces to select from. 25 yard 7 1/2c. The Broadway Basement.

### 10c Bungalow Net 6 1/2c

—White, cream and beige, all new and pretty bungalow curtain nets. 15c quality priced 6 1/2c yard. The Broadway Basement.

### 20c Table Oilcloth 12 1/2c

—White table oilcloth. This is quite unusual considering that white is so staple. Think of it, 20c quality at 12 1/2c.—The Broadway Basement.

### 75c Window Shades 24c Each

—Oil opaque window shades, 24c dupes to assorted shades. Size 24x36. An excellent lot, complete with bars and brackets. The Broadway Basement.

### Smith's Axminster Rugs 69c

Alpine—18x36 Size

—About 200 in the lot, assorted designs. These are usually priced at 1.00 in this Expansion Sale. 69c.—The Broadway Basement.

Mrs. R. J. Waters, E. R. Brainerd, W. J. Hole, William Bush, W. W. Ornduff, Frank W. King, Eugene Fottler, F. W. Garrett, W. H. Jamison, R. Francisco, W. L. Jones, A. F. Galt, Ernest Lockwood, J. T. Fitts, E. K. Foster, Reuben Shetler, E. W. Martindale, Harmon Ryun, J. A. Branson, Samuel T. Clover, Elinor Jones, E. Winter, Charles Ashcroft and Gertrude Ross.

Hollywood Woman's Club.

Wednesday was election day at the Woman's Club of Hollywood and Mrs. Edward Winter was elected president; Mrs. E. W. Cason, first vice-president; Mrs. Seward Cole, second vice-president; Mrs. J. P. Kent, secretary; Mrs. E. L. Hemming, corresponding secretary; Mrs. John W. Hubbard, treasurer; Mrs. Lee Campbell, Mrs. G. H. Lippincott, Mrs. J. F. Roddick, Mrs. George K. Patterson and Mrs. Clyde J. Eastman, directors. Annual reports were given by the heads of committees. The following year the club will have a "Festival of the Arts" and a "Festival of the Book."

Glendale Club.

The Tuesday Afternoon Club of Glendale is exceeding its reputation for doing things in the "festival of the arts" and "festival of the book" and is now planning a "Festival of the Book" and a "Festival of the Arts" for next year.

Woman's Improvement Association.

Following a delightful luncheon last Wednesday at which over 150 of the members were present the ladies of the Woman's Improvement Association elected the following officers: President, Mrs. Elizabeth Mumford; vice-president, Mrs. Jonathan Smith; secretary, Mrs. H. E. Epes; corresponding secretary, Mrs. H. E. Epes; treasurer, Mrs. H. E. Epes; membership committee, Mrs. H. E. Epes; public relations committee, Mrs. H. E. Epes; and Mrs. C. C. Browning.

Woman's Press Club.

Reginald Pole of England will speak before the Southern California Woman's Press Club next Tuesday afternoon at 2:30 o'clock in the clubroom, 202 Trinity Auditorium Building, on the Amalgamation of the Arts. Mrs. Estelle Lawton Lindsay will conduct a symposium of short-story writers of the club. A book meeting will be held at 1 o'clock.

Woman's City Club.

The Woman's City Club will have an open meeting tomorrow in Blanchard Hall, Mrs. Charles Farwell Edson, who has just returned from Europe, will talk upon interesting welfare work. A luncheon will be held prior to the programme.

Tropico Woman's Club.

Of unusual interest was the regular monthly meeting of the Tropico Parent-Teacher Association, which was held in the Cerritos school building last Friday afternoon. Judge E. H. Smith, brother of Rev. R. T. Smith of the Tropico Methodist Episcopal Church, gave an interesting talk on the playgrounds of England. Mrs. Martha McClure, principal of the Tropico school, presented a most delightful musical programme. The completion of the municipal playgrounds of Tropico will be celebrated Friday afternoon and evening, May 14, at the Magnolia-street school.

Alhambra Club.

The annual election of officers of the Wednesday Afternoon Club was held last Wednesday and resulted in the choice of Mrs. J. N. Gillies, president; Mrs. Hattie Jordan, vice-president; Mrs. E. E. Bailey, second vice-president; Mrs. C. H. Games, corresponding secretary; and Miss Jean Collins, treasurer. There will be two more meetings before the adjournment for the season is taken.

Channel Club.

On Saturday evening, May 29, at 8:15 o'clock, the Channel Club will have an evening of drama, music and dancing at the Little Theater on Figueroa street. The patronesses are:

Do You Feel Well All Day?

No, not all day. In the morning I cough and raise with difficulty stringy mucus. Coughing, gagging, hawking. Towards evening I feel tolerably well. Catarrh? Well, maybe. I had not thought of that. Yes, I believe it is catarrh, now that I think of it. Say, what is the matter with my getting Peruna?

That certainly is what you ought to do. Peruna will soon fix you all right. It did so for Mr. Lee Jones, Burning Springs, Ky. He had catarrh of the head, nose and throat for several years. Peruna cured him.

The FACTS—in a recent letter he said his catarrh was so bad it caused dizziness, headache, partial deafness, offensive breath, bad taste in the mouth. "In fact, my whole nervous system had run down. I never imagined my whole trouble was due to catarrh until I read a Peruna pamphlet. I began Peruna, and that bottle made me feel like a new man. I cannot praise it too highly. One of my neighbors was afflicted with catarrh. His case had been pronounced hopeless. I persuaded him to try Peruna; and the result is a perfect cure."

Dr. J. E. Brown, president of the Wednesday Morning Club, added a greeting and introduced a number of the Shakespeare section, who gave scenes from the play "As You Like It." The district president, Mrs. Herbert Cable, spoke entertainingly. The music section presented

## SILENT AS TO PRESENT NAME.

WOMAN ON BAD-CHECK CHARGE KNOWN TO POLICE.

In Trouble Before in Similar Case. She Said She was "Mrs. Minnie D. Graft"—Now is She "Mrs. M. D. McLean?"—Blames Her Mother for Her Predicament.

Known to the police as Mrs. Minnie D. Graft, having been arrested several times during the past three years in connection with bad check operations, a woman who would neither deny nor affirm that her name now is Mrs. M. D. McLean was locked up yesterday afternoon on a charge of issuing checks with no funds in the bank. She was picked up on Spring street by a private detective.

According to the woman she thought she had plenty of cash in the bank of Italy to meet the check. She said her mother promised to keep her account straight at the bank and she was much surprised when told it was overdrawn.

"I will not tell you whether my name is McLean or not," the woman said. "You can call me anything you like, but I am not going to explain how I signed this name to the checks."

The woman is accused of securing about \$10 from a local hotel and a

department store. She told the police that last February she deposited \$144 in the bank of Italy and did not know her account there was overdrawn.

When confronted with letters stating that she had also issued a number of checks in Seattle and San Francisco against the local account she denied it. "I would not be so foolish as to do that sort of thing after my experience in the local courts," she said. "When I was placed on probation I swore that I would not violate the law again and I have not."

The woman, under the name of Mrs. Minnie D. Graft and several aliases, was arrested in 1913 for defrauding the Alexandria Hotel out of a large sum. Smartly dressed, she gave the hotel clerks to understand she was the wife of a wealthy physician and when she had a large bill of dry goods sent from a department store to the hotel one of the clerks paid the bill and charged it to her account. The next day she disappeared. Later she was captured and Judge Craig gave her a probation sentence. The following year she was given a similar sentence by Judge Wilk.

In reference to her recent activities she told the police that her mother is responsible for her trouble. "A man told my mother of my past and she drove me out on the street," the woman said, "and here I am. With such a stain on my character I could not get a job or keep one

# Managers' May Carnival

An Annual Trade Event Which Means Money Saving Opportunities

Last May we featured a Manager's May Carnival and turned the store over to our Department Managers during the life of the sale. It was a huge success. We will now repeat our Managers' May Carnival and in the future make it an annual event. Our Department Managers have worked for months securing merchandise for this sale and we announce this event with positive assurance that the values featured will outclass any offerings of the present or past in Los Angeles. Every Department Manager will strive to beat former records, using as a magnet the lowest prices he has ever quoted on worthy merchandise.

## \$16.00 9x12 Ft. Brussels Rugs, \$9.85

Capt. Du Perier de Laran, French army officer now at the front. Capt. de Laran has forwarded to Los Angeles friends a copy of the official report of his government concerning the alleged atrocities of the Austro-German troops.

One Side of It.

## ALLEGED TEUTON OUTRAGES TOLD.

COPY OF FRENCH REPORT UPON SUBJECT RECEIVED HERE.

Comes with Letter from Officer now on Battle Front—Quotes Purported Austrian General Order of Ruthless Character—Data Gathered in Reconquered District.

A copy of the official report of the special commission appointed by the French government last January to investigate the alleged Austro-German atrocities during the war was received in this city yesterday by friends of Capt. Du Perier de Laran, an officer of the Tenth Hussar Regiment, Army of France, now stationed "somewhere along the battle front." Evidence contained in this report is based entirely upon the investigation in those parts of France and Serbia that were once held by the Austrians and Germans, and later reconquered by the allied troops. Photographs accompany the report, and are said to show facts of the Teutonic invasion.

In his letter, with which he inclosed the statement of the investigating commission, Capt. du Laran explained the report had been accepted by his government as absolute fact.

"I can hardly believe it myself," the officer wrote, "but from others whose word I would not doubt, I learn it is all too true."

One extract from the official report is a copy of a general order said to have been found by Serbian soldiers upon the reconquest of a Serb town near the Austrian border. This order bears the initials of an Austrian general, and is translated as follows:

"We are conducting the operation of war within the enemy's country, where the population is inimical toward us to a fanatical degree; in a country where assassination, as proved by the terrible episode of Sarajevo, is approved of and glorified in the highest class of society.

"Against such a people there is no room for any sentiment of humanity or generosity.

"I will not permit any one to make prisoners of the inhabitants who are found without uniforms and bearing arms; they should be shot without exceptions. In entering the environs of towns it is necessary to procure hostages, such as priests, schoolmasters and notables. These hostages should be shot if there is a single bullet fired at our troops, and all of the houses should be destroyed.

"It is not necessary to search every house near cities and towns where one might find hidden arms. Because the time does not permit a more thorough search, it will be necessary to shoot at once any one against whom there is the slightest suspicion of hiding arms."

Another section of the report refers to the treatment received by the women, old men and boys found by the Germans during that first rush on Paris. Specific names, dates and places are given. As most of these captives were returned to France as the Germans retreated the information is supposed to come first hand.

The French commission appointed to investigate the alleged atrocities comprised M. Georges Pavy, M. Armand Mollard, M. Georges Maringer and M. Edmond Palliet, all men of importance in French military and political circles.

When the Bugle Calls.

[Manchester Guardian:] A very young bugler of the new British army has been confiding to a friend his difficulties with his "bugle" and the large number of calls a military "bugler" has to learn (I find over sixty in one collection.) Certain words are associated with these calls, which help to fix them in the soldier's mind. Most people know the first and second "men's dinner" calls—"Come to the cookhouse door, boys!" and "Pick it up, pick it up, hot potatoes!" But it was amusing to learn that the sharp, stirring bugle call which the other night in a moment emptied some 15,000 troops into the street out of picture palaces, institutes, billiard halls (and even bath in one case) as if some giant hand had suddenly disturbed a nest of brown ants is not associated with rousing words like "Up, Guards, and at 'em!" or "Germans on the door mat!" but with nothing more warlike than "Rens, meeny, miny mo!"

Try Moline Eye Remedy for Red, Watery Eyes and Granulated Eyelids.

In the Spotlight.

MASON TO HAVE

FAMOUS DANCER.

Pavlova and Her Troupe to

Appear this Week.

Big Laugh Potentialities in

Orpheum Bill.

Marie Russell and Jimmie

Britt also Here.

Anna Pavlova, world-famous dancer,

comes to the Mason this week, giving

her opening performance tomorrow

evening.

She brings with her a company of

nearly 100 ballet and solo dancers,

beside a large symphony orchestra. A

five-months' stay at the front, with

the German and Austrian armies, will

appear at the Trinity Auditorium on

Monday and Thursday evenings, May

17 and 20, and give a lecture on his

experiences. Mr. Archibald brings

with him some good motion pictures

taken by himself, with which he will

illustrate his talk.

Mr. Archibald is a war corre-

spondent of vast experience, having

participated in every campaign in the

past twenty years, including the Chi-

nese-Japanese, Nicaragua-Honduras

## Dramatic Reviews.

(Continued from First Page.)

**British-Boer, Spanish-American and Russo-Japanese wars.**

**Empress.** Russell, comedienne, will headline the new Empress bill, opening tomorrow. The question concerning the Empress's act is "Is she colored?" Anyhow it's said she is a most pleasing entertainer in songs, dances and piffo.

**Others on the bill will be:** "The Honey Girls," in dances and songs; "Fray Twins," athletes; Ray Snow, monologist; Warren and Francis in a surprise act, whose only announced feature is dancing; and Arno and Bickney, the musical boys.

**Panthers.** Jimmie Britt, former lightweight champion of the world, will top the Panthers bill, opening tomorrow, in a monologue and boxing turns.

**Herbert Lloyd** will present his "Discordia," vaudeville revue, a burlesque of a complete vaudeville company, said to be most amusing. It includes representations of "chickens," jugglers,

has been secured for the "Mission Play."

**Bostock Jungle.** The Bostock Arena and Jungle will offer more new features in the way of animal acts for this week's programme.

Performances are given in the big steel-barred arena every afternoon at 3 o'clock and in the evenings at 8. The gates are open from 10 until the same hour at night. The trainers take their animals into the arena for their daily practice preceding their afternoon performance, and visitors are permitted to view this feature.

Kiddies are given free elephant rides every afternoon during intermission.

To study a bit of unknown country, 700 by 400 miles in extent, while cruising on a houseboat for two or three years is the object with which Algot Lange, already a veteran of Amazon exploration, will set out from New York in June. This piece of flooded jungle is one of the few remaining spots on the face of the earth which white men have never examined. It lies just north of the lower reaches of the great South American River, and has been neglected because unlike the upper lands drained by tributaries of the Amazon, it does not yield rubber. Mr. Lange has a theory that the people of a civilization much higher than any other that has left its mark on the Amazon region moved north and that traces of them, perhaps remnants of the tribes of their descendants, may be found in the unexplored region he intends to penetrate.

It portrays war vividly in phases, and the North and South are shown in all their social and political phases. Not only is it historically correct, but it is a gripping human story of love and hate.

**British-Boer, Spanish-American and Russo-Japanese wars.**

**Empress.** Russell, comedienne, will headline the new Empress bill, opening tomorrow. The question concerning the Empress's act is "Is she colored?" Anyhow it's said she is a most pleasing entertainer in songs, dances and piffo.

**Others on the bill will be:** "The Honey Girls," in dances and songs; "Fray Twins," athletes; Ray Snow, monologist; Warren and Francis in a surprise act, whose only announced feature is dancing; and Arno and Bickney, the musical boys.

**Panthers.** Jimmie Britt, former lightweight champion of the world, will top the Panthers bill, opening tomorrow, in a monologue and boxing turns.

**Herbert Lloyd** will present his "Discordia," vaudeville revue, a burlesque of a complete vaudeville company, said to be most amusing. It includes representations of "chickens," jugglers,

has been secured for the "Mission Play."

**Bostock Jungle.** The Bostock Arena and Jungle will offer more new features in the way of animal acts for this week's programme.

Performances are given in the big steel-barred arena every afternoon at 3 o'clock and in the evenings at 8. The gates are open from 10 until the same hour at night. The trainers take their animals into the arena for their daily practice preceding their afternoon performance, and visitors are permitted to view this feature.

Kiddies are given free elephant rides every afternoon during intermission.

To study a bit of unknown country, 700 by 400 miles in extent, while cruising on a houseboat for two or three years is the object with which Algot Lange, already a veteran of Amazon exploration, will set out from New York in June. This piece of flooded jungle is one of the few remaining spots on the face of the earth which white men have never examined. It lies just north of the lower reaches of the great South American River, and has been neglected because unlike the upper lands drained by tributaries of the Amazon, it does not yield rubber. Mr. Lange has a theory that the people of a civilization much higher than any other that has left its mark on the Amazon region moved north and that traces of them, perhaps remnants of the tribes of their descendants, may be found in the unexplored region he intends to penetrate.

It portrays war vividly in phases, and the North and South are shown in all their social and political phases. Not only is it historically correct, but it is a gripping human story of love and hate.

Casson, Mrs. Huellet Clinton  
rirt, Jr., and Mrs. Hobson Wheele

**WEDDINGS, RECEPTIONS, DINNERS, AND DANCE AND THE LIKE.**

**AT DUTY**—play days.

And just as society expresses a willingness to carry out with avidity the spirit of joyous things to come, also come showers and chills with quite set topsy-turvy our best laid plans—for picnics such as Mrs. Ennis had hoped to give at her broad ranch acres on Monday, or the numerous garden fetes which were of necessity called off until capricious J. Pluvius exhibits a more gracious attitude.

Mildred, always loyally itself to our own favorite Miss Los Angeles, purposely held in abeyance many events which are to be delightfully anticipated in the near future, because of La Fiesta de las Flores, and the precious time she had hoped to spend enjoying the many beauties incidental to the pageant was quickly supplemented to informal 'phone parties, with auction in the fore.

Even then, there does not seem to have been a dearth of things social in the revue of the calendar.

And the betrothal announcement continues to pour in. This has truly been a season favorable to Cupid, for we are to have weddings throughout the summer. May, despite the superstition of our grandmothers, is vying with June for the popularity of a wedding month, and the recent interesting announcement of Miss Juliette Bell's engagement to George M. Wallace leads us to expect a brilliant nuptial service even later. Miss Bell is one of our most beautiful debutantes, and popular to a degree, and her betrothal, which was announced formally by the parental Joseph Francis Sartoris on Wednesday, will herald a series of courtesies complimentary to her.

Mr. Frederick Henshaw and his charming young daughter, Miss Eleanor Tay of San Francisco, who are the house guests of Mr. and Mrs. Michael J. Connell are coming in for the lion's share of entertaining, though of an informal nature, for Miss Tay is but a school girl, who has not yet made her bow to society. Mrs. Henshaw is the motif for Mrs. C.

At the top is Mrs. Murray Russell, O

Montague's tea this afternoon, at the latter's home on No. 608 Serrano, when over fifty guests are bidden to meet the fascinating visitor, Mrs. Connell is giving a luncheon to ten ladies tomorrow in compliment to Mrs. Henshaw, and in the evening they are going to the Mason for the Pavlova performance, as guests of the William M. Garland.

Miss Tay was honoree at an informal dancing party, given by the Connells on Friday evening—a delightfully informal affair attended by thirty of the younger social set, and yesterday Miss Ramsey gave a luncheon of eight covers in her honor, with a matinee box party at the Orpheum theatre. Mrs. Paul Grimm has also contributed a pleasant function for her, and during the stay of herself and Mrs. Henshaw there is to be one continuous round of gaiety.

Angelinos are getting the exposition fever! There was an exodus of people left for either San Diego or San Francisco the last week.

Miss Emeline Childs, noted for her attractiveness, the guest of the Edward Williamsons in Oakland, and of Mrs. Ethel Hager Kellogg of San Francisco, and is being much feted in the northern exposition city.

The Stephen C. Hubbells and their guests, the Lalloys of Iowa, went to San Diego during the week, and many affairs planned in honor of Mrs. LeRoy have been postponed until later.

The E. Avery McCarthys also mean to spend much time north, and the Dr. Flemmings who, with their two winsome young daughters, Alice and Ruth, plan to go in a few weeks for a two months stay.

The Secret is Ours.

Mr. and Mrs. Henry Doehler of No. 358 North Ardmore avenue announce the engagement of their daughter, Edna Mae, to Dr. Arthur J. Friester of No. 1177 North Vermont avenue.

The wedding is to be an event of the 14.

**May Festival of the Coleman**  
A celebration, a pageant based on the  
Frances Saltmarsh, Miss Charlotte

**Quiet Wedding.**  
A romance begun in Florida and progressing in several states, culminated in the wedding Tuesday Jesse Phillips Bussey of Wisconsin and Mrs. Catherine Fowler Avery of Minneapolis. The wedding took place at the home of Dr. Kate Moody, 218 West Avenue 54, Dr. Gants of the Highland Park Presbyterian Church officiating. The bride has a home in Minneapolis and the groom is a resident of Omro, Wis., but they intend remaining in Los Angeles throughout the season and will probably make their home here. Both have many friends in Southern California, as well as in their home States.

**Informal Box Party.**  
A box party at the Mason and t at the Alexandria with Mrs. E. J. Pri as hostess was enjoyed Saturday as Mrs. Frank Sherwood Wise, Harry L. Bentley and Mrs. William H. Millspaugh.

**For Rear-Admiral Retter.**  
Judge and Mrs. Lewis R. Wor entertained last evening at their home No. 443 South Kingsley drive, a dinner company in honor of Rear-Admiral Retter (retired), U.S.N. Others present were Judge and Mrs. Charles Monroe, Senator and Mrs. John Werks, Mrs. Richard Horace Burr and Pierce Works.

**Smith-Stridven Announcement.**  
Mr. and Mrs. Charles Francis Smith of No. 443 South Catalina street announce the engagement of their

daughter, Meta Elizabeth, to William H. Sirdevan.

**Miss McClelland Hostess.**

Pink was the color chosen by Miss Pink for the decorations of the room at her bridge luncheon Wednesday afternoon at the Bryson, when she entertained the following guests:

Miss McClelland, Mrs. Francis R. Brown, Miss Edna Cooper, Miss R. Elliott, Miss Beatrice Burnham, Mrs. Dorothy Armstrong, Miss Katherine Stuart of Seattle, Miss Iona Hudd, and Miss Emily Warner, who assisted and Miss Mary Le Grange, Miss Miriam Ryan, Miss Madeline Furdon, Miss Mary Heppes, Miss Josephine Roberts, Miss May Burges, Miss Mary Brown, Miss Mildred Powers, Mrs. Marcella Mahan, Miss Mary Milne, Miss Edna Snyder, Miss Helen Swenson, Miss Dorothy Trank, Miss Helen Undergraff, Miss Katherine Albright, Miss Caroline Ware, Miss Juanita Lane, Miss Wilhelmina Chastor, Mrs. Virginia Sanborn, Miss Laura McGavin, Miss Sammie Harris, Mrs. Grace McCormick, Miss Florence Knittle, Miss Florence Howard, Mrs. Irma Guthrie Wright, Miss Mabel Rufo, Miss Marguerite Faulkner, Mrs. Cora Boetscher, Miss Wilhelm Rector, Mrs. Lyla Merithew, Mrs. James Alexander Logg, Mrs. William Freeman, Mrs. Clarence B. Linton, Long Beach, Mrs. Franklyn Washinton Cowler, Mrs. Frank Sherman, Mrs. William H. Millsaps, Mrs. James D. Campbell, Mrs. Harriet Clatworthy, Mrs. Carl Chapman, Mrs. Walter V. Fomeroy, Mrs. George J. Gavin, Mrs. Charles Sumner Keane, Mrs. D. Norton, Mrs. C. R. Newcomb, Mrs. Stanley Ford Howland, Miss Elaine Hall, Miss Bonnie Beach, Mrs. Dean Kennedy, Mrs. Harry Schorborn, Mrs. Harry Miller, Mrs. J.

**Casson, Mrs. Hazellet Clinton** and **Clifton H. Casson, Jr.**, and **Mrs. Hobson Wheeler**.

**Reception for Betrothed.**

**Mr. and Mrs. Louis Kessler**, 1438 West Twentieth street, announce the engagement of their daughter, **Irene**, to **Samuel Cowen** of London. Reception in honor of the engaged couple will be given at their Friday afternoon from 2 to 5 p.m., the Kessler residence.

**Few Tuesday.**

**Mrs. George Eugene Morrill** of Rampart will entertain at a bridge on Tuesday afternoon. **Mrs. Gerie E. DuPru** and **Mrs. Sheldon G. Gifford** of Milwaukee will be honored guests.

**Home from Honeymoon.**

**Mr. and Mrs. Carl O. Winberg** have returned from their wedding trip. They are now located at No. 1145 W. Tenth street. **Mrs. Winberg** was formerly Miss **Pearle N. Rosenthal**. She knows as a teacher and chamber worker in the city.

**Annual Dinner for Friends.**

At the home of his daughter, **Eva J. Mondon**, No. 219 West Eighth street, **Capt. Abram Jones** recently entertained the California members of the First New York (Lincoln) Cavalry, to celebrate organization of the regiment in 1861. Covers were laid for **J. M. Sw Thomas Lyon**, **J. H. Wyttensack** the host. Red, white and blue predominated in the table decorations.

**From Seattle.**

**Mrs. A. Kyrer**, formerly of Seattle with her young daughter, **Miss Mary**, have taken an apartment at the Ruxford and are to reside permanently in Los Angeles.

**Well Known Here.**

**Mrs. James Scott** of No. 1910 Harvard boulevard is enjoying a visit from her daughter, **Mrs. James Ward Bassell**, who has arrived from Arizona to remain several weeks. **Bassell** is to join his wife later, together they will visit the two cities.

**Amus Auditorium.**

right below, are Miss Marion Pollard.

positions. Her many friends are tending to this well-known and voracious visitor a warm welcome, being already planned several courtesies for her.

**For Tomorrow.**

**Mrs. R. P. Hall** will be hosting a 1 o'clock luncheon tomorrow at the home in Hollywood, with membership Monday Card Club special card.

**To Marry on Thursday.**

The marriage of **Mrs. Florence Allene Bowden** and **Conway Norman** of Detroit is to be an announced event on Thursday, the groom-elect, with his two brothers, **Norman M.** and **Donald H. Jr.** of Detroit, arrived Tuesday. **Mr. James** is to be best man. The service is to be read at the Church of the Messiah, Rev. Stanley Rowe officiating, and a reception is to follow at the home of the bride's mother, **Mrs. I. A. Bowden**, No. 1247 Vermont-third street. **Mr. James** and his bride are going East on honeymoon before they return to Detroit, where they are to reside. Marriage takes from Los Angeles favorite daughter, the sole regret.

"Since the announcement of her engagement **Mrs. Bowden** has complimented with many presents and social courtesies. Tomorrow morning her brother, **J. C. Bowden**, sister, **Mrs. R. L. Tyler**, are giving dinner for the wedding trip."

**Luncheon for Eight.**

Pink roses were used by **Miss H. Ward** for the luncheon which she gave at Bullock's tearoom Friday evening for **Madames C. H. V. of Pasadena**, Virginia Bamber of Canada, **Charles Brown**, Gen. Gladstone Sherbondy, Foster of Iowa, the Albro, **Clarence Fry** of Pasadena and the hostess. **Miss Ward**, while spending several weeks here from home in Des Moines, is going toadena the last of the week to

[illegible][illegible]

In yesterday's May Festival of the Coleman House Association at Columbus Auditorium.

At the top is Mrs. Murray Russell, one of the prime movers in the triennial celebration, a pageant based on Tennyson's "May Queen." From left to right, below, are Miss Marion Pollak, Miss Julianne Johnston, the

positions. Her many friends are attending to this well-known and already planned several social courtesies for her.

**For Tomorrow.**

Mrs. R. P. Hall will be hostess at a 1 o'clock reception tomorrow at the Hollywood, with members of the Monday Card Club special guests.

**To Marry on Thursday.**

The marriage of Miss Fordy Allene Bowden and Conway L. James of Detroit is to be an announced event on Thursday, the 28th. The groom-attendant, with his two best men, will arrive from Detroit tomorrow, arrived Tuesday. Mr. James is to be best man.

Mr. J. W. Bowden, of the Methodist, Rev. Stanley R. F. officiating, and a reception is to follow at the home of the bride, Mrs. J. A. Bowden, No. 2337 Twenty-third street. Mr. James and his bride are going East on the 29th, and will be in Detroit on the 27th, where they are to reside. Arrangements taken from Los Angeles for the laughter, the sole regressive feature.

Since the announcement of her marriage, Miss Bowden has been complimented with many prenuptial and social courtesies. Tomorrow morning, Mrs. J. W. Bowden, the daughter, Mrs. B. L. Tyler, are giving dinner for the wedding train.

**Luncheon for Eight.**

Pink roses were used by Miss H. Ford for the luncheon which was given at the home of Mrs. J. W. Bowden for Misses C. H. V. of Pasadena, Virginia, Jean of Chicago, Charles Brown, Ben of Los Angeles, and Misses of the Albro, Clarence Ford, and the hostess. Miss Ward, wife of the bride, is going to her home in Des Moines, is going to attend the last of the week to

## SOCIETY.

Assum. UNMINDFUL of nature's fixed festivity, the entrance of May, the best beloved month of the year, has been robbed of all its rosiest gladness, and she has slipped into our midst bathed with rainbow tears that temperamental April has instilled upon. Sympathy has remained unspoken, for society has been happier than ever in the contemplation of many delightful affairs that are to be enjoyed until vacation's lure has been answered by the fickle throng. Of all the recent events, the May Day festival that was given at Citrus High School early in the week was one of the most charming and elaborate. A programme, rich in detail and entertainment, was given under the supervision of the teachers, and the Glendora, Center and Assum grammar schools all contributed of their best to make the occasion one of the red letter days of the year. Besides a splendid exhibit of the sewing and manual training departments of the school there was a delightful musical programme, and the rendition of a number of charming songs added much to the pleasure of the event. The Girls' Glee Club and the Boys' Glee Club did excellent work, the dances, you dille and maypole all were thoroughly enjoyed, and the celebration was conceded to be one of the most brilliant in the history of the local schools.

A charmingly arranged dinner party was given on Sunday, when Mr. and Mrs. Morris Jones entertained a few friends commemorative of the birthday of their little daughter, Miss Winifred Jones, and Miss Stella Stewart of Puente. Two beautifully decorated cakes proved the pièce de résistance of the collation, which was served in the midst of a prettily arranged table decorated in roses and ferns. At the conclusion of the repast the time was spent in informal pleasures. Both of the honored guests were substantially remembered by the friends present.

Mr. and Mrs. Andrew Robinson entertained at an elaborate dinner party on Sunday afternoon, when their guests included Mr. and Mrs. W. W. Heth, Mrs. N. Heston and Mrs. Henry Heth of Los Angeles. The day was happily spent in the pleasant environment of the Robinson home, which is the Mecca for many similar events.

A hearty welcome is being accorded to little Miss Worth, who arrived last Thursday night to gladden the home of Mr. and Mrs. Adam Worth. The Worths are being warmly congratulated by their many friends.

Mr. and Mrs. T. H. Knapp have recently been entertaining as their house guests their daughter, Mrs. Willard Wood of Los Angeles, who was in the city for several days last week. Mrs. Willard has a large acquaintance here and enjoyed a delightful visit.

One of the most charming of recent entertainments was the meeting of the Assum Embroidery Club, which occurred on Wednesday afternoon at the home of Mrs. E. C. Thomas in Puente. In anticipation of the gathering the home had been attractively embellished with cut flowers and greens, and the afternoon hours flew happily in the pleasant environment, with the accompaniment of the click of needles and the flash of busy fingers.

Later delectable refreshments were enjoyed by the congenial coterie, among whom were: Mrs. Don H. Petty, Mrs. M. A. Trindale, Mrs. J. S. Collins, Mrs. O. B. Daniels, Mrs. C. W. Baker, Mrs. J. W. Calvert, Mrs. A. Ellis, Mrs. Fred L. Clark, Mrs. C. L. Smith, Mrs. J. J. Crain, Mrs. O. F. Wright, Mrs. E. W. Thompson, Mrs. H. H. Chamberlain and Miss Mona Trindle.

Eagle Rock. MR. AND MRS. R. R. HENDERSON of No. 138 North Central avenue were guests Sunday of Mr. and Mrs. A. L. Stafford of Hollywood.

Mayor Cromwell Galpin and two daughters, Misses Floy and Ellen Galpin, of West Adams avenue spent several days at San Diego Exposition and at La Jolla last week and this week.

Mrs. Mary Stewart and daughter, Miss Margaret Stewart, of Highland Park, were Sunday guests of Mr. and Mrs. C. G. Stewart of No. 140 Rowland avenue.

Miss M. A. Rickay, who has spent the past nine months with her sister, Mrs. G. F. Howard, of Eddy avenue, has returned to her home at Oculocosa, Iowa.

Mrs. Harriett Abernathy, mother of Mrs. G. M. Daniels, celebrated her eighty-seventh birthday anniversary on Tuesday with a family dinner. Those present were Mr. and Mrs. H. C. Daniels and family, Mr. and Mrs. E. M. Daniels, Mr. and Mrs. G. M. Daniels and Purdette Daniels, all of this city, and Mrs. T. Smith of Los Angeles.

Mrs. M. E. Weaver of Salina, Kan., spent part of last week visiting with her brother, C. E. Slaght, and family of Rowland avenue.

Mrs. R. R. Henderson entertained for luncheon on Thursday Mrs. Penny of Hutchinson, Kan., Mrs. Rodgers of Hollywood and Mrs. H. W. Gleason of this city, at her home at No. 138 North Central avenue.

Dr. G. A. Hughes of South Bend, Ind., was a guest last week of Mr. and Mrs. J. A. Johnson of North Central avenue, on his way to visit the exposition.

Mrs. A. J. Galle and little granddaughter, Elizabeth Langley, of Lawrence avenue, who have been spending several months with the former's daughter at Denver, have returned home.

Mr. and Mrs. H. C. Daniels of Castle avenue had as their guests this Sunday the Misses Nellie Burr and Sadie Peckham of Batavia, Ill.

Casa Verdugo. ON FRIDAY evening the Saint Margaret Guild was entertained by its secretary, Miss Ethel B. Laud, at her home, No. 305 North Myrtle avenue. The election of officers for the ensuing year was the feature of the evening. Harriett Wells, the popular and efficient president, resigning, having served since the organization of the guild. Miss Irene Read of North Central avenue was elected to succeed Miss Wells. The treasurer, Miss Cecilia Wilson, and secretary, Miss Ethel Land, both tendered their resignations, but it was decided not to elect their successors until the next regular meeting. The business being over, dainty refreshments were served, and the remainder of the evening was spent socially.

Miss Barbara Mitchell of Kenneth road entertained with a dancing party at La Ramada on Saturday evening, complimentary to Miss Alpha Clement of Pacific avenue, and her house guest, Miss Hess, of Lindsay, Cal. The dining-room was cleared for dancing and charmingly decorated with roses and ferns. At a late hour a delicious luncheon was served to the merry party. About thirty guests enjoyed this delightful informal affair.

Mr. and Mrs. D. Campbell entertained with a perfectly appointed full-course dinner at their attractive foothill home, Ard Egan. The house was a veritable bower of roses, and even more attractive than ever. Among the guests were Mr. and Mrs. Leslie Brand, Mr. and Mrs. Charles H. Toll, Mr. and Mrs. Mattison B. Jones of Glendale, Mr. and Mrs. W. P. Thompson. After the

The Great White Store—Los Angeles

Store  
Opens  
at  
9 A.M.

## More Wonderful Blouse Values

An Event Extraordinary!  
2000 Yards, 40-inch Chiffon Cloth, 45c

—Think of it—fine silk chiffon cloth, the most popular material of the day, in the season's new shades and in black and white, yes, 40 inches wide, at 45c a yard—why that's less than the actual cost of weaving. It's another scoop for the Hamburger buying power—the strongest value in the newspaper this morning—the 2000 yds. will go with a rush at 45c a yard.

## A Millinery Event

—And a millinery carnival at the Great White Store means dollars and dollars saved on every model offered. We have left nothing undone to make it a success. In all the collection there are hardly two hats alike and the values will create a new standard. For instance—

There is assembled an immense variety street and dress—

Hats, \$12.50

—Many of these were specially designed for this event; many are repeated from lines selling until Saturday for \$17.50 and \$19.50. There are garden party hats in lace effect; picture hats for afternoon and matinee wear; also chic styles for street costumes and suits—wonder values indeed at \$12.50.

Tailored Hats, \$7.50

—We have taken special pride in this line all season and in the semi-trimmed models offered tomorrow there are many style innovations.

—In addition, our designers have made over-so-many flower-trimmed hats—these showing the new style motifs of the hour at this popular price—\$7.50—not a model will be left by closing time tomorrow night.

Ostrich Bands } \$1.69 Ostrich Fancies } 69c  
and PLUMES } —A variety of colors!

—More of these same bands and plumes which sold so rapidly a week ago—and which were formerly \$2.50. The limited number of these remaining are now reduced—select yours at \$1.69 tomorrow. They're in lobster effect in colors, black and white.

(Hamburger's—Second Floor—Monday)

Thousand Yards of \$1.25 to \$2.00 SILKS — Monday } 95c yd.  
—Plain and Fancy Weaves, 36 to 40 inches Wide—for Street and Evening Modes

—The vogue for silk frocks, blouses, suits and underwear this season is unprecedented. Tomorrow you may gratify your wish for these by saving immensely on the wanted silks for any garment you may wish to make. Think what a vast difference the cost—at 95c a yard.

\$1.25, 36 in. Gros de Londre, 95c \$1.50, 36 in. Floral Satin, 95c \$2.00, 40 in. Canton Crepe, 95c  
\$1.25, 36 in. Chiffon Taffeta, 95c \$1.50, 40 in. Plain Satin, 95c \$1.50, 40 in. Fancy Silk, 95c \$2.00, 27 in. Corded Satin, 95c

—Eight high grade silks—one can hardly realize the good fortune of buying them for 95c a yard. Shop for silks—tomorrow.

Another Rousing Hamburger Garment Event  
An Out-of-the-Ordinary Occasion That Will Set a New Record in Value Giving

## 140 Women's \$25 Suits, \$14.50

—And even \$25.00 was a modest price for these high-grade suits. Of the thousands bought for the season's selling only 140 now remain—out they go tomorrow at \$14.50.

There are suits of silk, serge, poplin, checks, gabardine and novelty weaves—26 distinct styles in sizes 16 to 44. Be one of the fortunate 140 women to secure one at this clearaway price—\$14.50.

\$30 and \$35 Suits } \$18.50  
55 Repriced Tomorrow }  
—And they are beautiful models of serge, gabardine and checks; mostly in blue, some in tan and a few in gray. All sizes—\$18.50. A money saving opportunity for both women and misses.

White Coats, \$7.50  
—Only one or two of a kind, and there are just 45 in the lot—taken from our \$20 and \$25 lines because they've become slightly soiled from display. Long or short models—\$7.50.

Street Coats, \$12.75  
—Also motor coats and coats for afternoon and dress wear—all priced \$12.75 tomorrow regardless of cost or former value. Models of mixtures, taffetas, double face coatings, etc.; all sizes for women and misses.

\$25.00 Coats, \$17.50  
—\$25 is what they should be marked, for they are of high grade taffeta, serge, mixtures, faille and more silk. Mostly in black—one will be rich for all-season wear for any dress affair; all sizes.

## 175 Modish Silk Dresses—Two Great Lots

\$10.00  
—Surely the bargain day of all the year, when pretty silk dresses will be within the reach of even the most restricted purse. Party frocks and street dresses of crepe de chine, taffeta, charmeuse and novelty silks—why, they'd ordinarily sell for double their respective prices tomorrow—\$10 and \$15.

50 White Corduroy Skirts—ordinarily \$5.00—tomorrow, \$3.95

Girls' Dainty White } \$1.50  
Lingerie Dresses at }  
—They were \$2.50—dainty dresses that have become a bit soiled from display—45 of them in 6 to 14-year sizes—\$1.50.

Juniors' Smart } \$1.95  
Gingham Dresses }  
—High grade dresses that were much higher priced earlier in the season. Sizes 12, 13 and 17—in the sale tomorrow, only \$1.95.

Girls' Summer } \$1.00  
DRESSES at }  
—The type of dresses usually selling for \$1.50—have on several for school and vacation wear tomorrow at \$1.00. Six to 14-year sizes.

## SOCIETY.

dinner the guests were entertained with music by Julius Krang, the accomplished Cello virtuoso. Miss Barbara Mitchell, the beautiful and popular young daughter of Mr. and Mrs. Alex. Mitchell of Kennel road, has been chosen by the Glendale R.F.C. as their candidate for queen at the Glendale May festival. Miss Mitchell is a brilliant brunette of charming manners, and has hosts of friends, and will without doubt be elected as Glendale's fairest daughter for queen.

Tropico.

IT WAS truly a merry and jolly gathering of members of the younger set of society folk of Glendale and Tropico who enjoyed a winter roast at Palm Villa on West Park avenue, the home of Eugene H. Imier and his sister, Miss Marjorie Imier, when they entertained Saturday evening. The large and spacious rooms were aglow with roses, roses everywhere, in baskets, low-cut bowls and tall graceful vases, which added a fragrance with the masses of white erythrae blossoms which were used so effectively in the pretty decorations. Two original cocktails were introduced by the young hostess and her brother, assisted by their mother, Mrs. David H. Imier, twenty-six leaves from an equal number of fruit and ornamental trees, gathered from the Park Villa gardens, furnished much amusement for the young folk, who, though residents of this prolific Southland, demonstrated that they are unfamiliar with the leaves of the trees. Miss Cecilia Lyon won first prize and Miss Catherine Phillips the booty in this interesting contest. The second one was a play on the names of twelve of the most popular books of the present day. In this mental test Samuel Perry of Pasadena and Chancellor Livingston of Sunland each won prizes. The third contest was also very amusing, as a number of the guests produced their baby pictures for inspection and identification. In this Howard McGill and Miss Catherine Phillips each received prizes. Music and dancing also added to the pleasures of the evening. At 10 o'clock the merry-makers assembled around the long furnace that had been built of bricks and sheetrock under the branches of a huge old cypress tree, and there enjoyed the winter roast. The tea garden, vivacious and lively, gardens at the rear of the house were brilliantly lighted, which with the fire from the furnace presented a most interesting picture. The vine-covered lodge was most abundantly supplied with wieners, and all of the temptations that render a winter roast so very appetizing, and the merry young folk fitted to suit from the lodge to the roasting place, roasting and eating. Following the feast the guests assembled in the house and resumed dancing until 11:30 o'clock, when they loath to cease their merry-making, bade their host and hostess "good night." Those who thus enjoyed this May-day winter roast were the Misses Margaret Boncher, Esther Richman, Evangelina Hunchberger, Justina Emery, Lillian Schick, Helen Swenson, Ernestine Lyon, Mary Wilk, Joyce Dominy, Catherine Phillips, Cecilia Lyon, Pauline Edwell, Dorothy Hunt, Katherine Renshaw, Hope Armstrong, Messrs. William Bode, George van Halen, Thomas Phillips, Burns Martin, Merrill Burke, Chancellor Livingston, Paul McGowan, Harry Spink, Robert Cowlin, Frank Hester, Edwin Haseock, William Renshaw, Otto Wilk, Samuel Brown, Howard McGill, Samuel A. Perry of Pasadena, Albert K. Smith of Los Angeles, and Kenneth Harrison of Eagle Rock.

Miss Myrtle Pulliam leaves shortly for an extended visit of a number of years with relatives and friends in Massachusetts and Connecticut, accompanying her cousin, Miss John Pulliam, who has been the house guest of Mr. and Mrs. C. O. Pulliam the past few months. As a compliment to Miss Pulliam, Miss Eula Richardson entertained with a dinner party at her beautiful home, Central avenue and Hilldale drive, Monday evening. Following dinner, Miss Pulliam enjoyed a farewell shower, many pretty and useful remembrances so dear to a traveler being presented. Music and games closed the delightful evening's entertainment. In which Paul and John Richardson, brothers of the hostess, participated and added to the enjoyment. Seated with Miss Richardson, Mrs. Richardson and Miss Pulliam, were Mr. and Mrs. Harry P. Peterson, Mr. and Mrs. John Allen Leary, Miss Emily Ellis, Miss Lorraine Mitchell, Miss May Church, Mr. Chevis Mitchell and Mr. John Smaller.

COMPLIMENTARY to Miss Ednah Rich of the Santa Barbara Industrial School, who was one of the speakers at the meeting of the County Federation of Women's Clubs here, Miss Betty Elliott, teacher of chemistry in the High School, entertained at luncheon Thursday. Cecilia Brunner roses were artistically used in the decorations and the pink and white color scheme was carried out in the luncheon menu. Miss Elliott's guests included women prominent in local club affairs and the feminine members of the High School faculty. The luncheon was prettily served by students of Miss Elliott's classes.

An old-fashioned housewarming party was arranged by a number of friends of Mr. and Mrs. X. N. Hart Thursday evening in their new and very attractive Santa Paula street home. The affair was a surprise to the guests of honor. A bountiful supper, prepared by the guests, was served at 7:30.

For her house guest, Miss Edna Roberts, Miss Rita Rinker entertained a few young ladies at a delightful dinner Tuesday evening. Cecilia Brunner roses formed the decorations of the dining-room. An evening of conversation followed the dinner.

The Hen Peck Card Club was entertained by the L. W. Corbett in regular meeting Monday evening. The members of the Auction Bridge Club had a delightful meeting this week at the home of Mrs. M. E. Butcher.

At the regular meeting of the Parent-Teacher Association Tuesday afternoon, Miss Thompson, one of the local teachers, gave a very interesting talk on Hawaii. Miss Thompson has taught in Hawaii and so brings first-hand information. Mrs. L. B. Bowker and Miss Mabel Snyder sang Hawaiian songs.

Particularly delightful was the meeting of the I.R.C. Club at Mrs. William Greenough's Friday afternoon. Roses were prettily arranged in decorating the home. The amusements planned for the afternoon was a guessing game of conundrums. Mrs. R. D. Whidden being the winner of a pretty vase filled with roses. Election of officers resulted in the following officers for the coming year: Mrs. R. B. Jenkins, president, and Mrs. L. W. Winton, secretary.

Under the auspices of the books and conversation section the regular meeting of the Ethel Club was held Monday. Mrs. Edward Winterer, district chairman of literature, who was at hand to give a talk on California literature, was unable to be present, but the afternoon was nevertheless enjoyable. A solo by Miss Arley Mott, stereoscopic views of Hawaii, and a reading by Mrs. L. B. Bowker and a reading by Mrs. Maria O. Clark formed the program.

## SUPER FURNITURE AND RUGS

Not in all Los Angeles is there an assortment of summertime furniture, rugs, porch shades, etc., to equal the splendid stocks of the Great White Store. For at Hamburger's will be found everything for the furnishing of the city, beach or mountain home for summer—and at a very great advantage in price.

### Inexpensive "DELTOX" Grass RUGS

Good in appearance, restful to the eye, elastic to the tread, with wearing qualities that withstand the weather. They harmonize ideally with wicker, rattan or bentwood furniture; are artistic in pattern, and handsome enough for any room in the home. Sizes and patterns to conveniently fit your requirements.

[illegible][illegible][illegible]

occurred at the home of Mr. at Mrs. A. Anderson on West Hill street. Thursday evening when Miss Louise Ringbell became the bride. Mrs. Anderson's son, Harry Engman, was the groom. The wedding was a happy event, the color scheme being pink and green. Bouquets of white bride's roses and pink Cecile Brunner roses blended their beauty with the graceful ferns and formed a perfect setting for the wedding. In one corner of the parlor a rose bower had been arranged and at 8:30 o'clock the officiating clergyman, Dr. C. Irving Mills, rector of St. Mark's Episcopal Church, entered the room to the strains of the bride march played by Mrs. Pearl Zadar of Los Angeles. Mills was followed by the groom, Dr. Engman, who wore a tuxedo and a pink Coker, Jr., and lastly came the bride, charming in a gown of white crepe with a corsage bouquet of pink roses of the valley and carrying orange blossoms. The bride was attended by Miss Edith Engman. The bride and groom took their places beneath a ball of Cecile Brunner roses, where Dr. Mills read the beautiful and impressive Episcopal ring service. At the conclusion of the ceremony and the informal reception that followed, an elegant nine-course dinner was served at

### A Great Special Sale of Beautiful Rockers, 20%, 25% and some as much as 33% Off!

—Handsome Patterns, large variety, all woods, all sizes!

This special sale embraces an assortment of several hundred high-quality rockers which we have been fortunate to secure at an unusually advantageous price concession, so that we are able to offer them to you at extra special savings in regular retail prices.

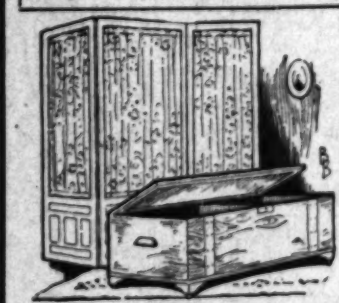

You will find in this vast assortment, handsome rockers in both mahogany and oak; some are covered in tapestry, others in real leather; some have cane panels. All so temptingly priced that you will want to buy one or two, or more, to complete the furnishings of your rooms.

Just a hint in this announcement of the kind and character, and the economical prices of the rockers in this event:

- \$22.00 English style mahogany rocker; cane seat and back; special at \$16**
- \$18.50 English Colonial style tapestry rocker; special at \$13.75**

- \$22 mahogany rocker; high, curved back; tapestry seat; special at \$15.00**
- \$24 Mission style rocker; fumed oak; Spanish leather cushions seat and back; at \$23**
- \$15.50 mahogany or golden oak finish rocker; cane back; tapestry seat; special at \$11.75**

**Rocker pictured on right; golden oak or mahogany finish; wood seat; now specially offered at only \$4.85**

#### Cedar Chests!

Every woman needs a cedar chest, and should have one or more in which to place treasured articles of apparel for perfect preservation. We have a large assortment of genuine cedar chests in natural red cedar finish, or in fumed oak and mahogany finish. These are substantially constructed, in many styles, and prices range from \$15 to \$35.

#### Screens!

We are showing a large variety of newly arrived screens suitable for any room in the home, or in the office; fumed oak, mahogany or white enamel—or other desired finish; three or four-fold; covered in burled leather or with wood panels. We also have empty frames which can be fitted with cretonnes, or other drapery material to match your interior furnishings. Prices range from \$2.50 to \$35.

- Postoria Colonial Glassware**  
—Popular Colonial shape; clear, brilliant glass; the kind that is serviceable as well as artistic; these special prices will interest you:
- |                                  |     |                   |     |

### Wouldn't You Like to Have a Range in Which You Could Cook by Gas, Coal or Wood, at Will?

The CHAMPION does this. It burns gas alone, or gas with coal or wood. It heats as well as cooks and bakes. Not a thing to move—stove always in same position—no changing of pipe or connections. It bakes to absolute perfection. Think of the convenience such a stove would prove in your kitchen. It heats your house in winter and keeps it cool in summer. Saves one-third in gas bills and gives TWO stoves in one.

The famous CHAMPION Interchangeable Range will be specially demonstrated in Barker Bros. windows all this week!

## SOCIETY SOCIETY

work of the day was interrupted by Mrs. H. C. Brown, who introduced the motif of the evening, "The Society of the Future." The evening was a shower of flowers, and the guests were treated to a most delicious dinner. The shower gifts were most valuable, and the guests were most generous in their contributions. The evening was a most successful one, and the guests were most pleased with the results.

The Church of God was the scene of a double wedding at noon today, when Rev. G. W. Johnson, officiating, united in marriage Miss Elizabeth Smith of this city and George Thacker of Los Angeles. The bride was given away by her father, Mr. Charles Moore of Whittier, and the groom was escorted by his best man, Mr. John L. A. Warner of Whittier. After the ceremony, a wedding breakfast was served at the home of the bride's parents.

About forty members of the man Military Club of Los Angeles, with wives and companions, surprised the members of the club at their home, Sunday, and presented them with a most valuable gift. The gift was a most valuable one, and the members of the club were most pleased with the results.

Mrs. A. D. Clark, of the number of guests, gave a most valuable gift to the club. The gift was a most valuable one, and the members of the club were most pleased with the results.

Mrs. A. D. Clark, of the number of guests, gave a most valuable gift to the club. The gift was a most valuable one, and the members of the club were most pleased with the results.

# 40th Anniversary sale continues—scores of Birthday gifts FREE

## 3000 bouquets of "Watsonias" FREE

THE glove department's Birthday gift will be a dainty handkerchief free with every pair of gloves.

(Watsonia Arden)  
—These very rare decorative flowers are from the botanical gardens of Newton B. Pierce (formerly of the U. S. Department of Agriculture, Santa Ana. Distribution on the fourth floor beginning at 10:30 a.m.

**Jacoby Bros.**  
331-335 So. BROADWAY

—Now we begin the second week of our great 40th Anniversary Sale—a sale in which we hope to win scores and scores of new friends—friends that will be friends when we celebrate another anniversary 40 years from now.  
—In addition to the many special values which we have made ready we have arranged to give a Birthday Gift away in nearly every department. A great many of them are listed here—look for them.

**S NAG PEARL** earrings with every purchase made in jewelry, leather goods, ribbon or let goods departments.

# The garment store's Birthday gift to you on Monday will be a regular \$5 separate skirt free with every suit

And even more important than this announcement of skirts being given away free is the announcement of—

An extraordinary purchase and Sale of new Spring suits at 'way 'way less than regular

**\$1750 \$2450**

—This is going to be a sale that few women will care to overlook—one that will make history in the suit world of the Pacific Coast.

Several of the most prominent garment manufacturers of New York sent these suits especially for this Anniversary Sale—the price concession which they made was their Birthday gift to us—their appreciation of the thousands of dollars worth of orders we have given them in the past.

—In Lot No. 1 at \$17.50 are 135 suits of poplins, serges, gabardines, shepherd checks and novelty weaves in tailored and fancy models. Note the three pictured at the left.

—In Lot No. 2 at \$24.50 are over 200 suits of black taffeta, of silk poplin, of gabardine, of wool poplin, and of fancy checks and novelties—Three of these are illustrated at the right.

—In both lots are nearly all wanted shades and in both, too, you will find a full range of sizes from misses' 16 years up to women's 50's.

—A great window display of them ready today—And remember, with every suit purchased Monday a regular \$5.00 separate skirt free!—3rd floor—Jacoby's.

THE waist department's Birthday gift will be a pretty lace-trimmed camisole free with every waist bought Monday at \$2.79 or over.

## Hour (9 to 11 o'clock) sales

—No phone orders on these—none sent C. O. D., and a limit to each customer.

**Huck towels 5c**  
18x26 in. huck towels with red or white borders—Limit of 6.

**Twill towel 5c**  
A splendid soft finished twill toweling 18 in. wide—Limit of 30 yards.

**Bed spreads, 69c**  
These are big double bed size spreads, neatly hemmed—Limit of 2.

**72x90 in. sheets 25c**  
Fully bleached sheets with neat center seam—Limit of 6.

## Old Dutch Cleanser at 5c can

Limit of 3 cans to a customer and sold only on a transfer with other purchases amounting to 50c or more—No phone orders.

Main floor—Jacoby's.

## Girls' wash dresses at 98c

—A pair of 25c stockings Free with every purchase of \$2.00 or more in the girls' store!  
They're all dresses that have been marked quite a little more than 98c—they're of gingham in neat stripes and plaids—made with long waist line and collars and cuffs of plain color—sizes 6 to 14.

Fourth floor—Jacoby's.

## Knit union suits at 42c

—With every six garments of any knit underwear bought Monday we'll give an extra garment Free!

Here's another very specially priced Anniversary item—they're made with low necks—no sleeves and with cuff knees—finished with a neat pique edging and wash tape—all sizes.

Main floor—Jacoby's.

# 257 hats have been reduced!

—The Millinery Chief says that he's going after a record Monday—and if we are to judge by the reductions he has taken he is bound to exceed even his fondest expectations.

—In this sale will be 87 hats reduced to \$3.35—103 reduced to \$6.65 and 67 reduced to \$9.25!—The reductions are close to half!

—And listen!—as a Birthday gift we will give a chiffon cloth motor veil free with every hat purchased Monday—

2nd floor—Jacoby's.

## 36-in. marquisette that is nearly all silk, 50c

Here's something new! **Blizzard voiles at 55c**

And, not only is it new, but it is quite the prettiest of any of the wash fabrics which have made their appearance this Spring and Summer. It is a very cleverly woven crepe voile with nub yarns running both ways thru it giving it a very delicate, lacy effect.  
It is a copy of a foreign weave which was brought into this country to sell at a great deal more than double 55c. It comes in white, and in several very delicate colorings. Other stores are showing this at a half more—quoting it as being worth double that price.

Balcony—Jacoby's.

## Scores of undermuslins at lessened prices

—and a dainty corset cover free with purchase of \$2.50 or more!

—In these three lots which we list below you'll find the very garments you'll need for your summer wardrobe and you'll find them priced much less than that you'd expect to pay—and then, too, with purchases of \$5.00 we'll give a dainty 50c corset cover free as our Birthday gift to you—

—at \$1.00

—are crepe gowns—corset covers—skirts—and princess slips all very prettily trimmed with exquisite lace or best embroidery—

—at \$1.50

—are princess slips—petticoats—combinations and gowns of sheer muslin with very tiny trimmings of lace and embroidery—

—at \$1.95

—are combinations with both open and closed drawers—gowns and petticoats of sheer muslin with the most delicate lace trimmings and medallions—

## My! But we were glad to get this second great lot of 36-in. chiffon taffetas to sell at 89c

The first lot which we put forward last Wednesday drew a record crowd of shoppers to the silk store and run the sales totals up to a new level.

This is a splendid taffeta—it is very, very soft with just a trace of the rustle that makes taffeta so different from ordinary silks—so well adapted to this season's styles.

These chiffon taffetas which we offer Monday at 89c come in ten shades of blue, sand, putty, brown, navy, Royal, Russian, myrtle, tan and Copenhagen.

Main floor—Jacoby's.

THE silk and dress goods departments' Birthday gift will be a pair of 50c silk stockings Free with purchases of \$5.00 or more.

## 71 in. damask at \$1.10

There are just six pieces of this splendid fully bleached table damask—it is full 71 inches wide and is a linen that usually sells for much more than \$1.10 a yard.

Anniversary sale of

## 50 inch cream serges 50c

This is of a good, heavy weight that usually sells for a great deal more than 50c. It will make up beautifully into suits and dresses—just 5 pieces of it to go into this sale at 50c a yard.

Anniversary sale of

## Satin Marseilles spreads \$1.79

These are genuine Marseilles spreads—satin finished. They're in double bed size and are crocheted in a number of different patterns, because they're slightly soiled, we reduced them, to \$1.79.

Anniversary sale of

## 20 in. mercerized napkins \$1

They're fine mercerized napkins in size 20x20 inches. There are five patterns to choose from—A quality that usually sells for a full half more than this Anniversary price.

Anniversary sale of

THE wash goods and linen departments' Birthday gift will be a 10c bar of Ivory Soap Free with every purchase of \$1.00 or more.

From 9 to 11 o'clock

## 36-inch percales at 5c a yard

It is not necessary for us to tell you how much underprice these are. Percales are as staple as wheat and to offer them at less than regular is like offering gold dollars at a discount. Let us only add here, that there's a good assortment of stripes, checks and figures on white grounds. Only 20 yards will be sold to a customer and no phone orders will be accepted.

Balcony—Jacoby's.

## 40 in. chiffon cloth Anniversary special 95c

Here's one of the most extraordinary items which we have ready for this 40th Anniversary sale of ours. It's a splendid quality of chiffon—the kind that is sold at a regular way at a great deal more. It comes in white and in all the popular Spring shades.

At 95c it should cause no end of a stir!

Main floor—Jacoby's.

## 40x54 in. chiffon motor veils Monday 79c

Ordinarily such veils as these, would sell at close to 75c. It's only because we made a very fortunate purchase that we're able to offer them in a wide range of colors at this price.

Main floor—Jacoby's.

## A STERLING silver thimble Free with every purchase of 50c or more in the embroidery or neckwear departments Monday.

Embroidered flouncings at 24c  
They're full 27 inches wide—some dainty baby flouncings, they come in a great range of patterns—embroidered with sheer organdies—there are also included a number of baby flouncings.

Main floor—Jacoby's.

## Linen torchon laces at 24c

There are included both edges and insertions in a variety of patterns—and think! they're priced right at 24c. Anniversary feature right now when you need them.

Main floor—Jacoby's.

## 36 in. shadow laces 50c

Laces that have sold in the regular way at double the price—Monday prices—they're in a variety of patterns—both white and cream—Monday 50c a yard.

Main floor—Jacoby's.

## Lace camisoling at 74c

These camisole laces have been marked nearly twice the Anniversary price—they're just the ones you'll want to wear with the sheer, soft blouses of Monday.

Main floor—Jacoby's.

## Neck-pieces, half and less

There are included collars, cuffs, vests and neckpieces, daintily finished with lace, ribbon and other trimmings—set in any number of distinctively different patterns.

Main floor—Jacoby's.

## 10-yard pieces genuine English longcloth at 9 to 10 o'clock

We have made no mistake—these 10-yard pieces of longcloth are to sell at 75c, but only two pieces will be sent to a customer and none will be sent C. O. D. or exchanged.

40 in. French

crepes 15c  
A fine, sheer fabric that comes in all white grounds with neat colored stripes—a material that would ordinarily sell for more than double this Monday price!

Anniversary sale of 81x90

hemstitched sheets 65c  
Good heavy sheets absolutely free from stains and blemishes, seamless, of course. You know how much they're worth.

Main floor—Jacoby's.

**any gifts FREE**  
of our great 40th Anniversary Sale—a week of scores of new friends—friends that will still remember the anniversary 40 years from now—  
**SNAG PEARL** earrings free with every purchase made in the jewelry, leather goods, ribbon or toilet goods departments.

**on Monday**  
**with every suit**

**40 in. chiffon cloth Anniversary special 95c**

Here's one of the most extraordinary items which we've made ready for this Fortieth Anniversary sale of ours. It's a splendid quality of chiffon—the kind that is sold at regular way at a great deal more. It comes in white and in all the popular spring shades. As it is, it should cause an end of it!

**40x54 in. chiffon motor veils Monday 79c**

Ordinarily such veils as these, would sell at close to \$1.00. It's only because we made a very fortunate purchase that we're able to offer them in a wide range of sizes at this price.

**A STERLING silver thimble Free with every purchase of 50c or more in the lace, embroidery or neckwear departments on Monday.**

**Embroidered flouncings at 29c**

They're full 27 inches wide—some daintily hemmed, some with a wide border of lace, some with a wide border of lace, some with a wide border of lace. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**Linen torchon laces at 24c**

There are included both edges and insertions in a great variety of patterns—and think! they're priced 24c a yard. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**36 in. shadow laces 50c**

Laces that have sold in the regular way at double and more than double this Monday price—they're in a great variety of patterns—both white and cream—Monday 50c a yard. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**Lace camisoling at 74c**

These delicate laces have been marked nearly four times the anniversary price—they're just the ones you'll want for your camisoles to wear with the sheer, soft blouses of summer. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**Neck-pieces, half and less, 29c**

There are included collars, cuffs, vests and dress neckties—sheer organdies, daintily finished with embroidered lace with lace—set in any number of distinctly different designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**10-yard pieces genuine English longcloth at 75c**

We have made no mistake—these 10-yard pieces of English longcloth are to sell at 75c, but only two pieces with a 9 to 10 o'clock pattern. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**40 in. French crepes 15c**

A fine, sheer fabric that comes in all white grounds with neat colored stripes—a material that would ordinarily sell for more than double this Monday price! They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**Anniversary sale of 81x90 inch hemstitched sheets 65c**

Good heavy sheets absolutely free from drawing, seamlines, of course. You know how much these sheets are worth. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs. They're all in a great variety of patterns and designs.

**SOCIETY.**

**Church.** Miss Lillian Van Vranken, who has been a member of the church for many years, was elected a member of the church. The church is a very active one and has many members. The church is a very active one and has many members. The church is a very active one and has many members.

**REGARDLESS** of the rain which Jupiter Pluvius was pelting Southern California on a recent Wednesday, the members of the Santa Ana Valley Elks Society, who were gathered at the home of Mrs. E. M. Nealey, for a social gathering, were not deterred. The gathering was a very successful one and was attended by many guests. The gathering was a very successful one and was attended by many guests.

**Made Under Supervision of The Nemo Hygienic Fashion Institute, New York**

**accession to his postoffice position, and his associates and himself and family made quite merry upon the occasion.**

**OSMARD.** The twentieth wedding anniversary of Mr. and Mrs. A. C. Lodwig was the occasion of a delightful social affair at their home, when church and club friends united in honoring them. A handsome china dinner set formed an appropriate souvenir of the evening. The evening was passed in cards, games, and supper. Out-of-town guests were Mrs. E. Phillips of Orem, and Mr. and Mrs. Widenhofer of Ventura.

**An old-time dancing party provided entertainment for a number of friends at the C. H. Conrad country home one evening this week, when quadrilles, polkas, schottisches, mazurkas and various dances were among the famous old favorites danced with a sprightly grace that caused many to contrast them with today's dances, unfavorably to the latter. The music for the occasion was rendered on violin and guitar.**

**A delicious supper was served after the dancing.**

**Miss Jessie Chamberlain entertained a number of young friends at a dancing party at the home of her parents, Mr. and Mrs. John Chamberlain, Friday night. The house decorations were in red and green, and the evening's pleasures were augmented with light refreshments. Twenty guests were present.**

**The George J. Austin home was the scene of a pleasant dancing party Saturday evening, when Miss Vela Pratt and Oswald Austin entertained twenty-six of the younger set. Invitations have been issued by Carl Heller, Ben Schmitts and David Joseph, high school seniors, to a tennis supper dancing party to be held May 17. The affair promises to be one of the principal social events of the spring season among the young people of this vicinity.**

**Mr. and Mrs. D. J. Kehr gave a party at their Huemane Beach home Saturday evening, for their son, Duron, who is home on a vacation from his studies. Dancing, cards and music occupied the evening. The Kehr home was daintily decorated with spring flowers.**

**Mrs. F. H. Kapp entertained Wednesday in honor of little Miss Dorothy Liebenbach, whose birthday**

# 60 More Pieces of Corduroy, Monday, at 55c Yard

—Remember the refreshing breezes and  
the cool, invigorating fogs that sweep  
down Market street—

**and Before You Go**

—to the Panama-Pacific  
Exposition at San Francisco—

—Prepare with plenty of warmer clothing (Coats, Under-  
wear, Hosiery, Footwear, Veils, Gloves, etc.)

—Let Bullock's Bureau of Personal Service help you with  
your Exposition planning—

—25 Pieces "Ivory"; 7 Pieces "Sand"; 7 Pieces  
"Light Gray"; 5 Pieces "Copenhagen"; 5 Pieces  
"Old Rose"; 5 Pieces "Navy"; 3 Pieces "Orange";  
3 Pieces "Light Blue"—

—Of some shades there are more than others—

—We have a very vivid recollection of the throng that stormed the counters for  
the last great offering (two weeks ago). Perhaps you were here. Perhaps  
you were late.

—How we did wish for more—but wishing and wishing didn't bring this second  
shipment until just in time for this announcement.

—60 pieces 32-inch Corduroy—a splendid cord—washable—at the time of  
greatest corduroy demand—Monday—55c yard. No Phone or Mail Orders.  
No C.O.D.'s—Bullock's, 2nd floor.

## 3500 Yards Cottons 15c Yard

—A special May value—Staple and fancy weaves—Just those ever so many  
women want—A collection of weaves and colors and patterns—just delightful,  
short lines—maybe 8 or 5 pieces of a kind—

—3500 yards—and the assortment includes—

Imported Scotch Ginghams—

Embroidered Colored Crepe—

Plain and Figured New Cloth—

Plain Colored Ratine—

Striped and Checked Tissue—

Floral Windsor Costume Crepe—

Renfrew Devonshire Cloth—

Renfrew Fancy Crepe—

Silk Mixed Floral Crepe—

Satin Striped Poplin—

—All at 15c—a really remarkable collection for a most attractive feature,  
Monday, at 15c yard.

## 40 to 45 Inch French Ratine 25c Yard

—Think of it! French Ratine! An Exclusive Imported French Dress Cotton at 25c Yard.

—If Fashion had said "Ratines for Summer"—with the fervor with which she did say it last Summer—comparative  
prices of many times 25c would not exaggerate this offering.

—As it is these Ratines, in wanted solid colors and in check and plaid  
patterns that are strikingly different, should sell so rapidly that every  
yard should go on Monday—

—Don't fail to get your share—Just a few hundred yards on Monday at 25c yd.—2nd floor.

—3600 yards of Exposition Voile at 35c; and 2200 yards Grenadine Stripes  
Voile at 35c. Two beautiful features in the Cotton Goods Store, and floor.

2000 yards of 40-inch White Chiffon Voile at 20c 1500 yards of White 36-inch Egyptian Nainsook 15c 100 Boxes of Nainsook 38-inch Snow White at \$1.95

## A 36 Inch Wide White Cotton Pique at 50c Yard

## 1800 Yards of Fine Laces at \$2.00 Yard

—Including Oriental and Fancy Net top laces 18 to 45 inches wide—novelty colored flouncings 18 to 45  
inches wide; some Gold and Silver thread laces; even allover 18 inches wide.

—A very special opportunity that should arouse the enthusi-  
asm of every one who is planning dressmaking—and of every  
one who anticipates dressmaking in the not too distant future—

—Women will recognize the merit of these values soon as they see them. 18 to 45 inch Oriental and Fancy Net Top Laces  
in white, cream, ecru and two-tone effects—Some of plain net—Others of silk and fancy nets—Richly embroidered patterns  
and conventional designs—some with openwork Venice in Combination.

—Novelty colored flouncings 18 to 24 inch, richly worked of silk and tinsel thread—Gold and silver and handsome Rayon  
laces—Even some Oriental and Venice allover included—\$2.00 yard.

## 110 Dozen 22-in. Linen Napkins \$3.00 Dozen

—All linen napkins—22-inch size—Grass bleached satin Damask Napkins in very attractive Floral patterns—  
A feature offering in the Linen Store on Monday—\$3.00 dozen—2nd floor.

—Then there will be 70 inch Round Scalloped Table Cloths at \$2.95—All linen—Beautifully scalloped all around—  
circular patterns—

—Odd Pattern Cloths, 72x72 in., 72x90 in. and 72x108 in. at \$4.50, \$5.50, \$6.50, respectively, all of them ever so much  
under worth—

### Big Linen Huck Towels

at 25c—Fine Quality

—With hemstitched ends—some with Jacquard, others with  
Satin and Grecian borders—25c.  
Heavy Scalloped Bath Towels, 22x46 in. at 35c each.

### And That Splendid Shrunken

Dress Linen at 65c Yard

—Shrunken from 45 to 36 inches—a heavy, soft weave  
does not crease or shrink—in the season's best solid colors—  
36 inches wide at 65c yard. The Linen Store—2nd Floor.

—If in need of Glassware, Dinnerware, or House Furnishings—Then visit Bullock's 5th Floor, on Monday.

## Cunning Dresses for Wee Girls

—Made-up dresses for the little girls of one to eight, at 65c  
—finished except for the embroidering—The cunningest  
dresses of poplin, the upper part of white and the lower part  
of dress and the cuffs of pink poplin—or the skirt and cuffs  
of blue poplin—and

—you can embroider love and individuality into them—

—Scalloped neck and sleeves and scalloped slashes for the patent  
leather belt—very pretty designs all ready for the working—price  
of the dress, 65c.

### Made-up Rompers at 25c

—for one to four years—made-up  
rompers to be embroidered—some  
of white, tan, blue and pink—fin-  
ished with elastic at knees—just  
need embroidering and buttons and  
bottom holes—25c Monday.

### Package Goods in Variety

—a very complete line of Pique  
Hats for boys and girls, dainty  
Summer dresses, rompers, under-  
wear and for the little woman, the  
prettiest pink and blue crepe  
gowns, made ready for the em-  
broidering—See them, Monday.

New and Splendid, this Fillet Embroidered

## Pillow Top of Mercerized Repp 35c

—perfectly stunning as you will agree when you see the worked  
one on exhibition in this Bullock Art Section—Any color scheme  
may be carried out—The designs are outlined and the work seems  
to fairly fly when you use this Fillet Ribbon for embroidering—

—Free Instructions are given with any needlework pur-  
chased in the Bullock Art Section—

Ask to see the Crochet Basket of New Fiber Silk—just an-  
other of the good things—the new things—that are in this  
section on the Second Floor.

## Boys and Parents Will Like These Shepherd Check Suits \$5

—New English Models with stitched-on or  
detachable belts—knife or inverted pleats—  
Suits such as boys like for the up-to-dateness  
of the styles and the lines that boys are just  
as quick to note and comment upon as are the  
grown-ups—

—Suits that parents will like for their betterness—  
for the quality of material, the moirai  
lining—the close fitting collars—shape  
retaining fronts—and the general char-  
acter of the workmanship and finishing  
throughout—

—Pants are cut full peg top and are  
fully lined—2-button adjustable  
knee straps—\$5.00.

—Other suits at \$7.50, \$8.50,  
\$10.00, \$12.50—

—In the Store for Your Boy—  
on the Fourth Floor.

## White Decorating China

—Many of this year's June Brides will have China that  
they, themselves, have painted—individual, personal,  
their very own—

—Bullock's has just received a new shipment of White China—the  
favorite shapes of nearly all china painters—and this shipment has  
proved of great interest to many in-the-future brides—The classes are  
working busily under the instruction of that able teacher, Mrs. May-  
belle Bevans, who has a few more openings in her classes—

—The first 6 lessons without charge if painting outfit is purchased on  
the Fifth Floor.

Dresser Sets at \$1.50

—Comb and brush tray, pin tray,  
hat pin holder, puff box and hair  
receiver, \$1.50 the set.

—Fifth Floor.

Sugar and Creamer 50c pair.  
Comb and Brush Tray 40c.  
Hat Pin Holders 25c.  
Puff Boxes at 25c.  
Hair Receivers at 25c.  
Salt Dips at 10c each.  
Tea Cups and Saucers 25c pair.

## A Mattress at \$7.85

—A Mattress without tufts—a wonder at a wonderfully low  
price—Made of pure cotton felt—built in layers and placed  
in the ticking in separate compartments—making a very  
extraordinary mattress at the price of an ordinary one—  
\$7.85. Seventh Floor.

## Selecting Curtains and Draperies

—It's a real pleasure at Bullock's because—

—Bullock's stocks are so big and complete and attractive—the price range is so great  
and the variety of patterns at the different prices so extensive that you should find just  
what you want at the price you want to pay—

—There are suggestions ad infinitum and salesfolk who are experts—who really know draperies and curtains—  
here to aid you—not merely to sell the goods but to give you ideas and suggestions that will help you with your  
drapery and curtain problem—Let them help you—

### Curtains \$1.25

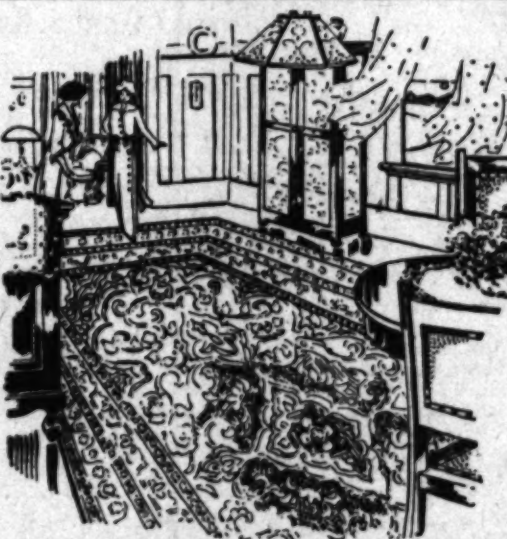

—Hemstitched marquisette curtains  
that are 36 inches wide and 2 1/2  
yards long in either the white or  
Arabian color—splendid at \$1.25  
pair.

### Curtains at \$2.95

—2 1/2-yard imported curtains that  
are 42 inches wide—trimmed with  
edging and insertion of real elu-  
very special values, \$2.95.  
Sixth Floor

### Curtains at \$3.50

—White or Arabian slit curtains  
that are 45 inches wide and 3 1/2  
yards long—plain or figured centers;  
laundry splendidly.

Now—buy the Rugs you need or want—

## 9x12 Axminster Rugs

—Just 25 Rugs that are features at this Monday price, \$18.00—  
ship and character that should arouse your enthusiasm even if you  
much more—They are usually sold at — but never mind that—

—See the Rugs, Monday—Thick, high pile Axminsters in a range  
is truly remarkable—Both the 8.8x10.6 and the 9x12 at \$18.00—  
—A limit to purchases—And no phone orders will be accepted—

### 8.8x10.6 Seamless Brussels Rugs \$10.95

—Good quality rugs in a very desirable range  
of colors and patterns—Rugs suitable for the  
living room, bed room or dining room—and at  
\$10.95 the price seems almost ridiculous for  
floor covering for a whole room—  
—Just a limited number—Monday—\$10.95.  
Sixth Floor.

### 9x12 ft. Seamless

—Fine quality rugs in a  
line of colors and patterns  
and the same low price—  
—\$12.50.

## Suits \$7.95—Dresses \$7.95—Coats \$7.95

—\$7.95—A price to conjure with—Monday—in the Basement Store—for it seems as though some magic had been used in  
securing these values to sell at \$7.95—Imagine getting Suits that embody the late style ideas at the beginning of their wear-  
ing season for \$7.95—silk dresses of quality and style that you may wear with the assurance that you are well gowned—that  
no fault can be found with the quality of material or trimming and that the dress itself is well made throughout—wonderful  
values at \$7.95—and Coats that you never in the world would believe could be bought for \$7.95—Monday should be a day of  
intense interest for we doubt if ever more real value was offered for \$7.95—Visit the Basement Store—Monday—

### Silk Dresses at \$7.95 New Style Coats \$7.95 Jaunty Suits at \$7.95

—These dresses are not the usual \$7.95 dress-  
es, instead they are dresses that were made  
to sell for ever so much more than \$7.95—  
Special values for women of Los Angeles to  
share, Monday, at \$7.95.  
—Dresses of crepe de china, soft taffeta and  
mesalline—the style range is almost as varied  
as there are dresses and includes the coolest,  
vest, bolero and raised waist line—long or  
three-quarter sleeves—Circular and pleated  
skirts—  
—The colors are especially good and include  
tan, petty, gray, black, blue, brown, green and  
the popular check silks—A good size range—  
at \$7.95—Monday.

—the late style coats of covert, mixtures, serge  
and checks, a splendid color range, including blue,  
black, red, green, tan and the check effects—  
Coats made with patch pockets, fancy cuffs and  
collars—plain and empire backs—Coats of ma-  
terials and with a style that usually accompan-  
ies price tickets that call for ever so much  
more than \$7.95.

—See the windows on 7th Street today,  
showing many Basement Store values.

—Suits with the sauciest flare to the skirts and  
coats with the new high belted effect—good  
quality serge and cords that Fashion has so  
highly approved for this Summer of 1915—  
—Suits of black, blue, brown, gray, green and  
the black and white—Shepherd checks—dif-  
ferent style coats in the correct length—the plain,  
semi-tailored and the modified Norfolk—many  
with the raised waist line—Coats lined with  
good quality mesalline—And the size range  
includes suits for the girl of 14 to the woman  
who requires a 42—\$7.95.

## 1000 Yards of Staple Wash Weaves at 5c Yard

—Odd pieces and short ends to Bullock's—usable lengths at a great saving to you—  
26-inch Plaid Suitings 27-in. Indigo Check Ginghams 26-in. Floral Crepes 27-in. Dress Ginghams  
at 5c yard at 5c yard at 5c yard at 5c yard  
—and other staple weaves in waist and dress patterns—Materials that every one knows and likes, 5c yd.—Monday.

## Monday, Summer Wash Weaves 9c Yd.

—quality and texture that you will find it hard to equal at the price—A clean-up of short lines—  
40-inch Floral Voiles at 9c yard 26-inch Semi-Silk Brocades at 9c yard 36-inch Printed Percale at 9c yard  
38-inch Printed Crepes at 9c yard 27 and 36-inch Ratine Suiting 9c yard 36-inch French Madras at 9c yard  
—Don't try to imagine the quality—for the price falls far short of the real value of these Wash Materials—Monday—in the  
Basement Store.

### Men's Underwear 15c to 55c

—Men and those who buy for men will realize great savings in these  
odd lots of garments—Shirts and drawers in heavy ribbed garments  
—Mesh shirts and drawers, Summer styles in large sizes—  
—Athletic garments of good quality Nainsook, Flannelette and Muslin Night  
Shirts that have become soiled from display—15c to 55c—Shop early.

### Men's Work Shirts at 25c

—about 3 dozen work shirts in small sizes—slightly imperfect—but wonderful  
values that the men who can wear small sizes will do well to share—Monday  
—at 25c each.

### Women's Union Suits at 50c

—low neck, sleeveless, lace trimmed union suits of fine, soft lisle—the well  
fitted, three-piece style, neatly finished and trimmed at knees with strong lace  
—size 34 to 44, 50c suit.  
—Union Suits at 50c—extra quality fine  
ribbed cotton suits—regular and  
cut sizes—50c suit.

### 500 Bolts Val. Lace at 35c

—Insertions, edgings and beading tops in both the fine and  
heavy patterns now in urgent demand for trimming women's  
and children's dresses and underwear.  
—35c a bolt of 12 yards—Not an unusual price for Val. laces, no—  
but an almost unheard-of price for laces of the quality concerned in  
this offering for Monday.

### Women's Cotton Stockings 10c

—seamless cotton stockings with double toes, heels and double  
hem tops—Perfect Stockings of a well known make—a special  
purchase that includes some in the mercerized finish—Monday—  
while they last, 10c pair.

### Sale Odd Lots Women's and Children's Knit Underwear, 10c to 50c

—an accumulation of odd lots in heavy and light weight vests, pants and  
union suits that have been marked at prices that should take them hurrying  
—Monday.  
—Not every size included—a wonderful lot of values—marked from 10c  
to 50c garment.

### Great Hand Bag Values at \$1

—a special purchase marked just as special—Bags of goatskin, pin Persian  
leathers with silk linings—nickel, gold, gunmetal or leather covered frames.  
—Some bags fitted with gold plated or gunmetal fittings—Splendid values  
at \$1.00.

### Sale Sample Parasols \$1.95

—some have tiny imperfections in the weave that do not materially damage  
the parasols.  
—Parasols of mesalline and of taffeta in plain colors or with fancy border  
effects—then there are striped and checked effects that are so popular.  
—Others of flowered silk—8 and 10 ribbed frames with plain or neatly  
carved handles, \$1.95 each—Monday

—The headline tells the materials that are concerned in this sale of sales,  
Monday, in the Basement Store—but it does not tell the QUALITY of  
the materials—

—Imagine fine chiffon, tucked the full width  
with 1/4-inch tucks and measuring 19 inches wide  
after being tucked, selling for 19c yard—  
—Net, and a good quality net, 7 clusters of  
quarter-inch tucks with 6 rows of lace insertion  
—20 1/2 inches wide, 19c yard.  
—Perhaps even a little finer net with 6 groups  
of tucks, 5 tucks to the group and 5 rows of the  
daintiest colored insertion—22 inches wide,  
19c yard.

—Beautiful, fine Batiste, tucked with sixteenth  
inch tucks and even then measuring 22 inches,  
19c yard—Fine for setting into dresses for chil-  
dren, 19c yard.

—28-inch fine, soft lawn with 5 groups of 7  
tucks each and 6 rows of embroidery, 19c yard.  
—Wonderfully fine white lawn with groups of  
dainty tucks separated by rows of good Val-  
full 22 inches wide—19c yard.

—And these are just a few of the many pieces that will be on sale—Monday  
—at 19c yard—See the window on 7th St., today, plan to be in the Store  
early Monday, if you would share these wonderful values, 19c yard.

## 1200 Rompers—Big Values—49c

—Children's Rompers and Creepers of gingham, chambray and kinder-  
garten cloth—Garments that will bear the closest inspection, so carefull-  
ly made are they—

—Many different styles and colors a few of which are told here—some have round  
collars and the straight legs, neat belts and pockets—Some of white poplin—  
a neat spray of embroidery on the yoke—bloomer legs, finished with belts and  
pockets—some have the wide belts—others narrow, some have wide buckles—49c  
each.

—Narrow creepers with short sleeves and square necks—49c each.  
—Rompers and creepers that mothers will buy with the assurance that they may be safely  
washed—wonderful values for the little folk of 1 to 6 years, 49c each.

## Silk and Semi-Silk Waists at \$1.25

—Tailored and sport styles of striped, block checked, dotted, conventional and floral designed  
silks and semi-silks—Waists with tailored collars and with low collars, tub waists that do wash  
perfectly—Waists that will look well with the tailored suit or the separate skirt, \$1.25.

## Curtain Materials, Draperies 9c yd.

—A clean-up of short lines of 36-inch materials that in full stocks have sold for—  
but never mind—you will know the regular price the minute you see and examine  
them, Monday—

—There are Voiles, Scrims, Marquises, Swisses, Bungalow Nets, Silkolines and Cretonnes

ankle or knee length drawers—39c garment.

### Athletic Garments 25c

—made of good quality cross-barred nain-  
sook, cut full, double stitched—shirts and  
drawers at 25c each.

### Boys' Poros Knit 19c

—shirts and drawers—seconds of a higher  
priced grade—size 24 to 34—shirts and  
drawers at 19c each.

## Drawers at 15c

—Women's open and closed styles made of  
strong muslin and trimmed with plain hem-  
stitched ruffle. Sizes 23, 25 and 27, at 15c.  
—Extra Size Drawers of same style and muslin  
in lengths 23, 25 and 27, at 25c each. Excel-  
lent values for so little money.

## Petticoats at 25c

—A great pile of gingham petticoats has just  
been placed on sale in the Basement Store at  
25c—It's a good gingham in blue and gray  
stripe effect and the flounces are finished with  
scalloped edging—just the value for wear with  
work dresses, 25c each.

# WHOTAYS?

Story No. 4  
The Love Liars  
By EDWIN BLISS

Copyright, 1915, by Fatho Exchange, Inc. All moving picture rights and all foreign rights strictly reserved.

(Continued from yesterday.)

Mrs. Presley took the note from the outstretched hand. It was brief, curtly brief and arrogant, the note of the suicide broker who seemed to think his stonement made by the mere snuffing out of his own existence. Everything the girl possessed wiped out by the smash of the Titan Ship Company!

Mrs. Presley started violently as a sudden thought came to her, making her crush the fatal note tightly in her hand. She knew Selma Ashton, knew her from long, careful study, knew her every mood and whim. She knew the demands of that luxurious nature had been pandered to from birth, that her necessities were the superlatives of luxury and self-indulgence to the majority of people. She knew that self-denial was a thing unknown to the girl, a thing she would not understand. But she also knew the warm, human, throbbing undertone in Selma Ashton's nature which, some day, would rise up and claim the best in her.

The door bell pealed and she

her hurt. "You mean—that—" Her voice trembled, broke completely, as she found herself unable to voice the remainder of her sentence.

The companion turned away. Then, as by an afterthought she approached the table and spread out the suicide note upon the table, folding it carefully after she had smoothed out the wrinkles that had come from the crushing it had received.

There is no poison more subtle nor effective than self-indulgence. Like a narcotic it grips the moral senses and submerges completely every feeling of obligation. But, as with all drugs, there are moments when the effect is bound to wear off and then all the spectral horrors that gaze and grin at the addict have their hour.

Times there were when this hour visited Selma, driving her into deceptions for which she hated herself but which caused an intense, unrequited longing to the within against the price she had paid where—by to drug herself. Not long would she endure the horrors of these

The bride almost faints when asked to drink her husband's health.

started violently. Her eyes fastened appealingly, half afraid, upon the girl. But Selma Ashton did not see her, immersed in her own thoughts. At the sound of the bell her shoulders had straightened. A curious smile played about the corners of her lips—though the tightness of those lips did not relax nor did that smile soften the acute of her eyes, gleaming now with the light of one making a resolve.

She turned slowly toward the door, half rising as the butler announced David Dwight. Her eyes met those of her companion, and there was a defiant expression in them, defiant yet triumphant. A nod of the head, sharp, decisive, displaced the woman who started to protest against the sacrifice she could see the girl had determined to make. Then she slowly left the room, left it even as the halting steps of the falling millionaire took him forward.

From the adjoining room she could hear the low murmur of their voices. Not curiously so much as a great, green-swept desire to cleanse the world from the payment of so great a price was what drew her toward the portiere.

David Dwight had not gained his millions through procreation. He had come down to the point of the And yet there was something splendid about him that made the older woman's heart go out to him. She pressed a little cry of pain as she caught the tremor that all unconsciously crept into his voice.

"I do not want you to marry me, Selma, unless you love me. I want you more than anything in the world—but not that much. Not without love, Selma, for I—I know what love means—now."

Mrs. Presley caught the smile upon the girl's face as her eyes traveled about the luxuriously furnished room with a significance that caused even the millionaire to laugh. Then the companion turned her head away, disgust mingled with shame at the performance of this girl, this inexperienced girl who, in a moment, seemed to have taken from some secret, formerly unopened casket in her soul, all the arts and silent lies of a scheming woman.

Came a scuffle at the door, following the bell. She could hear the butler's voice raised in protest against some intrusion, then the awkward scraping of feet immediately preceding an intruder's rush toward the room where the pair were. Mrs. Presley peered through the portiere curiously. The newcomer was very young and very breathless and very disheveled from his encounter with the butler, who was hurriedly pursuing his hand outside as though he were grasping the intruder by the arm. Dwight rose angrily.

"Mirror reporter, Miss Ashton! Charles Lead is a suicide after misappropriating your fortune to prop up the Titan Ship Company. Anything to say—"

With superb art, the girl half rose from the divan. She reached out her hands as though to support herself, then sank gently back, staring incredulously at the reporter. The butler had his hand upon the fellow's shoulder and David Wright seized the other, hustling him toward the door. She heard the slam of it, the protest of the indignant reporter, thus summarily evicted.

Mrs. Presley could not forego a final glance. Selma Ashton was smiling but the smile died away as, palting his waistcoat which had become disarranged in the struggle, Dwight re-entered the room and stood looking down at her. The companion, who saw the workings of his face, could see the inquiry there. Selma did not look up at him but stared slowly, very slowly, before her, hopeless despair upon her face. The millionaire rested his hand upon her shoulder, his eyes very light. It matched the tenderness upon his face.

wakenings. The subtle poison had already made her moral fiber too weak for this. She could count upon her fingers the hours of actual agonized remorse she had endured.

There was that terrible time when David Dwight asked her to drink to their future happiness. Clear as a deep-frozen bell, two words only of the marriage ritual dined at her ears, throbbing at her stupefied brain. Until death—until death—until death—

She had closed her eyes tightly, trying in that manner to shut out the horrid sound. Fainter and fainter they grew, leaving the little whisper of an echo with her. Still she strained, despite herself, to catch what that whisper was, though she, better than anyone, knew that it was death—until death—until death—

CONTINUED TOMORROW.

## SCIENCE, PROGRESS.

Nature's from the Air.

In a paper before the British Society of Chemical Industry, Mr. E. K. Kilburn Scott remarked that the war has emphasized the importance of starting in Great Britain the manufacture of nitrates from the atmosphere by electric power, and described a new type of furnace he had designed with three electrodes attached to insulators, spaced 120 degrees apart. Essentially a three-phase furnace using the electric energy exactly as generated, it gives three flames within one furnace wall, and also for a given period of supply three or many arcs in a given time as would be the case with single-phase. The three phases give a continuous arc of constant shape, which is hotter than if the same energy were expended in three separate furnaces, because the latter have only a single flat flame, and the radiation losses are much greater. The greater space between the electrodes also enables more air to come into contact with it. As compared with three single-phase furnaces, the maintenance cost are all lower. The space which is also a considerable saving with six for three single-phase furnaces, and this considerably simplifies the electrical and piping connections and the renewal of electrodes. Three arcs together help to maintain each other, because current is always flowing in one or other of the phases.

[Pittsburgh Dispatch] Dr. Frederick Prosser and Harvey Sell of the Radiology Research Laboratory at Pittsburgh have started for the European battlefields to apply to war victims new treatments worked out in years of arduous labor and study in their chemical and biological laboratories.

Having discovered new chemicals that have been absolutely successful in test tube experiments and in experiments on animals for the treatment of protozoic diseases, dysentery, cholera and smallpox, which are the most terrible of the afflictions that have befallen the occupants of European war camps and prisons, Dr. Prosser and Sell will try the new chemicals upon the victims of those diseases.

"As we can say is that we hope our experiments on human beings will be as successful as they have been in the test tube and animal," said Dr. Prosser recently. "There are about 870,000 Russian soldiers in the prisons of Austria and Germany. Among the Russians, especially, the cause of their death and their modes of living, typhus fever is raising particular havoc. It is a disease that is dying by the thousands. If we can hit upon the remedy, our discovery not only will be of immediate great value but will be of everlasting value to mankind. Typhus fever should not be confused with typhoid fever. They are different. The former is far the worse and practically nothing is known of it. Although practically everything of scientific value is known of typhoid fever, typhus fever is extremely rare in times of war. It is well known to the general public. It is no use detailing the new treatment because it may prove a disappointment."

SURVEY OF THE BROAD FIELD

XXIV<sup>TH</sup> YEAR.

Modern and Imposing Educational Group to Look Down from North Los Angeles Acropolis.

First published perspective of new Franklin High School, work on which is to be begun this month.

Three classic structures pictured in the drawing, that at the left is the Science Hall and that in the center the main building. These and a separate plant will be erected at the present time. At the right is shown the future Administration building. Elmore R. Jeffery and Frank R. Schaefer are the architects.

## GLENDEL HIGH SCHOOL FOR NORTH END SITE.

Model Scholastic Group to Crown Eminence at Avenue Fifty-four and Irvington Place—Plans Completed and Work to be Started at Once on the First Three Buildings.

A commanding elevation in the heart of the Highland Park district, the city of Los Angeles, within the present month the largest and finest of the modern public schools provided by the voters last fall, will be known as the new high school and will be one of the scholastic groups of its character to be built in various sections of the city.

At the present time there is to be built a large main building, a science hall and a boiler-house. Later an administration building, an auditorium, a shop building and a gymnasium are to be added. The architects have carefully considered the requirements for these additional buildings and have planned the group as a whole. In the perspective picture reproduced on this page of The Times are shown the main building and science hall, together with the future administration building. It is planned to build the auditorium on a knoll to the rear of and above the main group.

The buildings throughout will be of classic design and characterized by simplicity and dignity. The ground floors will all be of reinforced concrete construction and will be set slightly below the level of the surrounding terraces. The main and second stories will have brick walls and concrete floors, stairs and corridors. All exterior surfaces will be faced with cement plaster and trimmed with artificial stone. The two large buildings to be erected at this time will be connected by a concrete corridor.

The main building, with its massive stone columns, will present an imposing front. The structure will be 200 feet long and 100 feet in depth. The manual training work of the school, including the shops, the study department and the drawing and tracing-rooms, will for the present be housed on the ground floor of this building. Provision is made on the two upper floors for thirty classrooms. The roof will be utilized for an open-air study-room and for departments of music and oral expression. One of the attractive features of the main building will be its handsome marble entrance vestibule.

The ground floor of the science building will contain a cafeteria, with a seating capacity of 600. On the main floor will be the domestic science department. The upper floor will be given over to physics and chemistry work and to laboratory space.

The boiler-house will stand to the rear of the science building and will contain the heating equipment of the school. The architects have made a careful study of the requirements for both heating and ventilation and have designed an unusually complete system.

The terracing of the grounds of the school, together with the future administration building. It is planned to build the auditorium on a knoll to the rear of and above the main group.

Provision is made on the two upper floors for thirty classrooms. The roof will be utilized for an open-air study-room and for departments of music and oral expression. One of the attractive features of the main building will be its handsome marble entrance vestibule.

The ground floor of the science building will contain a cafeteria, with a seating capacity of 600. On the main floor will be the domestic science department. The upper floor will be given over to physics and chemistry work and to laboratory space.

The boiler-house will stand to the rear of the science building and will contain the heating equipment of the school. The architects have made a careful study of the requirements for both heating and ventilation and have designed an unusually complete system.

The terracing of the grounds of the school, together with the future administration building. It is planned to build the auditorium on a knoll to the rear of and above the main group.

## GLENDEL HIGH SCHOOL FOR NORTH END SITE.

Model Scholastic Group to Crown Eminence at Avenue Fifty-four and Irvington Place—Plans Completed and Work to be Started at Once on the First Three Buildings.

A commanding elevation in the heart of the Highland Park district, the city of Los Angeles, within the present month the largest and finest of the modern public schools provided by the voters last fall, will be known as the new high school and will be one of the scholastic groups of its character to be built in various sections of the city.

At the present time there is to be built a large main building, a science hall and a boiler-house. Later an administration building, an auditorium, a shop building and a gymnasium are to be added. The architects have carefully considered the requirements for these additional buildings and have planned the group as a whole. In the perspective picture reproduced on this page of The Times are shown the main building and science hall, together with the future administration building. It is planned to build the auditorium on a knoll to the rear of and above the main group.

The buildings throughout will be of classic design and characterized by simplicity and dignity. The ground floors will all be of reinforced concrete construction and will be set slightly below the level of the surrounding terraces. The main and second stories will have brick walls and concrete floors, stairs and corridors. All exterior surfaces will be faced with cement plaster and trimmed with artificial stone. The two large buildings to be erected at this time will be connected by a concrete corridor.

The main building, with its massive stone columns, will present an imposing front. The structure will be 200 feet long and 100 feet in depth. The manual training work of the school, including the shops, the study department and the drawing and tracing-rooms, will for the present be housed on the ground floor of this building. Provision is made on the two upper floors for thirty classrooms. The roof will be utilized for an open-air study-room and for departments of music and oral expression. ## BANK OF ITALY IN NEW HOME.

TO OPEN AT BROADWAY AND SEVENTH TOMORROW.

Public Reception of Yesterday Afternoon Attended by Host of Depositors and Friends—Many Prominent Persons on Hand to Extend Congratulations.

The palatial new home of the Bank of Italy, at Seventh and Broadway, was formally opened yesterday for inspection by the public. More than 10,000 persons are estimated to have visited the new banking quarters, which are among the handsomest and best equipped in Los Angeles. Business will be transacted in the rooms tomorrow.

The interior was decorated with many beautiful floral offerings sent from other banks of the city. Many leading bankers and officials called and congratulated the officers on their new quarters and the growth and success of the Bank of Italy. Hundreds of depositors also inspected the bank and congratulated the management.

Coincident with the opening of the new rooms, the management has established a branch office, to be known as the Plaza Branch of the Bank of Italy, at No. 220 North Spring street. This new addition to the institution will serve its patrons who do business and reside in the northern part of the city. Joseph Paglianno will be in charge of this branch.

The new building was erected five years ago by the Co-Tenant Company, which held a fifty-year ground lease from Flora Howes Farwell and Clara F. Howes, owners of the site. The structure was planned by the architectural firm of Dennis & Farwell and was designed with foundations of sufficient strength to permit of the addition of six extra stories.

The ground lease of the property was transferred by the Co-Tenant Company about a year ago to the San Joaquin Valley Land Company, of which J. E. Blenkiron of San Francisco is president. When questioned yesterday concerning a rumor that he and Mr. Blenkiron had entered into an agreement by which the building would reach its intended skyscraper proportions Mr. Baker declared that he had no announcement to make at this time. The building, if completed as originally planned, will be the largest business structure occupying an inside site in downtown Los Angeles.

Mr. Baker has been in business in Los Angeles for fifteen years, having started out with a small store at No. 259 South Spring street. He now has a chain of eleven large stores, five in Los Angeles, three in San Francisco and three in Portland. As a result of the big deal just closed the Iowa building is hereafter to be known as the C. H. Baker building.

Representatives of Realty Board to Accompany Excursion to Antelope Valley.

Plans for an excursion to Antelope Valley under the auspices of the Antelope Valley Improvement Association have been completed and promise has been given that a considerable number will make the trip. The excursion will leave here next Friday morning, returning Sunday afternoon.

Among those who will participate will be a committee of six real estate operators to be appointed by President Miles of the Realty Board. This organization has taken a keen interest in the affair and will devote its discussion at the regular board dinner next Thursday to Antelope Valley.

Harry Lee Martin has been chosen to preside as chairman of the meeting. Mr. Martin is a member of the Realty Board and vice-president of the Antelope Valley Improvement Association. Several speakers will tell the story of Antelope Valley, giving its history, what improvements have been made there, those that are contemplated, its agricultural development and its possibilities.

The improvement association has arranged for transportation and the board and keep of the excursionists. The expedition will leave No. 631 South Spring street at 8 o'clock Friday morning.

Iowa building, Broadway near Seventh, Lease on which was purchased by C. H. Baker for large cash consideration during past week, Metcalf & Ryan acted as brokers.

office. Still another branch of the bank is located at Pico and El Molino streets.

Wonderful progress has been shown by the Bank of Italy since its organization in San Francisco in 1904. It has grown from resources of \$245,000 in 1904 to over \$12,000,000 at the close of 1914. The Los Angeles branch was opened in May, 1913, at Fifth and Hill streets. Its resources have grown in that time from a few hundred thousand dollars to several millions. The yearly increase in the assets of the bank tell a story of steady progress.

A group of San Francisco bankers and Ernesto Nathan, former Mayor of Rome and now special Commissioner from Italy to the Panama-Pacific Exposition, made a special trip from San Francisco to participate in the opening ceremonies. Mr. Nathan made a brief talk, in which he complimented the officers on their industry in building this magnificent institution, which, he declared, is a shining example of what Italians are doing in the business and financial world in the United States. He was introduced by Secondo Guasti, vice-president, who made a few remarks.

THE OFFICERS.

## BANK OF ITALY IN NEW HOME.

TO OPEN AT BROADWAY AND SEVENTH TOMORROW.

Public Reception of Yesterday Afternoon Attended by Host of Depositors and Friends—Many Prominent Persons on Hand to Extend Congratulations.

## FACT AND COMMENT.

The affairs of the Los Angeles Investment Company, because of the magnitude of that corporation's transactions in this community, became inevitably, at the height of the company's career, a subject of concern to all the people of Southern California. Any institution involving, directly, twenty thousand members of a community such as Los Angeles and its vicinity, takes upon itself, in fact, a quasi-public nature. Its activities are bound to affect almost everybody in the section in which it operates, affecting its shareholders and investors directly, and the general public indirectly, yet materially.

That is why men of the caliber of D. A. Hamburger, Henry O'Mahony, Stoddard Jones, J. E. Flaherty, William H. Allen, Jr., and more lately, former United States Senator Flint, citizens who have been prominent in the community's larger activities, have felt called upon to take the company's affairs in charge as a public duty, with great sacrifice of their own time and without expectation of any compensation for their services.

In short, it may be said that when the life of this mammoth institution was threatened, all Southern California was threatened, and that every man and woman who had a dollar's worth of property at stake in Los Angeles, whether through transactions with the Los Angeles Investment Company or otherwise, had reason to feel alarmed.

The duty of bringing order out of chaos, the task of saving to the shareholders and investors of the company the money they have ventured, has become a public duty that involves not alone the men who have so unselfishly and patriotically agreed to devote themselves to the task as a board of directors, but a duty that involves and demands the services of

## THE PSYCHOLOGY OF THE KAISER.

A Candid and Searching Study of His Sentiments and His Obsession.

BY DR. MORTON PRINCE.

America's Most Famous Medical Psychologist; Author of the Much-Talked-of Psychological Analysis of Theodore Roosevelt.

[Editorial Note.—Dr. Morton Prince, the author of this article, is one of the four leading medical psychologists of the world—the others being Boris Sigmund Freud and Pierre Janet. He is the author of the psychological analysis of Theodore Roosevelt, which attracted countrywide attention at the time of its publication several years ago; he is the psychologist who handled successfully the strange case of Miss Beauchamp, the woman with three personalities. Wherever, in the world, psychology is studied, Dr. Prince is a recognized authority. Therefore, whether or not you agree with the statements he makes in "The Psychology of the Kaiser," you do so as being said by a world-famous psychologist about a world-famous sovereign.]

THE psychology of the Kaiser is not a thing that is more dominant than his unceasing and virulent antipathy to a great body of citizens constituting no less than one-third of his empire—the Social Democrats. We have all read of the Kaiser's hatred of this party. We have read the epithets which he has constantly hurled at them and of his antipathy to their creeds. "Traitors," a plague that must be exterminated, "a horde of men unworthy to bear the name of Germans," "foes to the country and empire," "people without a country and enemies of religion." To be called these things is a delegation of striking miners he said: "For me every Social Democrat is synonymous with an enemy of the empire and of his country. If, therefore, I believe that there are any socialist tendencies in the movement (the strike of 100,000 men) stirring up to unlawful resistance, I shall act with merciless rigour, and bring to bear all the power at my disposal—which is great."

Again: "The doctrine of the Social Democrats are not only opposed to the commandments of God and Christian morality, but are also altogether impractical, being equally injurious to the individuals and the whole community."

So violent is the hatred of the Kaiser towards this party that he even has thought it might come to suppressing it by the army. "For you," he said to the young soldiers at Potsdam, "there is only one foe, and that is my foe. In view of our present Socialist troubles, it may come to this, that I command you to shoot down your own relatives, brothers, and even parents, in the streets, which God forbid; but then you must obey my orders without a murmur."

Why so much feeling? Why such recurrent outbursts of anger and hatred against a political party which in numbers was twice as large as any other single party in the empire, a party which in 1912 cast 4,250,000 votes? and which was represented in the German Parliament in 1912 by 110 members—the representatives of over 21,000,000 subjects, nearly one-third of the total population.

These are strong words of the Kaiser's I have quoted. They are not mere invectives uttered during the heat of a political campaign. They are not to be classed with those emotional outbursts which political stump-speakers, working themselves up to a state of passionate indignation, flay their adversaries and which are promptly forgotten as soon as the campaign is ended—about the Kaiser is essentially a stump-speaker orator. He has all learned not to take seriously the ephemeral indignation of the political orator. But the Kaiser's denunciation of the Social Democrats is the expression of an antipathy which is fixed, deep-rooted, persistent, and is a part of his personality, for it has manifested itself in the form of recurrent attacks of anger and hatred ever since he came to the throne, twenty-seven years ago. It is like unto an obsession idea, common enough, which, fixed deep down in the mind, rises in consciousness whenever its object presents itself.

A Dread of Momentous Practical Consequences.

Fixed antipathies are always, for the psychologist, objects of interesting study, for others, even in an Emperor, they are little more than matters of intellectual curiosity unless the antipathy is one of practical political import, one that affects the policies of government and the course of history. Then, by a study of the underlying causes of this obsession idea we not only can obtain an insight into important components of the psychology of a great historical character, but we should expect to find the true motives which have determined those policies of government and the course of history which have been the direct result of the antipathy.

And, in fact, the Kaiser's dread of the Social Democrats has had momentous practical consequences. It is safe to say that it has been more than any other single factor the motive which has determined him to maintain against the progressive spirit of modern civilization the present autocratic system of government, to resist all liberal attempts to change the constitution so as to give responsible representative government to the people, and to defend what he claims as his prerogatives. It has determined tyrannous measures which have suppressed freedom of speech and of the press, and have suppressed the liberty of the German people. I refer to the law of lese majeste.

This law, a return to the feudalism of the Middle Ages, is the means the Kaiser employs to punish those who talk back. He may insult his subjects, call them all manner of names, misrepresent their principles, their purposes and ideals, exhibit animosity against them "as enemies to the country and religion," but if they answer back they are met by the law of lese majeste; and this law is enforced, as every one knows, with merciless severity to suppress political opponents.

To this antipathy of the Kaiser may also be traced in large part responsibility for the consolidation of the autocratic and military party in Germany. For, by suppressing the political power of the only militant party that has opposed this autocracy, the Kaiser has been enabled to solidify his power and entrench himself with his army as the dominating political force which has determined the foreign policies of the empire. It is safe to say that if the democracy had been in power, or if the constitutional system of government had been such that the Social Democratic party in and out of the Reichstag could have had its influence felt, the foreign and military policies and methods of the government would have been far different, and there would have been no war. Germanism and pro-Germanism would not have threatened the world. More than this, it is impossible, I believe, for any one to study the internal politics of Germany without arriving at the firm conviction that the elimination of German militarism for which the war is being waged, and, therefore, the hope of permanent world peace, must rest upon the German democratic party. From this viewpoint the study of the Kaiser's antipathy for the Social Democratic party offers a most fruitful psychological study.

Why, then, I repeat, so much feeling when the Kaiser thinks of the Social Democratic party? Why such dread of it, why such anger? Why such a personal attitude? To explain it on the ground of differences in political principles, as a political antipathy intensely expressed in terms of an intense emotional personality, is a superficial and inadequate psychological explanation, although it is commonly satisfying as a political explanation. The two are not synonymous. The reason for this distinction will appear as we proceed.

Is the Kaiser "Talking Out of His Pocket?"

Now it is probable, owing to a psychological law, that when strong emotion, out of all proportion to the cause, is excited by some object, that object has struck some sentiment, a "complex" of ideas and emotions deeply rooted in the personality, but not squarely admitted and faced by consciousness. Examples of this we see every day. A strong protectionist inveighs with intense anger against the principle of free trade and the political party that advocates this principle in its platform. The reason he consciously gives is the economic disadvantage which, he apprehends, will result to the country at large.

But, though this may be a reason, or, rather, one reason for his political opinion, it is not the real reason for this emotion—his anger and his invective. This is due to the fact that the free-trade doctrine strikes a chord within him which resonates with selfish fear for his own business interests, and the reaction of this chord is anger. In other words, to use a homely phrase, while apparently speaking from the viewpoint of political principles, he is really "talking out of his pocket." But he does not squarely face, and perhaps is only half-conscious or entirely unconscious of, this fact. This selfish viewpoint is his "unconscious attitude of mind."

Is the Kaiser's antipathy to the Social Democrats merely the expression of an academic dislike in Marxian principles of socialism and a dislike in the practicability of such principles if applied by the state to political government? Or are there other, more ostensible reasons for his antipathy? If the latter, a study of the Kaiser's mind ought to reveal deep-rooted sentiments of another kind which will explain this emotional reaction. But in that case, for a complete explanation, we must inquire what there is that is peculiar in the

A Candid and Searching Study of His Sentiments and His Obsession.

BY DR. MORTON PRINCE.

America's Most Famous Medical Psychologist; Author of the Much-Talked-of Psychological Analysis of Theodore Roosevelt.

[Editorial Note.—Dr. Morton Prince, the author of this article, is one of the four leading medical psychologists of the world—the others being Boris Sigmund Freud and Pierre Janet. He is the author of the psychological analysis of Theodore Roosevelt, which attracted countrywide attention at the time of its publication several years ago; he is the psychologist who handled successfully the strange case of Miss Beauchamp, the woman with three personalities. Wherever, in the world, psychology is studied, Dr. Prince is a recognized authority. Therefore, whether or not you agree with the statements he makes in "The Psychology of the Kaiser," you do so as being said by a world-famous psychologist about a world-famous sovereign.]

THE psychology of the Kaiser is not a thing that is more dominant than his unceasing and virulent antipathy to a great body of citizens constituting no less than one-third of his empire—the Social Democrats. We have all read of the Kaiser's hatred of this party. We have read the epithets which he has constantly hurled at them and of his antipathy to their creeds. "Traitors," a plague that must be exterminated, "a horde of men unworthy to bear the name of Germans," "foes to the country and empire," "people without a country and enemies of religion." To be called these things is a delegation of striking miners he said: "For me every Social Democrat is synonymous with an enemy of the empire and of his country. If, therefore, I believe that there are any socialist tendencies in the movement (the strike of 100,000 men) stirring up to unlawful resistance, I shall act with merciless rigour, and bring to bear all the power at my disposal—which is great."

Again: "The doctrine of the Social Democrats are not only opposed to the commandments of God and Christian morality, but are also altogether impractical, being equally injurious to the individuals and the whole community."

So violent is the hatred of the Kaiser towards this party that he even has thought it might come to suppressing it by the army. "For you," he said to the young soldiers at Potsdam, "there is only one foe, and that is my foe. In view of our present Socialist troubles, it may come to this, that I command you to shoot down your own relatives, brothers, and even parents, in the streets, which God forbid; but then you must obey my orders without a murmur."

Why so much feeling? Why such recurrent outbursts of anger and hatred against a political party which in numbers was twice as large as any other single party in the empire, a party which in 1912 cast 4,250,000 votes? and which was represented in the German Parliament in 1912 by 110 members—the representatives of over 21,000,000 subjects, nearly one-third of the total population.

These are strong words of the Kaiser's I have quoted. They are not mere invectives uttered during the heat of a political campaign. They are not to be classed with those emotional outbursts which political stump-speakers, working themselves up to a state of passionate indignation, flay their adversaries and which are promptly forgotten as soon as the campaign is ended—about the Kaiser is essentially a stump-speaker orator. He has all learned not to take seriously the ephemeral indignation of the political orator. But the Kaiser's denunciation of the Social Democrats is the expression of an antipathy which is fixed, deep-rooted, persistent, and is a part of his personality, for it has manifested itself in the form of recurrent attacks of anger and hatred ever since he came to the throne, twenty-seven years ago. It is like unto an obsession idea, common enough, which, fixed deep down in the mind, rises in consciousness whenever its object presents itself.

A Dread of Momentous Practical Consequences.

Fixed antipathies are always, for the psychologist, objects of interesting study, for others, even in an Emperor, they are little more than matters of intellectual curiosity unless the antipathy is one of practical political import, one that affects the policies of government and the course of history. Then, by a study of the underlying causes of this obsession idea we not only can obtain an insight into important components of the psychology of a great historical character, but we should expect to find the true motives which have determined those policies of government and the course of history which have been the direct result of the antipathy.

And, in fact, the Kaiser's dread of the Social Democrats has had momentous practical consequences. It is safe to say that it has been more than any other single factor the motive which has determined him to maintain against the progressive spirit of modern civilization the present autocratic system of government, to resist all liberal attempts to change the constitution so as to give responsible representative government to the people, and to defend what he claims as his prerogatives. It has determined tyrannous measures which have suppressed freedom of speech and of the press, and have suppressed the liberty of the German people. I refer to the law of lese majeste.

This law, a return to the feudalism of the Middle Ages, is the means the Kaiser employs to punish those who talk back. He may insult his subjects, call them all manner of names, misrepresent their principles, their purposes and ideals, exhibit animosity against them "as enemies to the country and religion," but if they answer back they are met by the law of lese majeste; and this law is enforced, as every one knows, with merciless severity to suppress political opponents.

To this antipathy of the Kaiser may also be traced in large part responsibility for the consolidation of the autocratic and military party in Germany. For, by suppressing the political power of the only militant party that has opposed this autocracy, the Kaiser has been enabled to solidify his power and entrench himself with his army as the dominating political force which has determined the foreign policies of the empire. It is safe to say that if the democracy had been in power, or if the constitutional system of government had been such that the Social Democratic party in and out of the Reichstag could have had its influence felt, the foreign and military policies and methods of the government would have been far different, and there would have been no war. Germanism and pro-Germanism would not have threatened the world. More than this, it is impossible, I believe, for any one to study the internal politics of Germany without arriving at the firm conviction that the elimination of German militarism for which the war is being waged, and, therefore, the hope of permanent world peace, must rest upon the German democratic party. From this viewpoint the study of the Kaiser's antipathy for the Social Democratic party offers a most fruitful psychological study.

Why, then, I repeat, so much feeling when the Kaiser thinks of the Social Democratic party? Why such dread of it, why such anger? Why such a personal attitude? To explain it on the ground of differences in political principles, as a political antipathy intensely expressed in terms of an intense emotional personality, is a superficial and inadequate psychological explanation, although it is commonly satisfying as a political explanation. The two are not synonymous. The reason for this distinction will appear as we proceed.

Is the Kaiser "Talking Out of His Pocket?"

Now it is probable, owing to a psychological law, that when strong emotion, out of all proportion to the cause, is excited by some object, that object has struck some sentiment, a "complex" of ideas and emotions deeply rooted in the personality, but not squarely admitted and faced by consciousness. Examples of this we see every day. A strong protectionist inveighs with intense anger against the principle of free trade and the political party that advocates this principle in its platform. The reason he consciously gives is the economic disadvantage which, he apprehends, will result to the country at large.

But, though this may be a reason, or, rather, one reason for his political opinion, it is not the real reason for this emotion—his anger and his invective. This is due to the fact that the free-trade doctrine strikes a chord within him which resonates with selfish fear for his own business interests, and the reaction of this chord is anger. In other words, to use a homely phrase, while apparently speaking from the viewpoint of political principles, he is really "talking out of his pocket." But he does not squarely face, and perhaps is only half-conscious or entirely unconscious of, this fact. This selfish viewpoint is his "unconscious attitude of mind."

Is the Kaiser's antipathy to the Social Democrats merely the expression of an academic dislike in Marxian principles of socialism and a dislike in the practicability of such principles if applied by the state to political government? Or are there other, more ostensible reasons for his antipathy? If the latter, a study of the Kaiser's mind ought to reveal deep-rooted sentiments of another kind which will explain this emotional reaction. But in that case, for a complete explanation, we must inquire what there is that is peculiar in the

## THE PSYCHOLOGY OF THE KAISER.

A Candid and Searching Study of His Sentiments and His Obsession.

### BERKELEY WINNER OF EXPOSITION TRACK MEET.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, May 8.—University of California, 15; Stanford, 15; Oregon Agricultural College, 15; University of Oregon, 15; Santa Clara, 11; University of Southern California, 6; University of Washington, 6; Washington State College, 4; Idaho University, 2; St. Ignace, 1.

With three conference records broken, and one of them setting up a new college record for the Coast, the Pacific Coast conference meet marks an unusual showing of class under great difficulties. During a greater part of the meet a rain drizzled and a chill wind blew over the track. Under such conditions, the marks in the races were mediocre, but those made in the field events made up the lack of sprinting class.

Caught up of Stanford set up a new conference mark of 46 ft. 1/2 in. in shot put. This record is not officially accepted as yet for it came on the sixth trial and the judges refused to allow it until rulings were investigated.

Harry Livermore, the California freshman, added to his reputation as a javelin thrower by increasing the conference record in this event by many feet. His winning toss took the spear out for a flight of 174 ft. 1/2 in.

The breaking of the Coast collegiate record was done by Cole of Oregon Agricultural College in the discus. Cole's distance, 156 ft. 1/2 in., exceeds last year's mark by ten feet and established a mark which closely approaches the open Coast record, made recently by Philbrook in Portland.

Harry Livermore, the California freshman, added to his reputation as a javelin thrower by increasing the conference record in this event by many feet. His winning toss took the spear out for a flight of 174 ft. 1/2 in.

The breaking of the Coast collegiate record was done by Cole of Oregon Agricultural College in the discus. Cole's distance, 156 ft. 1/2 in., exceeds last year's mark by ten feet and established a mark which closely approaches the open Coast record, made recently by Philbrook in Portland.

Caught up of Stanford set up a new conference mark of 46 ft. 1/2 in. in shot put. This record is not officially accepted as yet for it came on the sixth trial and the judges refused to allow it until rulings were investigated.

### HOGAN WINS GREAT DUEL.

Makes Sensational Squeeze, Scoring Two.

Settles Hash of the Angels in Fourteenth.

Purtell and Kane Start Two Fine Rallies.

BY HARRY A. WILLIAMS.

The Tigers acted almost natural yesterday and along toward evening won a ball game.

They tied the combat up in the ninth, and entered victorious in the fourteenth by a score of 4 to 2.

Hap was the main gun, or rather the main squeeze, in the triumph. Along in the fourteenth he despaired of the regular hired help winning the game. He had already used fifteen or sixteen well-aided guys without getting satisfactory results. In this round Venice loaded up the bases off Bill Burns with nobody out. They needed one run to win. It was a crisis in every sense of the word. Hogan showed himself a gentleman of nerve and a true sportsman by wading right into the middle of this crisis and battling for Deaconsboro. With one bold move he settled the hash of the Angels.

THE SITUATION.

Kane was on third, Berger at second and Wilhoit at first. Hap stuck around the plate and kidded Burns and the umpire and the pack patrons until the count stood 3 and 2. Then everything hung on one pitch of the pitcher. This place was a delicate situation, and he appeared to be keenly embarrassed. If he heaved up a wide one, Hap would walk, facing in the necessary run. If he put it over, Hap would be pretty sure to chop the ball, and chop it successfully. That is exactly what happened.

Hogan ordered a general forward movement on the part of the runners. With the move of Burns's arm they were all off at top speed. Hap chopped a high bouncer down to East. Kane was already over the plate and Berger within a few feet of it. There was no chance for a play there, and Hap was forced to console himself by throwing Hap out at first. Bum consolation. Risher then fouled to Bumiller and Wilhoit was doubled off second.

LACK PUNCH.

The Angels reared up in the last half and tried to chop the bases on Chaffey. Hogan's debut as a Tiger by heaving the final inning, but as on repeated occasions before, they lacked punch in an emergency. The extremity to which Colton alone being left to trim, is counted easy picking.

### BATHERS TO PARADE TODAY.

The Venice bathing girls' parade will step into the exact center of the line-light at 1 o'clock this afternoon. Five hundred raving beauties clad in the very latest swimming togs are to participate.

The procession will start from Brooks avenue and will move down the Ocean front to the judges' stand on the Pier. Fay Tincher, popular comedy artist, with the Venice Band for a body guard, will lead the 500. Many motion-picture queens are on the list of entrants, as well as girls representing the department stores and sporting establishments of the city.

## TAHOE REACHED BY AUTOMOBILE.

First Car Gets Through in Early Spring.

Had a Mighty Tough Job in Getting There.

Snow and Mud Barred Passage to Goal.

An Overland has captured the much-coveted honor of being the first car to Lake Tahoe this season. An Overland was sent through the snow to Tahoe Tavern last week, according to advice received by L. V. Sharp, manager of the Los Angeles branch of the J. W. Leavitt Co., Pacific Coast distributors for the Overland.

The trick was turned this season weeks earlier than before. The car which made the drive was owned by Dr. T. B. Brown of Minden, Nevada. There always is a fight to be the first car into Tahoe. Among the Northern California automobile men this is considered one of the biggest honors of the season. It calls for the bucking of deep snow on the divides, and climbing mountain grades with the mud up to the hubs. Every part of the car is subjected to terrific strain, and it takes a sturdy car to make any progress at all with the roads in their present condition.

In a letter to Mr. Sharp, Dr. Brown describes the trip to the foot of the Kingsburg grade and then continues: "Shortly afterwards we came to the section where they put in a lot of new road work last fall. It was a case of a hard drive through loose dirt, mud and gravel which was 6 to 7 inches deep. There were several miles of this, which only ended at the first signs of the snow-covered road."

"The first trouble began at 'Dad's Cabin,' where we had to put on chains on account of the heavy mud. When we sighted the first snow bank we decided to make a run for it, hoping to get through on headway. But no such luck, for after hitting it the car plowed the four feet deep snow so high up in front that the car came to a standstill."

"It was a case of digging the car out, and after a little time we got through. A short distance further on we sighted a hole in the snow, and we figured to pull through but all of our plans were of no use, for right in the middle of the hole the car sank down until the axles were out of sight."

"It took us almost an hour to get out of the hole, and from there on it was a continual bucking of snow and shoveling a way through the drifts until within two miles of the lake."

"There we found the road fairly good, and thought the hard work over. But just as we sighted the lake another bad mud hole barred our way. Luck was with us this time, and we finally managed to get through."

"The return home was made without mishap or trouble, for we knew all the bad spots and we had already cut our way through the snow drifts."

"On reaching the garage we found the radiator almost full, it taking less than a pint to fill it to overflowing. It was a fine demonstration by the car, showing it to be equal to the hardest mountain work that can be given it here up in the high Sierras."

In the party were: Dr. T. B. Brown, Charles W. Nick, Frank Hood and Antonio Cabona.

Enthusiastic.  
**RESTA BOOSTS FOR PRODUCT.**

SAYS MASTER GIVES RESULTS FOR RACING.

Winner of Grand Prix and Vanderbilt Races has had Entire Peugeot Racing Team Equipped with Los Angeles-made Carburetor.

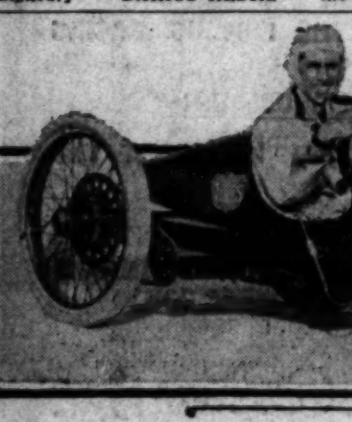

Writing to congratulate Sales Manager Harness of the Master Carburetor Company on the showing of the Master at Oklahoma City, Darius Resta, the famous English driver of the Peugeot, writes that he has brought about the equipment of the entire Peugeot team with Masters this year. Mr. Resta writes:

"You have a great carburetor. I equipped my Peugeot with it for the San Francisco event, and intend using it at Indianapolis, for certainly gives the best results with the present high speed type of motor."

"I understand that the majority of the cars entered at Indianapolis are using Master carburetors. This means that your American drivers are quick to appreciate the advantages of this type of carburetor. I have succeeded in getting the entire Peugeot team to install them."

"With the Peugeots, the Maxwells, the Cam team, the Berghells, Oldfield's, Bugatti, Diebrow's Simplex, Bob Burman's special, which is a rebuilt Peugeot, and over so many others Master equipped, I sincerely hope for a Master victory."

(Signed) "DARIUS RESTA."

## Expert Talks.

## DELIVERY SYSTEM MUST UNDERGO SOME CHANGES.

MILLIONS of dollars have been spent by the warring nations in Europe for American-made motor trucks, but J. A. Stoner of the Mack Motor Truck Company sees yet another effect of the strife on the truck market in this country.

As viewed by the manager of the largest exclusive truck agency in Southern California, the war will prove a boon to the truck industry. It will bring about the reorganization of the delivery systems of some of the largest commercial organizations. This is due to the shortage in horses because of the war.

The pick of the draft horses in Europe are now in service at the front or engaged in military operations elsewhere. The lighter horses have been commandeered for cavalry purposes. Accounts of battles never fail to tell of the fields being strewn with horses. The allies have had buyers in the United States ever since the war broke out. Prices are higher now and Mr. Stoner asserts they will be high for at least ten years, with much greater difficulty in maintaining quality.

"The war is bound to help the truck men educate merchants and others to the need for trucks and the superiority the motor possesses over horses. A delivery truck can be operated for much less than it costs to maintain enough horses to do the same work. This is proved daily by those business organizations that have replaced their horses. The price of good horses will increase regularly in the coming months while, on the other hand, the tendency is to produce good now and Mr. Stoner asserts they will be high for at least ten years, with much greater difficulty in maintaining quality."

## Rotten Weather.

## TETZLAFF HAS A TOUGH TIME DELIVERING CARS.

TEDDY TETZLAFF has just returned from a 1500-mile trip to Big Pine, Bishop and Las Vegas in his Maxwell "25" touring car. He left Los Angeles on the afternoon of April 27th, accompanied by Walter Lord and Scotty McGregor, who were also driving new 1915 Maxwell "25's" for delivery in Big Pine, Inyo county, to A. P. Smith and L. A. Eugley of that place.

Tetzlaff and his party were in the big blizzard and were warned time and again to turn back or wait for the storm to subside. They pushed on, however, and at one time were given up for lost.

"I had expected to make this a pleasure trip with a little business on the side," said Tetzlaff upon his return. "But it turned out to be a business trip pure and simple—and a hard one at that. After the first night out of Los Angeles we were either in a heavy rain storm or a blizzard all of the time."

"We went as far north as Bishop, and all of the old-timers there said that it was the worst blizzard they have ever seen in the valley. Snow was lying on the ground clear down to the foot of the mountains and my visions of trout fishing were completely spoiled."

New United States-Indian racers.

Which will be driven in all the cyclical races over the country by Harry Harts, cyclocar champion, and his partner. The cars were finished last week and shipped to San Francisco.

## CAR BORROWED FOR DEMONSTRATIONS.

So much interest has been shown in the National car owned by Phil Lyon, the supply dealer, that Hawley, King & Co. have "borrowed" it from its owner a number of times for demonstration purposes. Mr. Lyon's car is of the six-passenger type, with divided front seats. The spare seat folds into the backs of those in front and are entirely out of sight when not in use. The car is painted gray with natural wood-color wheels, and is quite distinctive in appearance.

## The Dream Car Come True

—Such Will Be Your Verdict After Your First Ride in the EIGHT CYLINDER CADILLAC

If you do not know that in the Cadillac eight are qualities never before found in a motor car, you have only yourself to blame.

It is the duty of every man to keep step with progress. If you do not know the advantages of the electric street car over the old style cable, you have been decidedly asleep.

If you did not know of the X-ray and the wireless you would be very much a relic of the past. If you do not know the wonderful advantages of the eight-cylinder Cadillac over every other motor car ever made, you have not kept step with motor car progress.

And the one reason everyone should know the truth regarding the eight is because it is so easy to learn. No deep study or lengthy reading is necessary. All you need do is to ride in the car. Then, if you are acquainted with the performance of what have always been considered our best motor cars, you will realize the marvelous advance of this new creation of the Cadillac factory.

Even if you are not in the market for a car, ride in the eight—gain your knowledge of this most wonderful of all cars first hand.

Call up and make an appointment for a demonstration.

## GRANT. MOTORISTS ON WAY TO NORTH

MINA AUTOISTS HEAD THAT WAY.

Wagon and Cattle are Kept in the Mountains in Fine Shape Down Southland and Many of the Owners from that State are coming to Motor to Exposition.

Motorists owners in Arizona are in force to the San Francisco Exposition this summer, according to Maxwell, manager of the Southern California branch of the Southern California Automobile Corporation which supplies the larger part of the cars which will visit the fair.

These will leave the latter part of the month and then go on to San Diego, visiting the Exposition and then to Los Angeles. Those who are coming from the north will arrive in Los Angeles about the middle of the month.

Of the touring will be done from six to twelve. These will leave the latter part of the month and then go on to San Diego, visiting the Exposition and then to Los Angeles. Those who are coming from the north will arrive in Los Angeles about the middle of the month.

The great demands for copper in the West are making it very difficult to get the metal. The new copper mines are adding much to the supply, but the demand is still very large. The new copper mines are adding much to the supply, but the demand is still very large.

PACKARD IS BACK FROM LITTLE BEAR. THE THREE MAXWELLS ATTRACTED A GREAT DEAL OF ATTENTION PUSHING THEIR WAY THROUGH THE COUNTRY IN THE HEAVY SNOW; AND, WHEN WE DROVE INTO BIG PINE, MR. SMITH AND MR. BUSHBY, WHO HAD ORDERED THEIR NEW MACHINES FROM THE LORD MOTOR CAR COMPANY BY TELEGRAPH, WERE STANDING IN THE MIDDLE OF THE STREET WATCHING FOR US. HAVING BEEN NOTIFIED BY HARRY LORD THAT WE WOULD ARRIVE THERE THURSDAY NOON, WE REACHED BIG PINE ACCORDING TO SCHEDULE.

The three Maxwells attracted a great deal of attention pushing their way through the country in the heavy snow; and, when we drove into Big Pine, Mr. Smith and Mr. Bushby, who had ordered their new machines from the Lord Motor Car Company by telegraph, were standing in the middle of the street watching for us. Having been notified by Harry Lord that we would arrive there Thursday noon, we reached Big Pine according to schedule.

"Coming back from the north we came through Randburg and just a short way outside of that place we ran into such a blinding snowstorm that we were compelled to stop for the night; and, although we had made use of the bed features of the Maxwell "25" every night since we left Los Angeles, I truly believe that the results of this particular night out there in the blizzard might have been serious, indeed, had we not been able to remove the front seat and make ourselves comfortable inside of the car. But, with the top and side curtains up and the cushions rearranged, we stretched out full-length on the cushions, pulled our heavy blankets up around us and slept all night, fast as comfortably and as warm as if we were at home in bed. The next morning we ran through snow twelve inches deep in many places before we reached Randburg."

"From there we went to Las Vegas, Nev., via Harlow. The storm was general throughout Nevada and the mountain roads were in very bad shape all along the way, the route in some places being so deep that it was necessary to stop and rebuild the roadway. I had laid out a certain route before I left Los Angeles and I was determined to cover it entirely before turning back. The only encouragement I had was from the fact that my little Maxwell "25" plugged right along without giving me the slightest trouble or needing any attention whatever. And when we arrived back in Los Angeles there had been nothing injured about the car but its appearance."

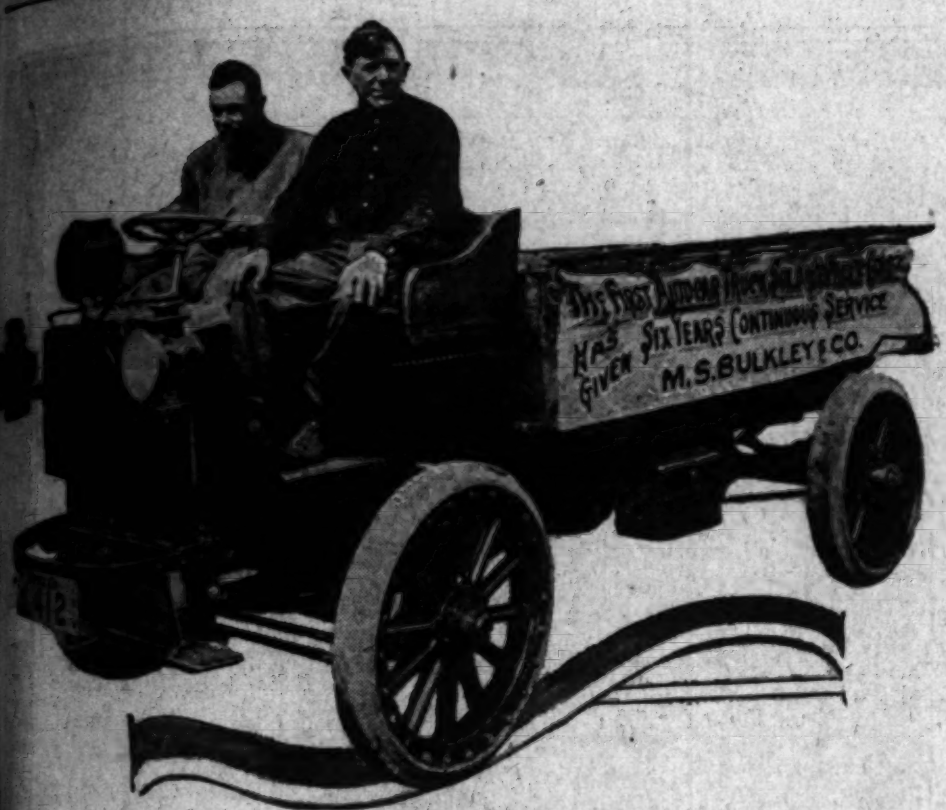

After two weeks of operation without any specific regulations, the street buses in St. Louis will have to follow a specially-prepared set of rules of traffic laid down by the city. No longer will fifteen persons be squeezed into a five-passenger car, the 15, if one of the new rules is enforced.

NEW BOULEVARD FOR AUTOISTS. An announcement yesterday from the headquarters of the Automobile Club of Southern California states that all motor cars bound for San Francisco on the new route from now on will have the advantage of twelve miles of concrete boulevard between San Luis Obispo and San Luis Obispo.

The good news, from J. M. Gaudin to the auto club, states that the new route will be a more direct one, passing through Santa Maria, Nipomo, Oxnard, Camarillo and San Luis Obispo.

This is a vast improvement over the old Arroyo Grande route, which has had to be used for this time on account of highway construction.

Antediluvian autocar.

Best car of this make sold on the Coast, yet she ran down to San Diego and returned with the Auto Club tourists and acted as repair car.

### Great. TOURISTS ON WAY TO NORTH. AUTOISTS HEADING THAT WAY.

Mr. and Mrs. C. E. Toberman, who have been drilling the men at secret practices on some of the "old stuff" he used to pull off in the "Texas Bush."

Mr. Toberman, the lanky third-baseman who has before demonstrated his ability along these lines, will lead the Leans and make a desperate effort to wipe off the stain of former defeats.

All Hollywood will turn out for the game, and the event will be preceded by an automobile parade on Hollywood boulevard.

The line-up:  
Fats—G. O. Greenwood, captain.  
Leans—C. H. Mansheffer, I. Blondest, R. H. W. Melcher, I. G. L. Eastman, W. M. Hray, I. E. Foster, W. F. Pick, I. A. M. Strong, cf; A. J.

Reyes, cf; L. Darrie, A. Russell, P. Leans—C. E. Toberman, captain, J. B. Crawford, I. B. C. Long, I. D. Tiffany, W. W. Campbell, I. G. H. Blondest, C. Marshall, I. Y. Armstrong, cf; G. B. Hincley, M. L. Skilman, p.

Umpires—Philo J. Beveridge, Joe F. Grass.

Responsive to the demand for motor buses, a company at Birmingham, Ala., has produced a special model of chassis and body for passenger service having a low floor with a pay-enter door arrangement for one-man operation. It has its motor under a conventional hood with drive by a bottom worm, the latter making the low floor possible with direct mechanical drive.

Mrs. Hugo Reisinger of Ivy Wall, Pasadena, daughter of the late Adolphus Busch, has just received a Flat roadster of the latest model Flat 55 chassis, and a body especially designed for her. The body is the product of the creative genius of America's foremost body builder, and is probably the finest thing in the roadster line ever seen on the Coast. The equipment, as well as the lines and finish, is unusual.

Mr. Toberman, the lanky third-baseman who has before demonstrated his ability along these lines, will lead the Leans and make a desperate effort to wipe off the stain of former defeats.

All Hollywood will turn out for the game, and the event will be preceded by an automobile parade on Hollywood boulevard.

Responsive to the demand for motor buses, a company at Birmingham, Ala., has produced a special model of chassis and body for passenger service having a low floor with a pay-enter door arrangement for one-man operation. It has its motor under a conventional hood with drive by a bottom worm, the latter making the low floor possible with direct mechanical drive.

Mrs. Hugo Reisinger of Ivy Wall, Pasadena, daughter of the late Adolphus Busch, has just received a Flat roadster of the latest model Flat 55 chassis, and a body especially designed for her. The body is the product of the creative genius of America's foremost body builder, and is probably the finest thing in the roadster line ever seen on the Coast. The equipment, as well as the lines and finish, is unusual.

Mr. Toberman, the lanky third-baseman who has before demonstrated his ability along these lines, will lead the Leans and make a desperate effort to wipe off the stain of former defeats.

All Hollywood will turn out for the game, and the event will be preceded by an automobile parade on Hollywood boulevard.

The line-up:  
Fats—G. O. Greenwood, captain.  
Leans—C. H. Mansheffer, I. Blondest, R. H. W. Melcher, I. G. L. Eastman, W. M. Hray, I. E. Foster, W. F. Pick, I. A. M. Strong, cf; A. J.

Reyes, cf; L. Darrie, A. Russell, P. Leans—C. E. Toberman, captain, J. B. Crawford, I. B. C. Long, I. D. Tiffany, W. W. Campbell, I. G. H. Blondest, C. Marshall, I. Y. Armstrong, cf; G. B. Hincley, M. L. Skilman, p.

Umpires—Philo J. Beveridge, Joe F. Grass.

The equipment, as well as the lines and finish, is unusual.

### YOUNGSTERS GET GREAT SPEED FROM CYCLECARS.

HARRY HARTZ and his team mate, who have carried the colors of the Indian motorcycle and the United States Tire companies to victory in practically all of the juvenile events on the Coast, will have new mounts for the coming juvenile races at San Francisco. The new United States Indian cars are the last word in speed creations of the cyclecar type. They are motored with the regulation Indian twin motor, which is mounted on the left side of the chassis, balancing the weight of the driver.

Double drive and a differential are used in transmitting the power from the two-cylinder motor to the rear wheels. The mounting and drive are unique in the cyclecar class, and

promise to provide much better balance and traction. The weight is so distributed over the car that the driving wheels carry about sixty and the front wheels about 40 per cent of the poundage.

The cars were built in Los Angeles and represent the latest development in cyclecar racing machines. Hartz, who will drive one of them, is the junior champion of the world, having won practically every race in which he has started.

According to Manager Tom Wilkenson of the Los Angeles branch of the United States Rubber Company of California, the cars are expected to make more than seventy-five miles an hour on the straightaways.

Mr. Wilkenson will be unable to see the junior races in the north, but is doing everything he can to make Hartz's new mount a complete success.

Real Facts.

Rebuilt.

Great.

### SCHEDULE FOR A MOTOR TRIP TO SAN FRANCISCO.

A SERIES of schedules for the trips between Los Angeles and San Francisco have been prepared by Earl Armstrong of the Chandler company that will prove of interest to all motorists. He divides the coast into a two-day trip up the coast and a two-day trip down the coast. The morning run from Los Angeles to Santa Barbara can be made nicely in from four to five hours. The afternoon trip over the mountains to San Luis Obispo will be a hard one. The Gavista Pass road is under construction and it is necessary to go over the San Marcos. This is not in good shape. On to Santa Maria there are also many other bad stretches. The highway is practically completed between San Luis and Paso Robles. From there on, there is also much road work.

The coast road is a nice three-day trip. Armstrong advises three days for most motorists. He divides it at Santa Barbara and Paso Robles. This gives the hard run at the other end but by that time the tourist has become more or less seasoned to touring and can ramble along.

A three-day trip up the valley should be divided at Bakersfield and Fresno. For the many who have never made the trip before, Armstrong advises going one road and returning the other.

Many Chandler owners are arranging to go in parties of several machines. Those who desire to join such parties can send their names to the Chandler Motor Car company and they will be put in communication with other Chandler owners contemplating the trip.

### Washable Driving Gloves \$2.25

—Short, tan cape gloves that may be washed with soap and water without shrinking or losing their soft texture. Made with adjustable wrist band. \$2.25.

—Made with very heavy case to withstand the jans and vibration of autoing—practically dust and moisture proof. Wound without a key. Fastened to car in a way that defies theft. Greatly underpriced at \$5.00.

—Heavy substantial trunks of various diameters and depths, to fit in center of the spare tire. Covered with black enameled cloth.

—Don't fill up your foot room with bothersome packages—carry them in one of these handy tire trunks, \$1.95.

—Made of pressed steel in 5 and 6-inch sizes—nickel plated. Because of their thin jaws and short length they will grip bolts and nuts in place inaccessible to heavier forged pliers. 10c each.

—Made of pressed steel in 5 and 6-inch sizes—nickel plated. Because of their thin jaws and short length they will grip bolts and nuts in place inaccessible to heavier forged pliers. 10c each.

Savage service.

One of the service autos of the Savage Tire Company making a hurry-up repair on a casing down near San Diego.

Some Fine Trip.

## ENCLOSED CAR TOURS FROM SAN MATEO HERE.

THE open touring car is no longer king of the highway. It must share this honor with the luxurious closed type of cars now so popular. The closed car offers many advantages over the open car, and has all the sturdy qualities of the touring type, as was demonstrated this week by E. L. Lindholm, Alaska mining man, head of the Liberty Bell Motion Picture Company, with a party of three in his thirty-six-horse-power Kissel-Kar limousine.

Mr. Lindholm, accompanied by Miss Sadie Lindholm, the famous Swedish actress, Miss Camille Ward, character actress, and E. S. Pembroke, all of the Liberty Bell Motion Picture Company, made the trip from San Mateo under adverse road and weather conditions in twenty-two hours. So enjoyable and successful was the trip that the party will continue to San Diego and then return to San Mateo by either the valley or the coast route.

"We left San Mateo at 6:45 a. m.," said Mr. Lindholm, in talking with Mr. Henderson of the Pacific Kissel-Kar branch. "There was a fairly good highway nearly all the way from Kingsbury to Tulare, and then some very rough roads from Tulare to Delano, which showed us down considerably. We stayed over night at Tulare and the next morning made fine time to Bakersfield. From here the roads were good and we hit the high spots until we reached White Wolf Grade, where the going was pretty stiff on account of the large amount of snow, in many places drifts so big that we had to plow through them. The snow faded until we passed Tehachapi, where we again encountered huge drifts."

"From Tehachapi the road, were fine to within a few miles of Saugus—in some places so good that we could speed the car up to fifty and sixty miles an hour. Other places they were so rough and sandy that we could make but little headway. About five miles this side of Saugus, we struck a great deal of slippery clay, and the going was extremely difficult. From there on the roads were not so good. Not a single mechanical adjustment was made nor did we have any tire trouble whatever. We used only about one gallon of water on the whole trip, in spite of continued low-gear work. We averaged about twelve and one-half miles to the gallon of gasoline, and for a heavy car like ours this seemed to us indeed remarkable, inasmuch as we kept her at the average pace of about thirty-five miles an hour all the way."

"The trip took us just twenty-two hours. We never stopped the motor from San Mateo to San Francisco, a distance of 268 miles, and the convenience of the closed car impressed itself more than once as we were subjected to all kinds of weather on the trip down. We came via Mint Canyon, as Bouquet Canyon was closed, and found the roads there very good. We intend going down to San Diego and then make the return trip either up through the valley or along the coast."

Plans have been adopted for the construction of a municipal garage at the rear of the City Hall at Alameda, Cal.

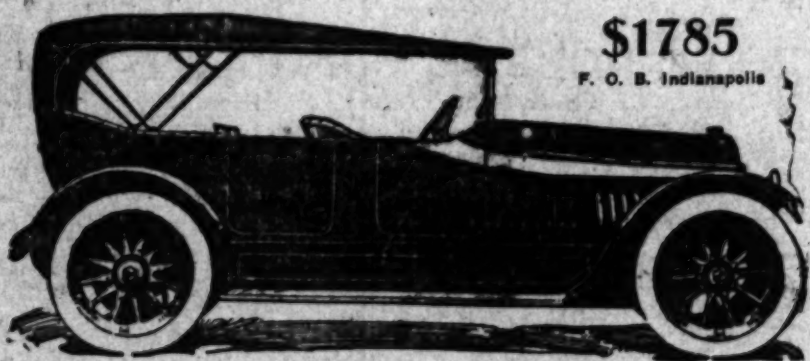

# STANDARDIZED COLE

## All You Hoped for—PLUS

THE COLE Standard Eight has a speed range on high from a walking pace to more than sixty miles an hour, generates a power flow which eliminates all vibration, jerking and unsteadiness. The forward energy of the Cole Standard Eight suggests nothing so much as being carried forward by a sweeping, irresistible current.

Also Companion Touring and Roadster Models, 4-cylinders \$1485

The motor is a 3 1/2-inch bore by 4 1/2-inch stroke, all moving parts enclosed and absolutely accessible. Timken's latest type axle with extra large helical bevel gears and Timken over-size bearings throughout, one-man top of pleasing design, long grain genuine hand-buffed leather Turkish upholstery, retiring auxiliary seats and divided front seats, Delco separate unit starting, lighting and ignition—every part the standard of its kind. This is what you get in the Cole Standard Eight.

\$1785

(Auto Supply Store—Main Floor—Monday)

—In order to demonstrate to the thousands of "Ford" owners that the Great White Store carries the largest, most varied and best stock of "Ford" accessories in Los Angeles—priced lower than elsewhere—we inaugurate "Ford Week" and quote herewith a few of the many extra values.

## Water CIRCULATORS \$6.50 For "Fords"—Complete

—Never before to our knowledge have they been sold for less than \$6.50. Positive and rapid water circulation under all conditions—no more overheated engines, boiling water and constant filling of the radiator; easily and quickly installed—just \$6.50, tomorrow, the first day of "Ford" week.

## "Ford" Hood Clamps, \$1

—The clamps eliminate noise and protect hood and radiator from excessive vibration—set of 4, \$1.00 the set.

## B. & S. Master Vibrators Installed, \$7

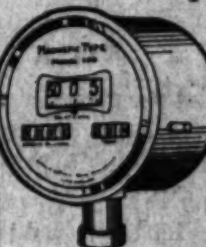

—End your ignition troubles; increase the power and speed flexibility of your "Ford" with a B. & S. Master vibrator—only \$7.00 this week; installed free.

## "Ford" Breathers at \$1

—"Ford" breathers make it easy to put oil in the crank case and are easy to install—\$1.00 each.

## "Ford" Speedometers, \$9.50

—A world's famous speedometer, of standard "Stewart" workmanship, materials and quality—and especially designed for "Fords." It registers season and trip mileage and speed up to 60 miles per hour—installed for \$9.50.

## "Ford" Tires, 30x3, \$8.15

## "Ford" Tires, 30x3 1/2, \$10.40

## Free—Hamburger's Auto Listing Service List Your Auto for Sale or Exchange.

—Another Hamburger innovation—a Listing Bureau where any owner may list his car for sale or exchange—and where absolutely no fee nor commission is charged for the service. If you wish to purchase or dispose of an auto, consult Hamburger's list—Free! (Hamburger's Auto Supply Store—Main Floor)

## CACTUS KATE BACK AGAIN

Sloppy Weather Encountered on Route.

Auto Club Logs and the Road.

Strip Maps will be Out Soon.

With Nevada adobe covering of her flaming paint, "Cactus Kate" the big Packard which has been engaged in logging the road from Los Angeles to the Lincoln highway, the Auto Club, returned to Los Angeles on Thursday evening. The car made the return trip to Los Angeles from Elly in three days, in the face of the heaviest rains and snow have ever been known in this season of the year.

Strip maps of the road will be issued by the Auto Club at the benefit of those intending to use this route, and work has already begun on the making of the strip maps which the Auto Club will make available to the public.

The weather was encountered at the mountain, where the road was so bad that the car was almost unable to drive.

HUNDREDS OF  
CARS STOLENAuto Thieves Working  
Success.Swipe Cars, Steel Parts  
Bury Them.Auto Club Theft Bureau  
its Report.

A national campaign for the termination of an industry of motor thieves was inaugurated today by officials of the Automobile Club of Southern California.

That these Pacific Coast centers their activities in Los Angeles with the intention of spreading the summer of 1915 has been established as a fact by officers of the Auto Club's automobile theft bureau, which has been operating for the recovery of cars.

Los Angeles is the motor city of the world, and the automobile accessories and parts, the state, and even cars, are shipped here from every part of the world.

At first, they say, the gang was only in and about the city, spreading to the entire Coast from San Diego to San Francisco and the continent to and from New York City. But Los Angeles, with its 10,000 motor cars, has become a center of highway and its industry has been selected as the main target of operations.

However, it is pointed out by Detective J. W. Powell of the Auto Club's theft bureau, that this gang, the Robin Hood of the motor, is not located in Los Angeles, but is a nationwide organization, with its headquarters in the city of New York, and its branches in every large city of the United States.

From this base the motor thieves are directed, and the Auto Club's theft bureau is kept on the job of locating the stolen cars, which are then shipped to the coast, where they are sold to the public. The cars themselves are then stripped of the chassis and the parts are sold to the public.

Since January 1, the theft of cars has increased by 50 percent in this city, despite the efforts of the police. In the first five months of the year, 1,000 cars were stolen, and in the last five months, 1,500 cars were stolen. This is a record for the city.

The Auto Club's theft bureau is now working on the case of a stolen car, which was reported to the police. The car was a 1914 Ford, and it was stolen from the city of Los Angeles. The Auto Club's theft bureau is now working on the case of a stolen car, which was reported to the police.

"Each motorist should register his car with the police, and should mark it with the Auto Club's theft bureau. This will help the police to locate the stolen car, and will help the Auto Club's theft bureau to recover the car." This is the advice given by the Auto Club's theft bureau.

"It is a deplorable fact that the Auto Club's theft bureau is now working on the case of a stolen car, which was reported to the police. The car was a 1914 Ford, and it was stolen from the city of Los Angeles. The Auto Club's theft bureau is now working on the case of a stolen car, which was reported to the police.

FISHERMEN BUST  
AT HERMOSA

HERMOSA BEACH, May 8.—Fishermen are beginning to take advantage of the good weather prevailing along the Coast and are stringing out their nets. For several days the weather has been so good that the fishermen have been able to catch a large number of fish. The fishermen are now beginning to take advantage of the good weather prevailing along the Coast and are stringing out their nets.

FLYING SPARKS  
OF MOTORISTS

A purse of \$20,000 is being offered by the National Automobile Club for the best driver in the country. The purse is to be held for the best driver in the country. The purse is to be held for the best driver in the country.

The Motor Truck Convention, which is being held in Los Angeles, is a great success. The convention is a great success. The convention is a great success.

## Mr. Wad Met Mr. Two Gun Hicks Out at the Rodeo!

BUEMILLER IS MOST  
PRECISE BASE STEALER.

Through the First Month of the Season Without Caught Even Once—Boles has the Best Record in League Out Would-be Stealers, While Jack Ness is Making Clean-up Gent.

By HARRY A. WILLIAMS.

enjoy the distinction of having had more bases stolen on them than any other backstop. However, of them were handicapped by wings which were temporarily on the bum, and these figures are hardly a fair criterion of their worth.

Boles was charged with eleven bases stolen from him, and he was charged with seven stolen from him and ten men tossed out, was the only other backstop to throw out more men than he didn't throw out. The following percentages pertaining to the total number of bases thrown out by the total attempted steals on the various backstops:

| Backstop | Stolen Bases | Percentage |
|----------|--------------|------------|
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |
| Boles    | 11           | 100        |

During the first four weeks of the season, more San Francisco runners were thrown out than those belonging to any other club. The Seals should have a care. But even so, Wollerton's lead succeeded in their nefarious work often enough to maintain their proud position at the head of the list not only in percentage of successful steals, but in total steals as well. San Francisco athletes started to steal eighty-nine times, and finished it fifty-seven times. Of all the Coast League players they are the most rambunctious on the bases. Los Angeles runners made sixty-nine attempts to steal, Oakland fifty-five, Portland forty-four, Venice thirty-seven and Oakland twenty-seven.

The Haynes "Light Six" must give continued service under every possible condition. The motor is of the small, light, high speed type to give the maximum results in either slow or fast driving. The high speed motor has proved its worth. The motor is perfectly balanced—a feature that adds to the life of the car.

Extremes simplicity of all working parts of the chassis is necessary to give light weight, long life, and low expense of upkeep. Accessibility of every part of the Haynes "Light Six" is provided for ease and convenience in caring for the car. With its light weight, tires last longer and the oil and gasoline consumption is less.

The weight is properly distributed to the four wheels to give easy riding, and the ability to stick to the road. Strength is considered important in the smallest parts to take the unexpected shock. Heat treated steels and the use of nickel and vanadium permits less weight with added strength.

A long tapering hood blending into a full stream-line body with long easy curves, combined with the crowned fenders, gives a very pleasing effect that has its points of service as well as beauty.

Haynes workmanship is conscientious. The car as a whole, with each separate unit, is built to endure. Enduring cars are built only by enduring manufacturers. Haynes cars built ten years ago are still giving perfect satisfaction. The Haynes "Light Six" combines all the features of service in the one practical car.

PHOENIX RACE SUBJECT  
OF CONSIDERABLE TALK.

DIVIDED sentiment relative to the annual Los Angeles-Phoenix road race exists at Phoenix and this situation makes it doubtful if there ever will be another race. That this state of affairs exists will be regarded with a feeling of dismay by Los Angeles motorists and all who are interested in the sport.

Whatever benefits may have accrued from the running of the desert classic have been directed to Phoenix. The race only started in Los Angeles and usually an hour was selected that required remaining awake a large part of the night in order to see the cars get away. Leon T. Shettler, as chairman of the Racing Committee of the Western Automobile Association, was the moving spirit at this end of the intercity event, and G. Purdy Bullard looked after the Phoenix and Arizona interests.

There would have been no race last year, which for severity of test of drivers and machines was declared by all to be the greatest automobile contest the world has known; had it not been for Mr. Shettler. After San Diego had failed to post its share of the guarantee and it became necessary to lay out a new course, Mr. Shettler devoted practically his entire time to the race. He even made personal appeals for aid from the cities and towns along the route.

Information relative to the situation at Phoenix was revealed by Ed Rudolph, dealer in Firestone tires and accessories at Phoenix, who has been in the city for a few days. Mr. Rudolph passed the time with A. T. Smith, manager of the local branch of the territory of which includes the State of Arizona.

According to Mr. Rudolph, factional strife has arisen in his city over the subject of the race. There is an element that is antagonistic to Mr. Bullard and his associates. The group does not seem to understand, according to the Phoenix man, that Bullard assisted in the promotion of the race wholly from principles of sportsmanship as one of the most prominent athletes in the State simply to boost the game seemed beyond the pale of understanding of those who oppose him.

There are others who maintain that there cannot be a successful race without Bullard at the helm of the contest. This group contends he has been associated with the race for so long he knows every angle of the circumstances and working in conjunction with Shettler, the two make a pair that has been the only one able to promote the race.

The Phoenix Board of Trade has been accustomed to make donations to the race. The State Fair Association also has been concerned with its welfare as the finish was at the fair grounds and the drivers competing drove in the track contests conducted by the fair board. Mr. Bullard has been in a position to obtain this assistance, without which the race would have been a financial impossibility in the past.

Rudolph says he expects to see all obstacles removed in time for the race again the coming fall. "Everybody in Phoenix wants the race," he says. "The town realizes there is no other event which gives it so much publicity, so I'll expect to see the factions bury the hatchet in time to make the race a success. I have been so busy selling Firestone tires lately that I may not be acquainted with the most recent development."

## By All Means, See This Car

## CHANDLER SIX \$1295

Now With Seven-Passenger Body

If you haven't been in to see the new seven-passenger Chandler, arrange to call at once. We do not remember that any other car has been viewed with such enthusiasm. You will surely be delighted with it.

Admirers of the Chandler—and they are a host—have found everything to please them, and not a thing to disappoint them, in the New Season's seven-passenger model.

A distinctly reassuring feature is the fact that there is not a single thing about this car that's of an experimental nature. The \$1295 Chandler price announced in January holds good on this big, roomy seven-passenger model, still not a detail of design or materials anywhere in the car has been cheapened in quality to make this price possible. Except for the longer wheel-base and the seven-passenger body, and some lesser refinements and improvements, it is the same Chandler that was so popular last year at \$1595 and with only a five-passenger body.

In the tonneau of the new seven-passenger body there is no cramping or crowding. You will be impressed by the clever construction of the auxiliary seats. When not in use they fold away neatly into the floor and the back of the front seat, converting the car into an exceptionally spacious five-passenger carriage. No thumb-screws or levers of any nature are necessary for their adjustment.

The demand for the Chandler all over the country is so sweeping that the factory will be hard driven to fill all orders, even with its production for the year immensely increased. Our allotment is liberal, but limited. And beyond that limit we shall not be able to supply our patrons. If you will get your order in now we will take care of you.

Touring Car or Roadster, \$1295  
With the Marquess Chandler Motor.

## because it is impossible to obtain deliv-

## eries as desired. Production, more-

## over, is still too slow be-

## cause of the limited number of plants

## doing the work.

## A large force of accountants is said

## to be at work now making estimates

## of the cost of the shrapnel steel

## company will construct a \$4,000,000

## plant at the old Altha works at Har-

## rison, N. J. If the contract is secured,

## should this plant be necessary the

## record order for machine tools in this

## country will be broken to equal it.

## The plant, if built, will be the best

## equipped in the world for its pur-

## pose. The plant will be a machine

## will be useful in other lines.

## Horsehoe-makers in Pennsylvania

## also are reaping a harvest from the

## allies. At Catawissa, the Bryden

## Horse Shoe Works is so busy that its

## employees have given up most of their

## recreations. The Bryden Gun Club

## has suspended its schedule of shoots.

## Hundreds of extra men have been em-

## ployed.

## Nearly every steamship clearing

## Philadelphia for England or French

## ports carries barbed wire. Sometimes

## this is put on secretly, the bales cov-

## ered and hidden by thick folds of

## burlap, and sometimes it is stacked

## up openly on the deck just before the

## ship sails, to be stowed into the holds

## later. Thousands of tons have been

## shipped. Thousands more are on the

## way. The wire department of the

## American Steel and Wire Co., at Al-

## bany, is working full time. The Car-

## negue company plant in the Shenango

## Valley also is at full time on barbed

## wire, and the steel mill is rushed

## with orders. This firm is building a

## \$100,000 new plant at Parcel, one of

## the most important steel towns in

## the valley.

## These details show that Pennsyl-

## vania manufacturers are profiting di-

## rectly from the war, but there is an-

## other side. For instance, at Easton

## the Hart Chemical Company is con-

## structing a plant for the manufacture

## of chemicals in which Germany had

## a monopoly before the war. Silk, cot-

## ton and woolen mills, dull before the

## war, are getting orders. Many of

## them are from firms that formerly

## bought abroad. When the war is

## over the battling nations may have

## some competition in lines that heret-

## ofore offered them a free field.

## WHAT IS NEUTRALITY?

## Of course all of Pennsylvania's

## great steel and iron plants are not at

## work making ammunition, but what

## is being done by the few is enough

## to show that this country is doing

## better than it has in the past. It is

## never run shy in the event of war,

## providing the army could hold Penn-

## sylvania in at least one con-

## Pomona Wins.

## (Continued from First Page.)

## WINDFALLS FOR PITTSBURGH.

## Everybody in the steel business

## knows Pittsburgh is getting all

## the shrapnel business it can take care of

## at the present time. There is said to

## be a strong demand for 30,000 tons of

### Many Motors Have Blamed Unjustly.

A motor may be perfectly adjusted as to carburetor, timing of valves, etc., yet still lack that snap, power and elasticity that characterize a perfectly running motor. If the piston rings are not compression tight, the motor will lose power and compression at every stroke of the piston, and the motor will be inefficient.

Don't wait to have your motor overhauled, stop that costly leakage at once by installing STA-TITE PISTON RINGS. Delay means waste of power and money.

STA-TITE Piston Rings are made in three pieces with their sealing surfaces distributed so that multiple contact against the cylinder walls is always secured. Leakage is a mechanical impossibility.

This cross-section shows the STA-TITE patented feature. This "interlocking" groove construction is superior to all others. This groove construction allows the ring to seat perfectly in the piston groove, thereby eliminating "play" and all possibilities of "leakage" or "blow-by".

Under stress of expansion the joints are held tightly and securely; they cannot overlap and score the cylinder walls. Install a complete set and get more power and better compression.

Manufactured by STA-TITE Packing Ring Co. John Wigmore & Sons Co., Distributors, 105 N. Los Angeles St.

STA-TITE

## Mishap—Misuse

The Only Clouds That Ever Dim the Glory of Fortified Tires

### To Our Coming Friends

When you join the army of Goodyear tire users, do not expect the impossible. No tire ever built is exempt from mishap or misuse. Goodyears sometimes meet ill-luck, like others.

But they average best. That is simply proved, and there is ample reason for it. Some give wondrous mileage, some meet accidents. But on the whole they mean much lower tire bills, much less trouble.

### A 5-Million Average

Remember, please, that men have tested nearly five million Goodyear tires, on perhaps 500,000 cars. The tests have covered 15 years. And long ago those tests placed Goodyears at the top.

Last year we sold 1,479,883 pleasure car tires—about one for each car in use. Yet we have some hundred rivals. Doesn't that prove that men in general have found that Goodyear tires are best?

### Great Duel.

(Continued from First Page.)

which Dillon was reduced in his efforts to win the game was shown by the use of Slim Love as a pinch-hitter in this round. That is something that you won't see very often. It wasn't a bad idea at that. For Slim has an awkward way all his own of slugging the ball now and then.

Hap may not be a second Ty Cobb with the bat, but as a squeeze-bat he has no equal in the wide, wide world. Most batters think that they have done something mighty smart if they squeeze in one man. Hap seldom steps at that. He considers that squeeze wasted which does not score at least two men.

COMMENDED.

Hap is to be commended. But for his timely act in busting up the pastime nobody would have got away from the park in time to see the electrical pageant about which so much has been spoken and written of late.

The combat began with only nine men on each side, and with Cack Henley and J. Lynn Scroggins pitching. But by 4:30 each manager had jerked his original batting order out of all resemblance to itself. All told, thirty athletes got out and frolicked around in the bright sunshine. In the ninth the situation became so acute that it was necessary for Billy Purcell's sore toe to get well and his manager to lift that he might hit for somebody. That Billy is again sound is shown by the fact that it was his hit which started the big doing in the ninth.

Scroggins started off wild, but machine-like pitching by Boles nullified the effect of all paces laid out. Scroggins allowed but three scattered hits up to the ninth, when the "Stars" began to get away with him. But Burns then took hold.

DEFENSIVE.

Wonderful defensive work by McMullen, Zeb, McMullen, Abstein and Berger kept the fans keyed up for the first half of the game. In the sixth McMullen knocked down back of second.

### JOE TINKER BADLY HURT.

(BY A. P. NIGHT WIRE.)

CHICAGO, May 8.—Joe Tinker, manager of the Chicago team of the Federal League, has sustained a rupture in his right side and will be out of the game as a player for a month, if not for life, according to a dispatch to the Chicago Daily News from Newark, N. J., from a staff correspondent. The injury was sustained in yesterday's game.

Abstein and Zeb staged the fastest double play ever seen in the place. It was done in a twinkling. Gleichmann and Melling were the unhappy victims.

Cack was just as good as Scroggins except in the second round, when the Angels scored two on bunts by McMullen and Abstein, a wild throw by Henley and a single by Boles. From that on Cack pitched like a regular whale float of the time. In the fourth he was slightly embarrassed with two on and nobody out, but the squeeze was attempted and Cack was just clever enough to build it up.

THE NINTH.

Henley was to have been the first man up in this round, but Hap decided that the time had arrived for a pinch hitter. Hap held a consultation with the club physician, who stated that Purcell's toe had grown back on his foot and that he could run without fear of dropping off again. Therefore, Billy was sent in to bat for Cack.

He responded with a single that McMullen knocked down back of second.

PROTECTION.

Because of these changes, Hap was forced to rearrange his plan of defense. Only by doing this could he straighten out the trenches and protect his line of communications.

Cantraine was sent in to pitch. Purcell placed in left field and Kane into center. McMullen singled in the last half of the ninth, but great fielding by Purcell and Kane spared him any real damage.

Thus the game swung into extra innings and dwaddled along without anything definite happening and everybody getting hungrier every minute.

In every inning the Angels had one or more hits, but they were always managed to leave them there.

In the tenth Zeb doubled with one out and Boles was purposely passed.

Burns fanned and Maggett could do nothing to speak of.

Then in the eleventh Walter and McMullen walked with only one out. Ellis and Abstein filed to the outfield. Zeb, the first man up in the twelfth, was passed and reached second with only one out. Burns and Maggett were unable to deliver.

ZEB TERRY.

Incidentally, in this inning Zeb made the best play of the day when he falcened into the air and hauled down a killing line drive from Rieberg. The force of the blow was so great that Zeb's toes flew up and hit him in the eye.

Then in the twelfth Zeb doubled with one out and Boles was purposely passed.

Burns fanned and Maggett could do nothing to speak of.

Then in the eleventh Walter and McMullen walked with only one out. Ellis and Abstein filed to the outfield. Zeb, the first man up in the twelfth, was passed and reached second with only one out. Burns and Maggett were unable to deliver.

ZEB TERRY.

Incidentally, in this inning Zeb made the best play of the day when he falcened into the air and hauled down a killing line drive from Rieberg. The force of the blow was so great that Zeb's toes flew up and hit him in the eye.

### CORNELL BEATS HARVARD IN TRACK.

(BY A. P. NIGHT WIRE.)

CAMBRIDGE (Mass.), May 8.—Cornell defeated Harvard in the annual track games today by a score of 18 1/2 to 17 1/2. His new dual records were established.

SUMMARY.

120-yard hurdles—Lukens (C.) first, Millard (C.) second, Robinson (H.) third; time, 14-4-5. Hammer throw—McCuthen (C.) first, McCormack (C.) second, Sturgis (H.) third; distance, 154 ft. 3 in. 100-yard dash—Ingorsoll (C.) first, Teacher (H.) second, Foley (H.) third; time, 12s. 880-yard run—Bingham (H.) first, Speedon (C.) second, Capper (H.) third; time, 1m. 58 1/2-5. Running high jump—Richards (C.) first, Russell (H.) second, Johnston (H.) third; height, 6 ft. Mile run—Windagle (C.) first, Kent (H.) second, Hoffman (C.) third; time, 4m. 23-4-5. 440-yard run—Wilcox (H.) first, Speedon (H.) second, Crim (C.) third; time, 48-2-5.

### YALE WINS TRACK MEET FROM TIGERS.

(BY A. P. NIGHT WIRE.)

PRINCETON, May 8.—Yale defeated Princeton in the annual dual track meet here today. Yale scored 63 points to Princeton's 42. The summary:

1-mile run—MacKenzie (Princeton) first, Altha (Princeton) second, Poucher (Yale) third; time, 4m. 28s. 440-yard run—Wilcox (Yale) first, Moore (Princeton) second, Richardson (Princeton) third; time, 49-1-5. 120-yard hurdles—Ingorsoll (Yale) first, Stewart (Princeton) second, Frederick (Princeton) third; time, 12-4-5. 100-yard dash—Treadway (Yale) first, Ricketts (Yale) second, Steward (H.) third; time, 12-5-5. Two-mile run—Overton (Yale) first, Holden (Yale) second, Frost (Yale) third; time, 1m. 44-4-5. Shot-put—Longstreet (Princeton) first, Glendinning (Yale) second, Ricketts (Princeton) third; distance, 41 ft. 3 in. High jump—Oler (Yale) first, Davy (Princeton) second, Potter (Yale) third; height, 6 ft. Half-mile run—Hayes (Princeton) first, Cook (Princeton) second, Loveman (Yale) third; time, 1m. 55-2-5. Broad jump—Oler (Yale) first, between Hampton and Matthews (Yale); distance, 21 ft. 2-5 in. 220-yard hurdles—Stewart (Princeton) first, Shedd (Yale) second, Crawford (Princeton) third; time, 24-1-5.

220-yard dash—Treadway (Yale) first, Cornell (Yale) second, Moore (Princeton) third; time, 32-1-5. Pole vault—The between Carter (Yale), Johnson (Yale), Baker (Princeton) and Cary (Princeton); height, 11 ft. 6 in. Hammer throw—Lowbridge (Yale) first, Norriss (Princeton) second, Gennert (Princeton) third; distance, 149 ft. 3-4 in.

### NORWALK WINS ALL GAMES TO DATE.

Norwalk, Conn., yesterday afternoon. This victory clinches the Valley League title for the Norwalk boys and is their first in any organized sport. The winning team fanned twenty-two men and started at the bat with a triple and a couple of singles. He allowed only three hits. The score: Norwalk High School, 3; hits, 3; errors, 1. Norwalk, Morrow and Ards; Moffitt and Newton.

### GLENDALE BEATS SOUTH PASADENA.

The South Pasadena High School baseball team was wallowed by the Glendale delegation yesterday afternoon in a very thrilling game. Lukin and Hider dominated the game for the Glendale team, and Allen of South Pasadena scored all the runs for that team. This game ties the two schools for the championship of the league. Batteries—South Pasadena, Wood, Craver and Allen; Glendale, Bidwell and McNutt.

### PRINCETON WINS TRIANGLE RACE.

(BY A. P. NIGHT WIRE.)

PRINCETON, May 8.—Princeton won the triangular race on Carnegie Lake today. Columbia was second and Pennsylvania third.

### U.S.C. PREPS KILL HUNTINGTON PARK.

The U.S.C. preps defeated the Huntington Park ball squad at Huntington Park yesterday afternoon. The game practically clinches the championship of the Suburban League for the preps. The content was never in doubt and the U.S.C. men led all the way through. The final count was 10 to 0. Batteries—Preps, Contreras and Speer; Huntington Park, G. Robbins and M. Robbins.

### HANNIBAL'S EXPLOSIVE.

Believed that When He Crossed the Alps He Must Have Had Something Like Dynamite.

(Washington Star.) Everyone knows the story of how Hannibal crossed the Alps. It is usually asserted that he demolished the rocks that opposed his progress with the aid of fire and vinegar. The word used by the Latin historians, and which is ordinarily called in English translation "vinegar," is acetum.

The question has been raised by a European officer whether this is the true meaning of the original. He thinks that by acetum the historians meant that he used dynamite.

Intended to describe a substance resembling dynamite in its properties, and he invites consideration of the question whether the ancients may not have possessed a formula for making a powerful explosive of this kind.

He calls attention to the fact that two ancient historians, Marcus Graecus and Albert of Aix, speak of the existence of two kinds of acetum, one of which possessed greater energy than the other. A clue to the composition of this explosive may be found, he believes, in the fact that the acetum was described as being "infecting" the property of extinguishing the dreaded "Greek fire." He thinks the substance may have been better known as "Greek dynamite" and was made up of gunpowder, sulphur, and other ingredients.

He adds that there is no question that among the sufferers from the war of antiquity, the discovery of this explosive would have been a most interesting event in the wars of antiquity.

### COMMISSION TO TAKE ACTION.

(SPECIAL CORRESPONDENCE.)

SAN BERNARDINO, May 8.—Intimations that the State Fish and Game Commission will resist the order to leave the Arrow Rock Reservoir to the Power Company, closing Little Bear Valley to fishermen and campers, is given a portion of what the commission, who was here today. The commission will determine if the company was not acquiring the property in prohibiting fishing in a lake stocked by the State with trout. Victor C. Smith, who has the property, is a resident of the State.

He was stocked with the permission of the owners. Local sportsmen will attempt to lure some of the lake's fish to the shore, but the commission will prevent campers from disturbing the cattle pasturing in the valley.

## MANY STARTLING EVENTS BOOKED FOR RODEO TODAY.

Cyclone, Famous Outlaw, to be Featured—Several Cowboys to Endeavor to Ride Bronco—Exhibitions of Fancy Riding by Hazel Hooley and Rose Gibson. Field in Excellent Shape for Feats.

BECKING BRONCOS, cowgirls, and a very pleasant amount of excitement were the features of the rodeo yesterday afternoon. A large crowd enjoyed the event, and the field was in excellent shape for the feats. The cowboy, Cyclone, was the featured performer, and several other cowboys endeavored to ride the bronco. Exhibitions of fancy riding by Hazel Hooley and Rose Gibson were also featured. The field was in excellent shape for the feats.

## Automobile Show

Spring Sale Locomobile Exchange Cars  
May 10th, 11th and 12th—9 a. m. to 8 p. m.

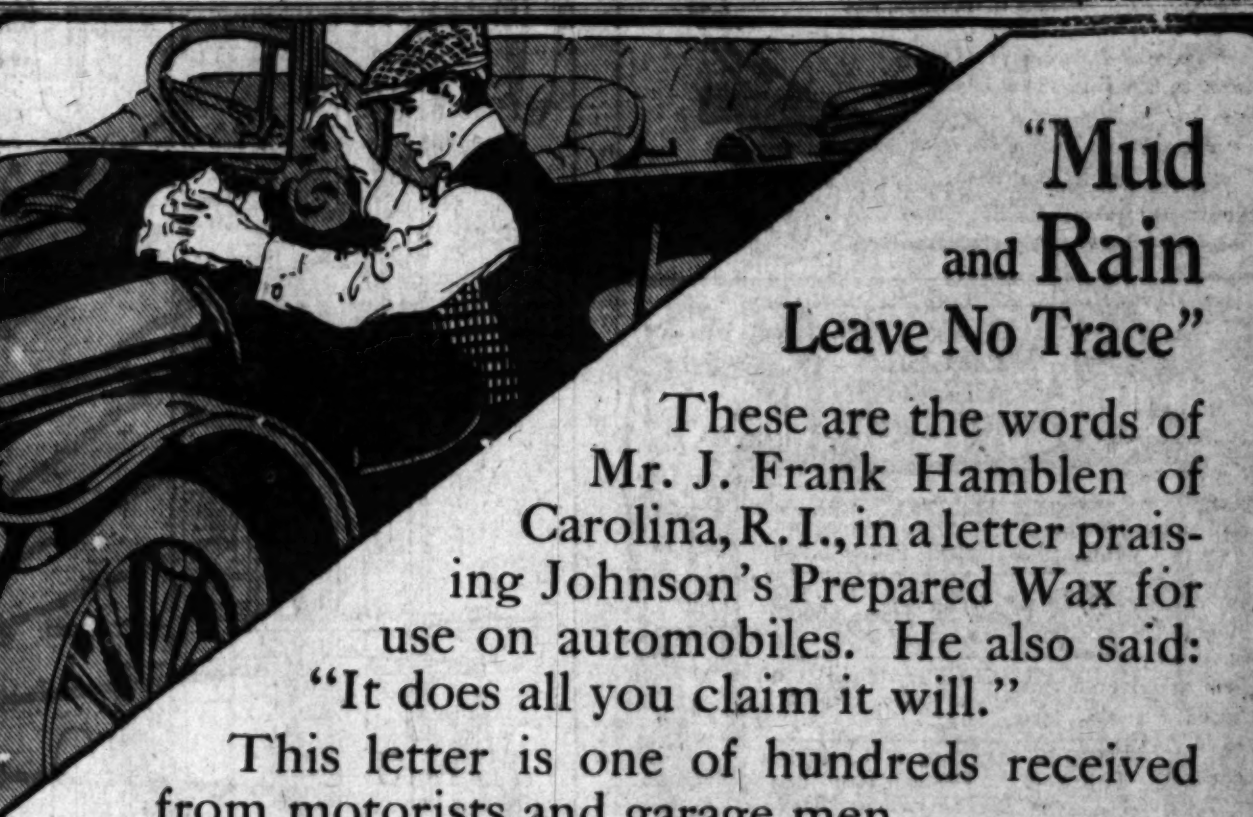

We offer the finest assortment of guaranteed Motor Cars at medium prices ever gathered under one roof. Cars that have been owned and used by the type of people who care for and do not abuse their cars. You who have wanted the car of Prestige, of Refinement and of Vogue, but for one reason or another have not purchased, can now secure that Quality, Safety and Style at a saving to you of from 25% to 50%.

No one who expects to buy a car at any price within a year can afford to miss this sale.

The exchange Locomobiles offered at this show have been very carefully inspected by us and carry the famous L. C. of A. Guarantee. The purchaser is entitled to and will receive the same service, the same attention, and the same care and consideration as the owners of new Locomobiles.

Come in morning, afternoon or evening at your convenience. We can handle your present car and arrange convenient terms.

"Mud and Rain Leave No Trace"

These are the words of Mr. J. Frank Hamblen of Carolina, R. I., in a letter praising Johnson's Prepared Wax for use on automobiles. He also said: "It does all you claim it will."

This letter is one of hundreds received from motorists and garage men.

## Johnson's Prepared Wax

Is a Dry Polish—Does not gather dust—Prevents mud stains—Preserves the varnish. What other polish do you know that has all these good points?

Mr. B. F. Sawin says: "From my experience your claims are not strong enough. Your wax leaves such a hard, dry and glossy surface that dirt does not stick to it." "Any chauffeur or owner caring for his own car, after having used Johnson's Prepared Wax would never use anything else."

Unequalled for floors, furniture, woodwork, pianos. Does not show heel marks, finger prints or scratches.

## EVOLUTION OF MEANS OF TRANSPORTATION SHOWN

**INFORMATION** received by Al G. Faulkner of the Carlton-Faulkners-Bowles Company, Southern California, and Arizona distributors for Jeffery's and McFarlan cars, indicates that the new features of the new features of the San Francisco exposition will be the "Evolution of Transportation" pageant to be held the latter part of this month.

Transportation from the earliest and most primitive times to the latest limousine, aeroplane and jitney bus will be shown in the parade pageant, and the advance in civilization could not be better portrayed than by showing the progress made in the movement of transportation.

The subject is of greatest interest, or more vital importance to the entire world than transportation itself, because it is the factor which represents the progress of the world. It is today probably the most important factor in the advancement of civilization, and it is through the development of facilities for transportation there is a greater movement for good roads and highways.

The pageant will feature every type of transportation, not only vehicles which are used on land, but also those which are used on water and air.

**WATCH THE TIMES FOR MORELAND LETTER-WRITING CONTEST.**

**inch by inch Studebaker prove its superiority**

And it's **SUPERIORITY** that you can see for yourself—with your own eyes, if you'll just take the opportunity to go over the Studebaker chassis in detail.

Some manufacturers, you know, who make both a Four and a Six, put the **GOOD** design into the more expensive **SIX**. But you take this Studebaker **FOUR** and stand it side by side with any other car, and study it just on **QUALITY**. And inch by inch, note the Studebaker superiorities.

First of all, look at that Studebaker-Wagner Electric System. Simple—light—balanced almost to the center—very little detail of the whole system **EASY** to get at. Has been used on 100,000 Studebakers with untiring success.

And then, note how simply and cleanly that Studebaker Motor is built—and how **ACCESSIBLE** it is. Carburetor sits high on side of the motor. Valves are easily gotten at. And you can make any inspection or adjustment simply by raising the hood. Built to develop plenty of **POWER**, too—but to make every last drop of gasoline pull.

And just in passing, look at the Studebaker Steering Gear. Irreversible type, you know, that keeps the road-shocks away from the steering-wheel and makes driving **EASIER**—and safer. Adjustable for wear, too. Many cars use the old, reversible type that costs less.

Then, note that simple Studebaker Clutch. It's a cone clutch, you know—leather-faced, **SOFT**-gripping. No jerking when you throw it in. And it's so easy to get at for inspection or oiling.

Then, note that **ALL** the wiring is enclosed in flexible steel conduits that protect them from moisture and oil and grease and damage from tools. Makes wiring trouble-proof.

Observe the Willard Storage Battery that Studebaker uses. Best that's made—3-cell type. Placed so as to be **EASY** to see and get at for filling. That's Studebaker attention to details.

And that Studebaker Brake Equalizer—that's mighty important. Many cars omit it—too costly. But it makes the cars **SAFER**—stops skidding—waves tires. And the only other car like this is on a \$5,000 car.

Notice, too, that the transmission is in unit with the Rear Axle. Increases the manufacturing cost—but insures perfect alignment, smooths any vibration of the gears and gets more even distribution of weight. Makes the whole car ride and drive more easily.

And note that Studebaker uses **TWO** radius rods and a torque arm. Many cars drive thro' the springs. But that necessitates stiffer springs. Makes the car **HARD**-riding. While the **TWO** radius rods and the torque arm that Studebaker uses leaves the springs free just for smothering the jolts and jars. Makes the car marvellously **EASY**-riding.

And then, of course, that **FULL**-floating Rear Axle will interest you. For, with one exception, every other **FOUR** uses the earlier type. But Studebaker uses this **FULL**-floating axle even tho' it's more costly, because it's so much **SAFER** and easier to get at. Carries the weight of the car on the axle housing and has **TWO** Timken Bearings in each hub to take up the side-thrusts. Axle shaft only has **ONE** duty—to turn the wheels. Shaft can be removed, too, in less than two minutes. Note, too, that axle housing. Other cars use malleable castings—THIS is a much stronger and much **LIGHTER** steel stamping with folded edges.

And so you can go over this Studebaker inch by inch and find scores of **SUPERIORITIES**. For Studebaker has built this **FOUR** to live up to the **PROMISE** of that name of Studebaker. Every last detail has to represent the latest achievement in engineering and the highest quality in manufacturing. We don't want you to buy the car unless you are satisfied that it does, too. But we **KNOW** that when you stand it side by side with any other car, you'll find that just on merit it's a better buy. And it costs you from \$90 to \$225 less at the start—and less right along in upkeep. See it today.

**FOUR \$985**

**HOW IT'S DECIDED.**  
 The candidate who is elected all the votes of each candidate are counted. If there is one who receives a majority of the votes he is elected. If no number of votes more than half the number of votes cast, the two candidates then receive the most votes are added separately and the first-choice votes are counted. The candidate then receives the most votes is elected. If still there is no candidate who has received a first-choice vote, the first-choice votes are counted and then added to the second-choice votes. The candidate, after which one candidate has secured a majority of the votes, is elected. It might so happen that the addition of the third-choice votes might result in one candidate having more than half the votes. In that case the candidate who has the most votes is elected.

## CHAMPS TO BOX AT THE L.A.A.C.

Winners at Exposition to  
Come South.

Local Boxers to Try Fists on  
Easterners.

Hunefeld to Meet Gorman in  
Feature Bout.

Los Angeles boxing fans will have a chance to see four national champions perform against champions of Southern California in the ring at the Los Angeles Athletic Club next Friday evening, May 14. Arrangements have just been completed for a series of matches which will bring here a quartet of the classiest boxers ever developed in the East. They are men who won national championships at the recent A.A.U. tournament at Boston and later competed in the Pan-Pacific international championships at San Francisco.

**THE CHAMPS.**  
The group includes H. Root, 108 pounds, of the Cleveland Athletic Club, Cleveland, O.; M. J. Crowley, 135 pounds, of Malden, Mass.; C. Askin, 145 pounds, of Boston; and P. Gorman, 155 pounds, of Boston. Root will meet Tommy Richards, 108-pound champion of Southern California; Crowley will stack against Charley Barker, the best 135-pounder in this section, and Askin will face Mockenhaupt, who won the 145-pound title at the A.A.U. tournament at Shrine Auditorium last month.

**THE FEATURE.**  
The star bout will be between P. Gorman, said to be the best 155-pounder developed in the East in years, and Willie Hunefeld, Southern California's champion in that class. Both these little fellows are scientific and carry a stiff punch, and a rattling bout is expected.

Four additional special matches will bring together the pick of Southern California's boys in several classes. Cliff Jordan, welterweight champion, will meet J. Bowyer of the Pasadena Athletic Club; Jimmy Rafferty will box Louis Woodward at 115 pounds; Tommy McMahon and Frank Lonsky, 135-pounder, will clash, and Fred Hawley, a hard-hitting welterweight, will meet Jack Geyer of the L.A.A.C., former champion in that class.

**DUE TOMORROW.**  
The visiting easterners are due here tomorrow and will work out in local gymnasiums. They are eager to meet the Southern California champs, according to De Witt Van Court, who went to San Francisco to represent the L.A.A.C. and some lively fighting is promised.

The contests will be open to the public, reservations for seats being made at the L.A.A.C. Cliff Reuman, chairman of the Mercury Boxing Committee, and George Blake have charge of the bouts.

**The Submarine's Possibilities.**  
[Philadelphia Record:] If submarines, comparatively a recent invention, have already attained a cruising radius of 2000 miles, what reason is there for supposing that, with the steady march of improvements, this radius may not be extended to 3000 miles? That would make it possible for one to cross the Atlantic in the event of a war between the United States and some European power, and deliver an effective blow at a submarine or a battleship. The latest German feat thus gives point to what a few months ago would have seemed idle speculation. Apparently the submarine is to figure very largely in future contests at sea.

## AMATEUR BOXING TITLES SETTLED AT EXPOSITION.

[BY A. P. NIGHT WIRE.]

AN FRANCISCO, May 7.—The semi-finals and finals of the Pan-Pacific Exposition amateur boxing championship tournament were held here tonight.

In the first bout of the semi-finals the national champion in the 115-pound class was defeated by the far western champion, when Arthur Strawhecker of the Cleveland, O. Athletic Club lost the decision to Henry Gleason of the Seattle, Wash. Athletic Club. The first round was fairly even, but in the final round particularly Gleason's speed and clever boxing ability told.

In the next bout A. Nack, Union Settlement Athletic Club, New York City, won over Frank Gorman, Bryan Gymnasium, Boston, Mass. Gorman being disqualified in the first round for unclean fighting.

J. Moretto of the San Francisco Olympic Club, far western champion, won a decision over A. Wyard, Seattle Athletic Club. Moretto defeated Wyard a few weeks ago when he won the far western championship.

**SUMMARY.**  
Semi-finals: At 115 pounds—Henry Gleason (far western champion) Seattle A. C., decision over Arthur Strawhecker (national champion) Cleveland, O., Athletic Club.  
A. Nack, Union Settlement Athletic Club, New York City, won over Frank Gorman, Bryan Gymnasium, Boston, Mass.; Gorman disqualified in first round.  
At 125 pounds—J. Moretto, Olympic Club, San Francisco (far western champion), decision over Archie Wyard, Seattle (Wash.) Athletic Club.  
At 155 pounds—A. Paufmann (na-

Don't Work.

## FORETHOUGHT MAKES A MOTOR CAR ACCESSIBLE.

**T**HE greatest factor in securing a clean-cut, compact and accessible motor car is the combining of the fore-thoughts to the exclusion of the after-thoughts, states Froman Speers, president of the Baking-Speers Auto Company, Pico and Grand avenue, distributor of the Haynes Light "Six."

"It is approaching the impossible in obtaining the greatest accessibility when several features are added to the car after it has once been built. Every car shows how well it has been planned in all details.

"It has been the common practice to use a piece of sheet iron or aluminum clamped around the exhaust pipe to serve as a stove for heating the air that is supplied to the carburetor. A little fore-thought on the part of the designer would have enabled him to have seen that better results can be obtained by casting a small box integral with the exhaust manifold. "A long, exposed intake manifold is really an after-thought. The cylinders are usually designed first and then some way is devised for getting the gas into them. A few of the later designers have kept the idea in mind of getting the gas into the cylinders with the least condensation when the cylinder casting was designed and have accordingly eliminated the exposed intake manifold and kept all of the intake passages within the cylinder casting. The result is shown by a more flexible motor with less parts and clean-cut appearance.

"Once in a while, a motor is found with the magnets or generator mounted on one side and the wires led entirely over or around the motor to the spark plugs. By the time the owner is annoyed with oil-soaked wires and loose connections several times he begins to realize that a little fore-thought on the part of the designer would have placed the ignition

generator on the same side of the motor as the spark plugs. The same reasoning applies to all of the accessories embodied throughout the car.

"Little thought is ever given to the location of the gasoline tank until the chassis is laid out. Then the tank is usually attached by additional brackets. In the more refined design, the bracket finds little prominence and the tank is made an integral part of the chassis by being carried at the rear between extensions of the side frame members. The car that has the maximum number of built-in parts is like the house with built-in furniture. It is more compact, easier to keep up, and far more serviceable. It is more economical in all respects."

### A BLOCKADED PORT.

Archangel in Russia is Filled High With Goods Shipped from Other Nations for Russian Use.

[Chicago Post:] "In Archangel, Russia's northern port," says the Manchester Guardian, "there were stored in the middle of December enormous quantities of goods of all kinds from England and other countries, including 100,000 tons of coal and thousands of tons of Scotch bearings, of machinery, cotton and chemicals. As the weather had up to that time been unusually mild, it was hoped to keep the harbor open to navigation until the middle of January."

This is a sidelight upon one of the most curious trade conditions created by the war. When war broke out many American shippers cast their eyes upon the map of Europe in order to find a way into Russia. They found, of course, the trans-Siberian Railway. But that looked like a long, long way to Tipperary. So they looked again. And there, way up in the heart of

the North Sea coast, on the great White Sea which indents it so deeply, was the port of Archangel. A little investigation showed that it was blocked a good part of the year. But it was certainly open in July, when the ice started. Also a railroad line ran down from it to a junction from which there were straight lines into St. Petersburg—since resumed—and Moscow.

Upon this information many of our exporters with Russian orders shipped their goods to Archangel. In this they were wise enough had it not been for two important factors which they overlooked.

The first was that everybody would have the same idea, and therefore that Archangel's freight facilities would be overwhelmed. The second was that the railroad to the south was only a single-track, narrow-gauge line and that war's demands would pile up in this now frozen seaport so much goods that it would take about eighteen months, normally, to get rid of them. One American exporter who duplicated this order, sending one shipment by Archangel and another by Vladivostok, has had the odd experience of seeing the longest trip around prove the shortest way through.

The strange tale about the "Russian troops from Archangel," which fooled all England for weeks is no stranger than the actual tale of Archangel's adventure. Think of her sitting there in her loneliness amid the ice and snow, overwhelmed with a wealth of the world's manufactures, useless to her, though of vital need to great cities far south of her.

## Mr. Dealer

When you sell your customer an order of A. B. C. Oil, he knows that you are not handing him an inferior product in order to realize a large profit, because he has learned that A. B. C. Oils are pure Pennsylvania paraffine base oils. Of course you can buy cheaper oils than A. B. C. Oils, but you cannot buy any better, and remember also that all so-called Pennsylvania oils are not pure Pennsylvania oils. The A. B. C. brand can be made a big factor in building up a substantial trade. In fact an A. B. C. sign on your building will be an asset to your business.

Don't try to bunko the public or they will soon pass you by.

# PACKARD RESPONSIBILITY behind your hauling

Packard New Model Trucks are more than a complete line of trucks just a generation ahead.

They are more than the only complete series of silent, up-to-date chainless trucks.

They do more than provide increased usefulness, wider adaptability, greater activity, longer service and reduced cost of operation.

They do more than provide equal certainty in trucks of 1, 1½, 2, 3, 4, 5 and 6 tons.

They sustain Packard responsibility. They bear the mark of Packard certainty.

It is good business sense for you to inspect the Packard New Model Trucks and learn just why and how they will fit your business and protect your pocket-book. If it is not convenient for you to call just now, ask our salesman to call on you—or, at least, send for a catalog.

Put Packard responsibility back of your hauling.

Charles C. Anthony, Inc.

1000 S. Hope Street.

All trucks sold at retail by Charles C. Anthony, Inc., carry with them a detailed, fully illustrated prospectus of service in the shape of a book containing complete information of models. These prospectuses will be loaned, not only to car dealers but in every city 177 service stations in California. When you want service, call, or send for it and pay for it with the coupons already in your prospectus.

## MR. TWEE DEEDLE

When our three friends had escaped again from the wicked Witch of the Tree they walked until they became so tired and hungry that they sat down on a flat stone to rest. "I believe that little twig there is the sprout of a sandwich bush," said Mr. Twee Deedle.

So Mr. Twee Deedle spoke a magic word, and the bush grew so fast that presently the little bush was covered with sandwiches. Some were ham and some were cheese sandwiches. So the three sat and enjoyed eating them, unaware that the Witch had followed them.

So the Witch of the Tree sneaked to the bank above them and rolled a big ball of magic Swiss cheese down at them. They kept on munching the sandwiches, for they did not know that she was anywhere near them.

The big ball of cheese hit them and covered them with a sticky mass that glued them to the ground, for it was magic cheese. With a blood-curling shriek of joy the Witch clambered down the bank and stood beside them.

"Ha! ha!" she laughed. "You thought you had escaped me, but I have you safe this time; so get up and walk as I tell you!" Mr. Twee Deedle tried to say some magic words, but the enchanted cheese smothered him.

The Witch of the Tree then marched them to a cave in the side of a hill, and pushing them inside, she slammed the door and locked it. "Now you can stay there until I decide just what I wish to do with you!" she screamed. So she hastened away to get her sister to help her think of something wicked to do to the captives.

# SNAPSHOT BILL

WHY DON'T  
YOU GET A  
HAIR-CUT  
MR. BIRD?

EDITED by MARION HARLAND

**T**HE high cost of meat has led us all to study economy both in buying and using. Most of us know the extravagance which accompanies marketing by telephone or sending the order by the market man; we have learned that the only way to secure good meat at a reasonable price is to understand the different cuts of the animals and to stand by while the pieces we need are made ready for us.

One of the points not generally grasped, however, is that slow cookery is always essential in the preparation of tough meat for the table. Often the cheaper cuts contain more nourishment and are of more food value than the expensive portions, but, as I have said before, if you do not get the highest priced and pay for it in money you must expect to give an equivalent for the cash in the way of time and trouble.

While slow and long cookery is practically a necessity in making tough meat fit to eat, this treatment alone will not render it palatable. Judicious seasoning of various kinds, certain preliminary work, and other details will be required. Meat which has had no other care save that of a boiling or stewing, which will break down the tissues and make them tender, is not pleasing to the taste, and the economy which provides articles which no one can eat is not of a wise variety.

Take, for example, a pot roast of beef. One of the best of these is an inside cut from the flank, with a pocket made to be filled with a highly seasoned stuffing. Another as excellent is a cross rib cut, to be larded with strips of salt pork; a little good dressing of crumbs, sweet herbs, and onion juice rubbed on the surface of the meat or into slashes made in the beef with a sharp small bladed knife improves the flavor of the meat and gives it a zest it would otherwise lack.

Another instance is that of a steak. Theoretically the porterhouse of the sirloin is the only satisfactory steak to be served on a first course table. In a measure this is true, since the best varieties of such steaks have a flavor which is often lacking in the cheaper cuts. At the same time the chuck steak if properly cooked may be as tender and as fully as nutritious as the sirloin. But it cannot be clapped over a bed of coals and broiled quickly as may be done with the more costly piece. Still less can it be fried with any hope of a better result than toughness and tastelessness.

Even the driest chuck steak may be made pleasing if it is rubbed with oil and lemon juice and allowed to lie in this for an hour before cooking. Instead of broiling it should be "smothered" or steamed and served with onions or some other savory accompaniment.

Boiled meat and stews are frequently lacking in flavor because they are put on in cold water, cooked to tenderness, and the meat then taken from the stock and this used for soup, while the meat is served without the juices which would have made it appetizing. Boiled meat should always have with it either a highly flavored sauce or plenty of gravy founded on the liquor in which it was cooked. This will compensate for the salts and other palatable constituents

Plain boiled meats have their uses. A boiled leg of mutton with caper sauce; boiled beef with horseradish sauce or a highly seasoned brown gravy; bottled chicken served with rice and plenty of good sauce made from the chicken stock—all are good either at their first appearance, when warmed over in slices in the sauce which accompanied them on the preceding occasion, or to use in

mines, croquettes, pâtés, hashes, fritters, and the like. Quite as good, if not better, are stews of different kinds made from the cheaper pieces of beef, mutton, lamb, veal, and poultry.

In the same line as these stews and generally better liked are meat pies. I have known families who scoffed at the ordinary stew and were delighted with the same meat served in a pudding dish, with a top crust. This they would eat and praise, while the plainer dish met

only with contempt.

Considering this, it would be well for the housekeeper inclined to economy to make a study of the meat pie. In a way it is less expensive than the stew, since bread is cheaper than meat and the top crust which makes the difference between the stew and the pie may be simply a biscuit dough or a potato crust, neither of which is as dear or as indigestible as a regular pastry made with butter and lard.

In passing it may be remarked that one reason for the prejudice against stew is that they are frequently unattractive. When meat is in them it is cut in regular "hunks" instead of into small pieces of uniform size; when the gravy is thin and watery; when good and appetizing seasoning is conspicuous by its absence; when the meat after cooking is "dumped" carelessly into a dish with no garnish to give it a border of potato or rice or with a little trimming of cress or parsley, no one can be blamed for turning from it without desire, or for eating it merely from a sense of duty and to fill an aching void. The good stew is a different thing from

The recipes given below may serve as suggestions to further incursions into the domain of cheap dishes of meat rendered palatable by careful preparation and slow cookery. I hope they may prove an incentive to my fellow housekeepers to send me discoveries or inventions of their own in the same line for the benefit of other Cornerites. We are all seeking methods for setting good tables at a reasonable cost and are grateful for any hints that will help us in this object.

**SAVORY BEEF STEW.**

For this the cheap beef will answer, and it must be cut into pieces about an inch square, put into a saucepan with two cups of cold water, a gently simmered for an hour and a half, or until so tender that the meat may easily be pierced with a fork. Add half an onion, chopped; a tablespoon of minced parsley, thyme, and sweet marjoram; half a teaspoon of allspice, and pepper and salt to taste; cover again and stew for half an hour more. Garnish with a tablespoon of browned flour wet up with a little cold water, two teaspoons of spicy meat sauce, and serve. If properly made this is delicious.

**STEWED BREAD OF MITTON.**  
Lay the scrap or breast of mutton in a broad saucepan, stew over it a slice of onion and a few stalks of celery, pour in two cups of water, season with salt and pepper. It will boil gradually. *Stew* for an hour after the liquid begins to simmer; turn the meat over, cook an hour longer, take from the fire, and lay in a heated pan, and put it in the oven to keep warm while you pour off the gravy and set the bowl containing it in an other vessel of cold water. When the fat rises remove this strain the gravy into a saucepan, and wash it a bag of cleaned turneps, chopped and freed from bumps, two cups of canned peas, drained from the liquor; season the gravy with salt and pepper and pour all over the lamb in a hot dish.

**STEWED CORN**

For this the husks must be removed. Trim them neatly, say in a half inch just long enough to serve as handles. Put them in a stewing pan with butter to half cover. Cover and simmer for an hour. Take out and keep hot. Then add the corn, salt and pepper to taste and skimming the cream of the milk. Heat the strained gravy and add a little browned flour, or a little corn meal, to thicken. Put in the butter and the juice of a lemon. Put in a spoon of sherry. Pour into the dish.

**ROLLED STEAKS.**  
Remove the bone and  
steak or round a pound  
thick and lay flat.  
Make a farcecom of  
pork and bread crumbs  
the pork to two parts of  
season with onion, salt,  
thyme, and sweet  
must be to a thick  
quarter of an inch  
like a roll of muslin  
on the inside, and  
keep the roll in shape.  
pan; pour over it  
cover it half way, and  
ing use boiling water in  
melted a tablespoon of  
pan closely and cook slowly  
hour, turn, cook thirty  
uncover and brown. Transfer  
a hot plate add soup  
while you thicken the gravy  
round, adding, if necessary,  
seasoning. Serves six.  
around the neck in the  
rately.

**SHRIMPSTEAK PIE**

For this the same recipe may be used. Cut two pounds of beef squares, lay it in a pan over the meat bones and let it set the afternoon in the stove or over a low flame on the top of the range. Cut up two raw kidneys, kidneys, scald them, but do not put them over the fire to cook. After fifteen minutes are reached. When the fat has run off the water and let it get to skim the fat from the water, gather a good tablespoon of fat and four and seven eggs. Beat the gravy with cream and add a little salt and sugar, lemon juice, milk, and pepper. Put squares of beef and kidneys in a baking dish, pour the gravy over place on top a good layer of rather short and roll it a little thick, and cook the pie one hour in a steady oven. The brown lightly.

### Directions for Rugmaking.

"F Mrs. E. F. W., who asked for an air cushion, is not yet supplied I will send her mine. I accept her offer to pay postage, which will be about ten cents. Perhaps some of the second-class people who have made them by the following directions: Make a rough frame by nailing together four sticks of wood of any size desired; then tack on a piece of clean gunny sack-cloth. Either all the small scraps together and pull them through the sack-cloth, or pull a single strand through the space in the sack-cloth with a stout crocheted hook. If the rug made of woolen scraps it will be warm and comfortable, and different designs can be followed, such as a star or a cross, or using different colors of materials. Wash the scraps in warm water and wash all of coats and trousers or skirts that have gotten their uncleaned garments and cut them piece after piece to advantage. Cut the stuff into pieces over 10 inches wide. Sew them together to make three long strips of material. Press the strips flat. Then lay the strips out so as to form a round, a square, an oval, or a triangle, and whip the edges together on the wrong side. You can make a rug any size you please and use any sort of wooden goods you have on hand. Wash the rug in warm water and give it a brush daily. I wash it once a week with soap and water, and I also wash my hair, and I protect my hair when soap-suds are on my head. The soap-suds always seem to be full of lint. Some one asked where she could get Mrs. A. D. T.'s books. They are in the public library, and I have a copy of each of the three books. Perhaps they are in other libraries also, and it might be worth while the correspondent who wants them to write to the library and see if they have them in their way. Mrs. A. W. thanks for the offer of the air cushion. Mrs. E. F. W. had been already supplied when this letter was received, and she was glad to hear that some one else would be glad to accept this kindly offer and to pay the 10 cents postage for the sake of obtaining the book which she had so long desired. During a layette was sent and no doubt she will be delighted to have an addition to the little outfit. The suggestion of a rug is a very good one. It is a well-known warm and attractive rug made by these directions, and those with a foundation of sack-cloth are especially desirable. I have not seen any of the kind that I have not found them to wear well as the braided rug. Antelopekeeping a half brush clean, I always use ammonia and wash it with soap and water. I do not add soap to the water. If the rug is brush is dry a comb is rubbed over it several times this will remove the dirt and keep it soft and clean. I wash my hair. If any one has better methods

of cleaning a brush we would be happy to

*Wants Invalids to Write.*

"I would like to hear from some of the shut-ins, as I am a shut-in myself. I can do some fancy work, but my eyes are poor. I have some flowers I would gladly give away if any one were willing to pay the postage on them and would send this to me.

MRS. S. E. C."

Some one will be sure to respond to this request for correspondence with other shut-ins. I take it for granted that the flowers offered are growing plants.

*Cheap Way to Make Beads.*

I am sending a nice, inexpensive way to make beds and other things which cannot be used; for instance, An old plaque, or even a pie plate or tray, may be utilized. Paint the background black and make the compound into the shape of any fruit or flowers and fasten them to the background with glue. A tray placed on the edge of the sofa, or a table, while the plaques are hung on the wall, adds beauty to the appearance of the room. To prepare the mixture, make one cup of well sifted flour into a batter with water, as though you were going to mix hot cakes. Use a tin plate or the top of a hard baked pie pan, into which you have poured and set the plate on top of the tin, leaving it anywhere that you can cook a cake with steam. Put enough batter into it to make a small cake. You will know when it is done by the steam rising and a marble wire. Lay the cake out on a piece of a board and sprinkle over it, as if you were salting a cake, a little oxide of zinc, and then with a knife "brush" or "spread" the oxide over the cake. When I am working with this I have a long plank and make two cakes of each color—pink for rose, green for leaves, and so on. This dough sets as hard as enamel, and I have used it for years. I forgot to say that after putting on the oxide and paint you should work it to dough. You can work with one batch for a week, but if you more easily handled it, you could use it for a day. I will try for further information and will write to you, enclosing a stamp for reply, I will try to answer any questions. I will give ground linen, silk, or cotton thread for the plaques, and also a piece of wire for your silverium cuttings, or bulbs of any kind. You will publish the following?—any woman will organize a class of— I will come and give free lessons in the K. K. K. I will give you a piece of help to shut-in and to mothers wishing to earn extra money and to laundries the home. I still have the bones and thread I offered some time ago. Although I cried a half some time ago recipes for making beads, I do not

consider I am breaking my decision in giving the above, since the plate or bique can be put to so many uses besides the beads. Such work as is described by the correspondent may be either pretty and artistic or cheap and meretricious, depending upon the ability and the care that are bestowed upon it. In all events, I give the directions for the benefit of those who care to follow it, and I am also glad to print the offer of fancy work materials in return for plans of various sorts, as well as the suggestion for the class.

*Sufferer Has Many Needs.*  
 "Some time ago I wrote to you concerning a most unfortunate shut-in with whom I had been corresponding for a long time. You promised to print the

appeal at your earliest opportunity, but I have not yet seen it and I fear that it must have been overlooked. This poor woman undergoes great physical suffering as well as lack of the bare necessities of life. She longs for correspondence, and for books, and for newspapers, and for reading matter, and any trifles which would seem nothing to more happily placed persons would be a great deal to her. I beg of you to try to interest some of your kind hearted correspondents in her, and to send her what they prefer and her many needs. She is an educated woman, having been a school teacher before she became afflicted with a most severe form of rheumatism, which has confined her to the house for the last five years. I am sure that if you do not send her name published, I am sure some of the members of the

Cornes can do all we their power to brighten the life of this tragically afflicted shut-in. All that is in my power is little and seems as nothing in comparison with her sufferings and her needs. Her initials are Miss B. L. N.

Sometimes I wonder if the shut-ins who are married, so thickly over the country I wonder if we who are well and strong have the least idea of all they undergo. We can move about as we choose; we can select our occupations and amusements; even if we have to work hard, we can do so with our thoughts filled. What must it be for those who are chained to what the poet Heine called his "mattress grave" or are bound to a chair of even consequence, from suffering and physical dependence. In a word, what must it be for us to do for them? I must have to leave

early and generous response to the plea for Miss B. and I will gladly send her address to any one who asks for it with a view to observing her life.

\* \* \*

### Would Adopt a Baby.

"I am writing to you for advice and help from the Conventists. I have advertised, but without success. I want to adopt a baby a month old or younger. Possibly I might find one who would be willing to part with her babe and to whom I owe it. We are in a position to give an infant the best of care and an education and all that can be desired in the way of a good Christian home. I have often wished that I might find a baby on my doorstep and I would have been grateful for such a discovery. I have read often of your love to others and I am sure that you will help me."

— "Daisy Mae."

As I have said before through this department in many states there are charitable associations from which babies can be secured with an account of their pedigree and some idea of their family proclivities. Even without turning to these organizations as there, however, it ought to be possible to find an infant as is desired by "Childless." She does not state if she desires a boy or a girl, but apparently she would be willing to take either sex. I am sure that a good Christian home, where a child would be well cared for and suitably educated seems to offer a place to which a poor mother would be glad to send her infant. She could not care for herself. I hope this notice may bring a response and that those offering the baby will be ready to offer references. I would, of course, be guided by the parents' understanding and the child.

**Collects Relics of All Kinds.**

"I hope you will include me in your *Quest*, for I have enjoyed it so much. For many years I have been collecting the old newspapers or busy mothers might say the alarm clock at the time the cake or other food is supposed to be done, and thus have burnt food and worry, also unnecessary worry, and have been disappointed. I stand ready to help for a poor man who has been an invalid and has not been able to work for twenty-five years. His only enjoyment is found in collecting Indian relics, such as pipes, beads, and cigar coupons, and the little rug, flags, and ribbons that you get with such coupons. I have two of the latter, the common 1 and 2 cent varieties that are now, are welcome, especially if the name of the city is printed across them. He can use two postmarks of a cent, then two inches wide and four inches long. He can use two postmarks of a cent, also the permits that come on the

wrappers inclosing circulars  
don't cut them, but send  
Now I hope so many of the  
send him objects of this  
have a big collection with  
happy in its arrangement  
His initials are J. F. T. I  
interested in your family  
week and would like to  
tell me how much it would  
of four grown persons to  
line. If any one wants  
give them my address, please  
you beforehand for me  
I am sure they will

[illegible]

**Religious Duty**  
 "If you will permit me to say a few words to you, I will gladly send you a copy of the number to give away to your relatives."  
 "Some one is here to see me," said the woman.  
 "I am sorry," said the Corner, but I cannot see you now. I will send you a copy of the number for clothing for the poor of the house."  
 "I will do this," said the woman.

**Box of Magazines**  
 "If you will send me a box of magazines, I will send you a copy of the number to give away to your relatives."  
 "I have enough for my own use," said the woman.

Such offers as these are made to you, and I have no doubt that you will be glad to accept of the magazine.

[illegible]

Coffee.

informer in many states there are charitable associations from which babies could be secured with an account of the parents and names of the father and mother. I have seen such babies provided with an account turning to such organizations as these, however, it ought to be as easy to find such an infant as is desired by "Childless." She might be found in the arms of her mother, but apparently she would be willing to take either one and the offer of a good Christian home, where a child would be well cared for and mutually educated as usual. After placed with a good mother would be tried to commit the infant she could not care for herself. I hope this notice may bring a response and some of the mothers may be ready to offer references, as would, of course, be done by the parents unwilling to adopt the child.

**Collects Relief All Kinds.**

I hope you will include me in your Correspondence. I have been very busy. For entrance fee I give the hint that young housekeepers or busy mothers might use the alarm clock at the time the cake or other food is supposed to be done, and thus have burnt food and very, also unnecessary opening of the oven door. I also come to steady help for a poor old man who has been blind for many years. I am now in a walk for twenty-five years. His only enjoyment is found in collecting Indian relics of all kinds, cigar bands, cigar and cigarette boxes, and all sorts of rags, flags, and ribbons. I can get you with the same. Stamps of all kinds, except the common 1 and 2 cent varieties that are common now, are welcome, especially if the stamps are new. I can get you with the same. He also likes confederate money and postmarks. If the latter are sent, please put them two inches wide and four inches long. He can get two postmarks of a kind, also the permits that come on the

to know how to write to the  
editor, however, I am  
and try to do it  
to offer. As I am  
most impossible to give  
the cost for the  
of the article. I  
writing ability is almost  
the sum which would  
the place where we  
the article. I am  
most counseled by  
greater in our school  
and is largely for  
and appears to be  
the economy program  
looking has many to  
real rate. It is such  
as we are  
\$2.50 to \$3.00  
classes, where I  
for unusually. I  
as tried this  
upon them  
for our benefit.

**Refugees**

There are  
one who would give  
all gladly and unhesitatingly  
million to give over to  
the cause.

Someone can be sure to  
achieve them.

Indefinitely offered. I am  
the Central  
the Government  
offer of the United  
to do this country.

**But of Nations**

If I can  
one who was  
see I should be  
it, I have

to be  
which offers  
and, I have  
made for the  
the

to know that the platter cloth  
is made of such fine trouble and  
therefore, not likely to be damaged.  
But be that as it may, the  
most useful for the design is  
the appropriate use of the color  
of the thoughts, turn of the  
flowers through which all  
colored butterflies sit and  
half of the design for the  
is shown, but by swinging  
around it is quite easy to  
the opposite and a  
both. You may make the  
as you wish, but the  
usually intended for a cloth  
fastened by twenty inches.  
The fastening easily  
can be worked out  
of line. For instance, the  
may tempt the butterfly  
the four corners of the  
in like the butterfly  
should be like the central  
the stems. The central  
the center, in looking again  
the wings and inclined to suggest

BY ADELAIDE BYRD

DESIGNED BY A. A. RITTER

The rose border on the boudoir cushion is perhaps more easily followed, though full directions for both may be had by a written request to us. Eighteen squares form the foundation row for this pattern, or fifty-eight chains. This border, too, is set into the linen of the pillow by single or double crochet stitches, as are the butterfly medallions, formed on a foundation of seventeen squares. The edge on the pillow

# Fashionable Adopt The Picturesque

"A H, ISN'T she a picture?" is heard once in perhaps a very long while, and immediately every one within hearing covertly or frankly turns to look at what promises to be a pleasant vision. And these "pictures" have not been any too plentiful recently, particularly in the not-long-gone period of tube skirts; but Fashion now holds out the pretty promise that it is the thing to be picturesquely dressed, and the woman who comes nearest to looking like a canvas belle that's lost her frame will elicit the biggest buzz of admiration.

Long ago Marie Antoinette had the same notion, and her court went a-peasanting, a-milk-maiding and a-shepherdessing, all on a summer's day, at a play farm, where the queen herself was country mistress. And the "simple" garb was made of silks and satins instead of cottons and woollens, and the colors of these royal peasant gowns were dainty and fairylike instead of shaded for utility wear and to show the least soil, so that all the pretty ladies

resembled frail bits of Dresden china and not real people at all.

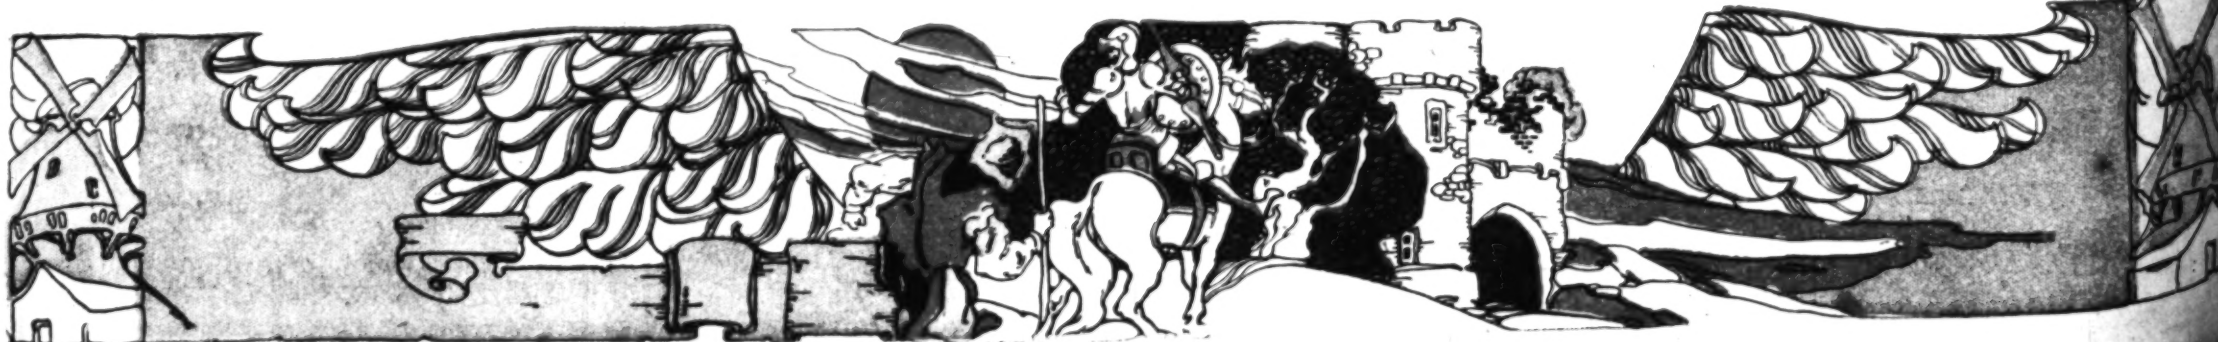

While our modern "picturesque" fashions of today are of most delicate and bewitching fabrics, they come nearer the desired simplicity of the gay Marie than did her own following, for today huge hoops are not an essential to the bouffant skirts, and powdered wigs of uncomfortable and mountainous dimensions are not worn. Indeed, the hair displays only its own beauty, at most having a slight wave, possibly an added curl, sometimes a jeweled pin, while the gowns scarcely go beyond the wired front.

What lovelier could you ask than the flower girl's pretty frock of pale-blue taffeta looped pannierwise over its cream, pleated chiffon petticoat, conspicuously held in place by the alluring girdle of narrow black velvet? The lower part of the taffeta bodice is belled, while draped all-over lace forms the sleeves. The simple hat is of leghorn trimmed with white and pink blossoms. The dress is charming for a formal garden party or for an evening affair during the summer. It is, of course, only for the slender figure,

though a decrease in the bouffant drapery would make it suitable for the merely plump woman.

The ravishing little shepherdess lacks only a woolly lamb and a crook to the top of her long umbrella to complete her provincial disguise. Pale yellow brocaded taffeta forms the draped tunic and the main part of the bodice, while cream lace is made into graceful sleeves and filmy petticoat. The hat of cream Georgette crepe is trimmed with ecru lace medallions, and yellow ribbon streamers and a tea rose with green foliage ornament the back. The pretty green parasol adds the contrasting note that gives "character" to the costume.

All women cannot be beautiful in feature, but a plain woman can be infinitely more attractive in a beautiful frock than can a beautiful woman whose clothing labels her a frump. To dress picturesquely promises to become the fashion. It is to be hoped that femininity at large will recognize the artistic value of its opportunity.

MONDAY MORNING,

AMERIC

COMPLETE RE  
TO BE ASKIf Demand is Ref  
Will be GiOnly Course of President  
of United States, Declare  
ist on Abandonment of U  
Noncombatants — BerlinBY JOHN CAL  
[BY DIRECT WIRE—]WASHINGTON BUREAU OF  
THE TIMES, May 9.—How the  
impending note of the United  
States to Germany, holding that gov  
ernment to "a strict accountability"  
for the loss of American life in the  
Lusitania, Gulfstream and Falaba dis  
asters, will be worded, is the main  
topic in Washington.  
From a high authoritative German  
source has been learned the ex  
pected character of the action which  
will be taken by Germany.
President Wilson will demand:  
1. Full reparation which necessar  
ily must be in the form of a cash  
sum for every American who  
died with the Lusitania, Gul  
fstream and Falaba.  
2. A pledge by Germany that this  
kind of submarine warfare, ac  
cording to the humanitarianism of  
modern civilization, shall cease at  
once.
Germany is prepared, according to  
the high authority with whom the  
note was discussed, promptly:  
To express regret that so many  
Americans were drowned, especially  
view of the repeated warnings  
to neutrals not to take passage on  
merchant ships.  
To make such financial repara  
tion as is proper, action where such  
is especially required, because undu  
bly between the United States  
and Germany, Americans are specifi  
cally given the right, freely, to traverse

THE CITY. A big legacy left by a  
man to the descendants of a woman  
was declared won after  
many years.  
Dr. Charles Edward Locke, a Methu  
en minister, called the sinking of the  
Lusitania "wholesale assassination" and  
"treason."
Justice was received that a new blow  
had been struck by the California viticultural  
interests in a doubled federal tax on  
wine.
In preparation he asks is granted Charles  
Locke, and crook, it was declared he  
will be re-arrested for a robbery at San  
Francisco.
A noted missionary-statesman declared  
that transportation has filled the world  
with dangers only Christianity can as  
uage.
A Chicago grandmother heard her  
grandson crow by long distance  
from Los Angeles.  
A notable wedding took place beneath  
the most famous and one of the largest  
trees in the South.
SOUTHERN CALIFORNIA. An En  
glishman in Pasadena says women of  
Pasadena are making mistakes in  
their evening dress.
PACIFIC SLOPE. The Legislature is  
not to session; adjournment may come  
later.
GENERAL EASTERN. Sinking of  
the Lusitania. War-news headlines  
of the Lusitania.
